SUPPLEMENTARY INFORMATION:

Background

On April 2, 2020, Commerce published the *Preliminary Results* of the administrative review of the antidumping duty order on carbon steel butt-weld pipe fittings (butt-weld pipe fittings) from the People's Republic of China (China).¹ We invited parties to submit comments on the *Preliminary Results*. No party submitted comments. Accordingly, the final results remain unchanged from the *Preliminary Results*.

On April 24, 2020, Commerce tolled all deadlines in administrative reviews by 50 days, thereby extending the deadline for these final results until September 21, 2020.² On July 21, 2020, Commerce tolled all deadlines in administrative reviews by an additional 60 days.³ The deadline for the final results of this review is now November 18, 2020.⁴

⁴ *Id.*

Scope of the Order

The merchandise covered by the order consists of certain carbon steel butt-weld pipe fittings, having an inside diameter of less than 14 inches, imported in either finished or unfinished form. These formed or forged pipe fittings are used to join sections in piping systems where conditions require permanent, welded connections, as distinguished from fittings based on other fastening methods (*e.g.*, threaded, grooved, or bolted fittings). Carbon steel butt-weld pipe fittings are currently classified under subheading 7307.93.30 of the HTSUS. The HTSUS subheading is provided for convenience and customs purposes. The written product description remains dispositive.

Final Determination of No Shipments

As noted in the *Preliminary Results*, we received a statement from Solidbend reporting that it had no shipments of subject merchandise to the United States during the POR and this statement was consistent with the information we received from U.S. Customs and Border Protection.⁵ No party commented on our preliminary no shipment finding with respect to Solidbend, and no party submitted record evidence that calls this finding into question. Therefore, for these final results, we continue to find that Solidbend did not have any shipments of subject merchandise to the United States during the POR.

Disclosure

Normally, Commerce discloses to interested parties the calculations performed in connection with the final results of review within five days of its public announcement, or if there is no public announcement, within five days of the date of publication of this notice, in accordance with 19 CFR 351.224(b). However, because the company under review had no reviewable shipments, there are no calculations to disclose.

Assessment Rates

We have not calculated any assessment rates in this administrative review. Based on the record evidence we have determined that Solidbend had no shipments of subject merchandise, and, therefore, pursuant to Commerce's assessment practice, any suspended entries during the POR from Solidbend will be liquidated at the China-wide entity rate (*i.e.*, 182.90 percent).⁶

⁵ See *Preliminary Results*, 85 FR at 18556.

⁶ For a full discussion of this practice, see *Non-Market Economy Antidumping Proceedings: Assessment of Antidumping Duties*, 76 FR 65694 (October 24, 2011).

Commerce intends to issue assessment instructions 15 days after the publication date of the final results of this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) For previously investigated or reviewed Chinese and non-Chinese exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recently-completed segment of this proceeding; (2) for all Chinese manufacturers or exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will continue to be 182.90 percent, the China-wide rate determined in the less-than-fair-value investigation;⁷ (3) for all non-Chinese exporters of subject merchandise that have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under the APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction

of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the term of an APO is a sanctionable violation.

Notification to Interested Parties

We are issuing and publishing these final results in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.213(h).

Dated: November 18, 2020.

SUMMARY: The Department of Commerce (Commerce) is rescinding the administrative review of the antidumping duty order on cold-rolled steel flat products from Japan for the period July 1, 2019, through June 30, 2020, based on the timely withdrawal of the request for review.

SUPPLEMENTARY INFORMATION:

Background

On July 1, 2020, Commerce published in the **Federal Register** a notice of opportunity to request an administrative review of the antidumping duty order on cold-rolled steel flat products from Japan for the period July 1, 2019, through June 30, 2020.¹ On July 29, 2020, Nucor Corporation, Steel Dynamics, Inc., and United States Steel Corporation (collectively, "Domestic Interested Parties"), filed a timely request for review, in accordance with section 751(a) of the Tariff Act of 1930,

¹ See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 85 FR 39531 (July 1, 2020).

as amended (the Act), and 19 CFR 351.213(b).² Pursuant to this request and in accordance with section 751(a) of the Act and 19 CFR 351.221(c)(1)(i), we initiated an administrative review of the 20 companies named by the Domestic Interested Parties in their request for review.³ No other requests for review were received. On October 21, 2020, the Domestic Interested Parties timely withdrew their request for an administrative review with respect to all 20 companies.⁴

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), the Secretary will rescind an administrative review, in whole or in part, if the party that requested the review withdraws the request within 90 days of the date of publication of the notice of initiation of the requested review. As noted above, Domestic Interested Parties, the only parties to file a request for review, withdrew this request by the 90-day deadline. Accordingly, we are rescinding, in its entirety, the administrative review of the antidumping duty order on cold-rolled steel flat products from Japan covering the period July 1, 2019, through June 30, 2020.

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries of cold-rolled steel flat products from Japan. Commerce intends to issue appropriate assessment instructions to CBP 15 days after the date of publication of this notice in the **Federal Register**.
