## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA–2021–008]

### State, Local, Tribal, and Private Sector Policy Advisory Committee (SLTPS–PAC); Meeting

**AGENCY:** Information Security Oversight Office (ISOO), National Archives and Records Administration (NARA).

**ACTION:** Notice of Federal advisory committee meeting.

**SUMMARY:** We are announcing an upcoming meeting of the State, Local, Tribal, and Private Sector Policy Advisory Committee (SLTPS–PAC) in accordance with the Federal Advisory

Committee Act and implementing regulations.

**DATES:** The meeting will be on January 27, 2021, from 10:00 a.m. to 12:00 p.m.

**ADDRESSES:** The meeting will be a virtual meeting. See supplementary procedures below.

**FOR FURTHER INFORMATION CONTACT:**

Robert J. Skwirot, ISOO Senior Program Analyst by telephone at 202.357.5398 or by email at [robert.skwirot@nara.gov](mailto:robert.skwirot@nara.gov). Please use the email contact method during the current COVID remote work situation. Contact ISOO at [ISOO@nara.gov](mailto:ISOO@nara.gov).

**SUPPLEMENTARY INFORMATION:** This virtual meeting is open to the public in accordance with the Federal Advisory Committee Act (5 U.S.C. app 2) and implementing regulations at 41 CFR 101–6. The Committee will discuss matters relating to the classified national security information program for state, local, tribal, and private sector entities.

*Procedures:* Please submit the name, email address, and telephone number of people planning to attend to Robert Skwirot at ISOO (contact information above) no later than Wednesday, January 20, 2021. We will provide meeting access information to those who register.

**Maureen MacDonald,**

*Designated Committee Management Officer.*

## NATIONAL SCIENCE FOUNDATION

### Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978

**AGENCY:** National Science Foundation.

**ACTION:** Notice of permit applications received.

**SUMMARY:** The National Science Foundation (NSF) is required to publish a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of permit applications received.

**DATES:** Interested parties are invited to submit written data, comments, or views with respect to this permit application by December 24, 2020. This application may be inspected by interested parties at the Permit Office, address below.

**ADDRESSES:** Comments should be addressed to Permit Office, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314.

**FOR FURTHER INFORMATION CONTACT:**

Nature McGinn, ACA Permit Officer, at the above address, 703–292–8030, or [ACApermits@nsf.gov](mailto:ACApermits@nsf.gov).

**SUPPLEMENTARY INFORMATION:** The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541, 45 CFR 671), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

### Application Details

*Permit Application: 2021–006*

1. *Applicant:* Ari S. Friedlaender, Institute for Marine Sciences, UC Santa Cruz, 115 McAllister Way, Santa Cruz, CA 95003

*Activity for Which Permit is*

*Requested:* Waste Management. The applicant would conduct research around the Antarctic Peninsula to determine the ecological role of baleen whales. Sensor tags would be used to collect data on the underwater movement and behavior of the whales. Over time, the applicant would be able to determine how changes in the whales' behavior correspond to changes in sea ice, krill, and other critical aspects of the Antarctic marine ecosystem that are at risk from rapidly changing climates. The applicant would collect skin and blubber biopsy samples to gain a better understanding of the identity, population structure, and health of the whales. The applicant would operate unoccupied/remotely piloted aircraft systems (UAS, RPAS) to collect photographs of individual whales for health assessment purposes. The applicant would collaborate with Antarctic tour operators that would provide platforms to the applicant's research team in order to gather data during time periods that are undersampled. The applicant is seeking a waste permit to cover any accidental releases that may occur if the biopsy darts, tags, and/or remotely piloted aircraft are lost. The research teams would be comprised of experienced researchers and UAS/RPAS pilots. By employing personnel such as this, the applicant would minimize the risk of
