

EVOSTC Habitat Acquisition Program. Lands being considered are near Thompson Pass in the vicinity of Valdez, Alaska, and are not identified as available for exchange under the current East Alaska RMP. The proposed amendment to the RMP would analyze making additional lands near Thompson Pass available for potential exchanges in accordance with the Dingell Act. At present, the BLM has identified the following preliminary issues for evaluation in the RMP Amendment/EA: Recreational activities, social and economic impacts, rural and traditional lifestyles, subsistence use and access, public access, wildlife and biological resources, special status species, fish and aquatic species, water, wilderness characteristics, cultural resources and reasonably foreseeable future activities.

The BLM will utilize and coordinate the NEPA scoping process to help fulfill the public involvement process under the National Historic Preservation Act (NHPA), as amended, and as provided in 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed action will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will offer consultation to potentially affected Federally recognized tribes on a government-to-government basis, and with affected Alaska Native corporations, in accordance with Executive Order 13175 and other policies. Native concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given appropriate consideration. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed RMP Amendment/EA, are invited to participate in the scoping process and, if eligible, may request or be asked by the BLM to participate in the development of the RMP Amendment/EA as cooperating agencies.

opinions of customers and stakeholders.

attention on areas where
communication, training or changes in
operations might improve delivery of
products or services. These collections
allow for ongoing, collaborative and
actionable communications between the
Commission and its customers and
stakeholders and contribute directly to
the improvement of program
management.

(2) Description of the Information To Be Collected

The solicitation of feedback will target
areas such as: Timeliness,
appropriateness, accuracy of
information, courtesy, efficiency of
service delivery, and resolution of
issues with service delivery. Responses
will be assessed to plan and inform

quality of service offered to the public.
