

send you a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN. We may notify you informally, also.

If your application is not evaluated or not selected for funding, we will notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Grant Administration: Applicants should budget for an annual 3-day meeting for project directors to be held in Washington, DC.

4. Reporting: (a) If you apply for a grant under one of the competitions announced in this notice, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Institute. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Institute under 34 CFR 75.118. The Institute may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

5. Performance Measures: To evaluate the overall success of its education research grant programs, the Institute annually assesses the percentage of projects that result in peer-reviewed publications and the number of Institute-supported interventions with evidence of efficacy in improving learner education outcomes. These measures were established for the Government Performance and Results Act of 1993 (GPRA).

6. Continuation Awards: In making a continuation award under 34 CFR 75.253, the Institute considers, among other things: Whether a grantee has made substantial progress in achieving

the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Institute has established performance measurement requirements, whether the grantee has met the performance targets in the grantee's approved application.

In making a continuation award, the Institute also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

[FE Docket Nos. 11-162-LNG, 15-67-LNG, 15-90-LNG]

Cameron LNG, LLC; Application To Amend Export Term Through December 31, 2020, for Existing Non-Free Trade Agreement Authorizations

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice (Notice) of receipt of an application (Application), filed on November 13, 2020, by Cameron LNG, LLC (Cameron LNG). Cameron LNG seeks to amend the export term set forth in its current authorizations to export liquefied natural gas (LNG) to non-free trade agreement countries, DOE/FE Order Nos. 3391–A, 3797, and 3846, to a term ending on December 31, 2050. Cameron LNG filed the Application under the Natural Gas Act (NGA) and DOE’s policy statement entitled, “Extending Natural Gas Export Authorizations to Non-Free Trade Agreement Countries Through the Year 2050” (Policy Statement). Protests, motions to intervene, notices of intervention, and written comments on the requested term extension are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, December 7, 2020.

SUPPLEMENTARY INFORMATION: Cameron LNG is currently authorized by DOE/FE to export domestically produced LNG in a total volume equivalent to 1,287 billion cubic feet per year (Bcf/yr) of natural gas, pursuant to NGA section 3(a), 15 U.S.C. 717b(a), under the following orders and their subsequent amendments:

(i) 620 Bcf/yr under Order No. 3391–A (FE Docket No. 11–162–LNG);¹

(ii) 152 Bcf/yr under Order No. 3797 (FE Docket No. 15–67–LNG);² and

(iii) 515 Bcf/yr under Order No. 3846 (FE Docket No. 15–90–LNG).³

Under each order, Cameron LNG is authorized to export this LNG by vessel from the Cameron LNG Terminal located in Cameron and Calcasieu Parishes, Louisiana, to any country with which the United States has not entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries) for a 20-year term. In the Application,⁴ Cameron LNG asks DOE to extend its export term in each of these three orders to a term ending on December 31, 2050, as provided in the Policy Statement.⁵ Additional details can be found in the Application, posted on the DOE/FE website at: <https://www.energy.gov/sites/prod/files/2020/11/f80/Cameron%20LNG%20-%20Application%20for%20Term%20Extensions.pdf>.

⁵ U.S. Dept of Energy, Extending Natural Gas Export Authorizations to Non-Free Trade Agreement Countries Through the Year 2050; Notice of Final Policy Statement and Response to Comments, 85 FR 52237 (Aug. 25, 2020) [hereinafter Policy Statement].

DOE/FE Evaluation

In the Policy Statement, DOE adopted a term through December 31, 2050 (inclusive of any make-up period), as the standard export term for long-term non-FTA authorizations.⁶ As the basis for its decision, DOE considered its obligations under NGA section 3(a), the public comments supporting and opposing the proposed Policy Statement, and a wide range of information bearing on the public interest.⁷ DOE explained that, upon receipt of an application under the Policy Statement, it would conduct a public interest analysis of the application under NGA section 3(a). DOE further stated that “the public interest analysis will be limited to the application for the term extension—meaning an intervenor or protestor may challenge the requested extension but not the existing non-FTA order.”⁸

Accordingly, in reviewing Cameron LNG’s Application, DOE/FE will consider any issues required by law or policy under NGA section 3(a), as informed by the Policy Statement. To the extent appropriate, DOE will consider the study entitled, *Macroeconomic Outcomes of Market Determined Levels of U.S. LNG Exports* (2018 LNG Export Study).⁹ DOE’s response to public comments received on that Study,¹⁰ and the following environmental documents:

Parties that may oppose the Application should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable, addressing the Application. Interested parties will be provided 15 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention. The public previously was given an opportunity to intervene in, protest, and comment on Cameron LNG's long-term non-FTA applications. Therefore, DOE will not consider comments or protests that do not bear directly on the requested term extension.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590.

Filings may be submitted using one of the following methods: (1) Emailing the filing to fergas@hq.doe.gov, with FE Docket Nos. 11–162–LNG, 15–67–LNG, and 15–90–LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Regulation, Analysis, and Engagement at the address listed in **ADDRESSES**; or (3) hand delivering an original and three paper copies of the filing to the Office of Regulation, Analysis, and Engagement at the address listed in

ADDRESSES. All filings must include a reference to FE Docket Nos. 11–162–LNG, 15–67–LNG, and 15–90–LNG. *Please Note:* If submitting a filing via email, please include all related documents and attachments (*e.g.*, exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this Notice by parties, including the parties' written comments and replies thereto. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.

The Application is available for inspection and copying in the Office of Regulation, Analysis, and Engagement docket room, Room 3E–042, 1000 Independence Avenue SW, Washington, DC 20585. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. The Application and any filed protests, motions to intervene or notice of interventions, and comments will also be available electronically by going to the following DOE/FE Web address: <https://www.energy.gov/fe/services/natural-gas-regulation>.

Signed in Washington, DC, on November 17, 2020.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

[OE Docket No. EA–306–C]

Application To Export Electric Energy; MAG Energy Solutions, Inc.

AGENCY: Office of Electricity, Department of Energy.

ACTION: Notice of application.

SUMMARY: MAG Energy Solutions, Inc. (Applicant or MAG) has applied for authorization to transmit electric energy

from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before December 21, 2020.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to (202) 586–8008.

SUPPLEMENTARY INFORMATION: The Department of Energy (DOE) regulates exports of electricity from the United States to a foreign country, pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 42 U.S.C. 7172(f)). Such exports require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On October 27, 2020, MAG filed an application with DOE (Application or App.) for renewal of its authorization to transmit electric energy from the United States to Canada for a term of five years. MAG states that it “is an independent Canadian corporation with its principal place of business in Montreal, Quebec.” App. at 2. MAG further represents that it “is a Canadian close corporation privately owned by a group of 15 shareholders.” *Id.* MAG adds that it “does not have any affiliates or upstream owners that possess any ownership interest or have involvement in any other company that is a traditional utility or that owns, operates, or controls any electric generation, transmission or distribution facilities, nor do they have any direct involvement with the energy industry other than through the ownership of MAG.” *Id.*

MAG further states that it “will purchase power to be exported from a variety of sources such as power marketers, independent power producers, or U.S. electric utilities and federal power marketing entities as those terms are defined in Sections 3(22) and 3(19) of the FPA.” App. at 3–4. MAG contends that its exports “will not impair the sufficiency of the electric power supply within the U.S.” and will not impair or tend to impede the sufficiency of electric supplies in the U.S. or the regional coordination of electric utility planning or operations.” *Id.* at 4.

MAG states that its exports “will be transmitted pursuant to arrangements with utilities that own and operate existing transmission facilities and will be consistent with the export limitations and other terms and conditions contained in the existing Presidential Permits and electricity export
