DEPARTMENT OF COMMERCE
International Trade Administration
[Antidumping and Countervailing Duty Administrative Reviews; Notice of Rescission of Antidumping Duty Administrative Review]

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is rescinding the administrative review on welded carbon steel standard pipes and tubes (pipes and tubes) from India covering the period of review (POR) May 1, 2019, through April 30, 2020, based on the timely withdrawal of the request for review.

SUPPLEMENTARY INFORMATION:

Background
On May 1, 2019, Commerce published a notice of opportunity to request an administrative review of the antidumping duty order on pipes and tubes from India for the POR May 1, 2019, through April 30, 2020.1 On July 10, 2020, in response to timely requests from interested parties, and in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(b), we initiated an administrative review of the antidumping duty order on pipes and tubes from India with respect to 30 companies.2 On October 8, 2020, Nucor Tubular Products Inc. (Nucor) timely withdrew its request for an administrative review.

Recision of Administrative Review

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review “in whole or in part, if a party that requested a review withdraws the request within 90 days of the date of publication of notice of initiation of the requested review.” Because Nucor withdrew its request for review within the 90-day time limit,4 and because we received no other requests for review of the companies for which the review request was withdrawn, we are rescinding the administrative review of the order on pipes and tubes from India, in its entirety.

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. For all respondents, antidumping duties shall be assessed at the rate equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions to CBP 15 days after publication of this notice in the Federal Register.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(d)(4).

James Maeder,
Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUPPLEMENTARY INFORMATION:

I. Abstract
This is a request for extension of a currently approved information collection.

NMFS certified observers are a vital part of fisheries management. Observers are deployed to collect fisheries data in the field; observers often deploy to vessels and work alongside fishers for weeks and months at a time. The work environment observers find themselves in can be challenging, especially if the observer finds themselves a target for victim type violations such as sexual harassment, intimidation, or even assault. NOAA Fisheries’ Office of Law Enforcement prioritizes investigations into allegations of sexual harassment, hostile work environment, assault and other complaints which may affect observers individually. However, it is difficult for a person to disclose if they have been a victim of a crime, and law enforcement cannot respond if no complaint is submitted. The true number of observers who have experienced victim type crimes is unknown, and the reasons why they do not report is also unclear. More information is needed to understand how many observers per year experience victim type crimes, and why they chose not to report to law enforcement.

The Office of Law Enforcement, Alaska Division, is conducting a survey of North Pacific Observers to determine the number of observers who experienced victimizing behavior during deployments. This survey will be launched on an annual basis. The survey will also investigate the reasons that prevented observers from reporting these violations. The results of the survey will provide the Office of Law Enforcement further insight into the environment observers find themselves in, and how to improve conditions for observers.
