Z-Wave Alliance Inc. was formed as a Delaware non-stock member corporation. The general area of Z-Wave Alliance Inc.'s planned activity is to support the development and extension of the Z-Wave wireless communication protocol and promote the protocol as a key enabling technology for 'smart' home and business applications, and to undertake such other activities as may from time to time be appropriate to further the purposes and achieve the goals set forth above.

Membership in Z-Wave Alliance, Inc. remains open and Z-Wave Alliance, Inc. intends to file additional written notifications disclosing all changes in membership.

**BILLING CODE 4410-11-P**

**DEPARTMENT OF JUSTICE**

**Drug Enforcement Administration**

[Docket No. DEA-508F]

**Final Adjusted Aggregate Production Quotas for Schedule I and II Controlled Substances and Assessment of Annual Needs for the List I Chemicals Ephedrine, Pseudoephedrine, and Phenylpropanolamine for 2020**

**AGENCY:** Drug Enforcement Administration, Department of Justice.

**ACTION:** Final order.

**SUMMARY:** This final order establishes the final adjusted 2020 aggregate production quotas for controlled substances in schedules I and II of the Controlled Substances Act and the assessment of annual needs for the list

I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine.

**DATES:** This order is effective December 1, 2020.

**FOR FURTHER INFORMATION CONTACT:**

Scott A. Brinks, Regulatory Drafting and Policy Support Section, Diversion Control Division, Drug Enforcement Administration; Mailing Address: 8701 Morrisette Drive, Springfield, VA 22152, Telephone: (571) 362-3261.

**SUPPLEMENTARY INFORMATION:**

**Legal Authority**

Section 306 of the Controlled Substances Act (CSA) (21 U.S.C. 826) requires the Attorney General to establish aggregate production quotas (APQ) for each basic class of controlled substances listed in schedules I and II and for the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine. The Attorney General has delegated this function to the Administrator of the Drug Enforcement Administration (DEA) pursuant to 28 CFR 0.100.

**Background**

DEA published the 2020 established APQ for controlled substances in schedules I and II and for the assessment of annual needs (AAN) for the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine in the **Federal Register** on December 2, 2019. 84 FR 66014. DEA is committed to preventing and limiting diversion by enforcing laws and regulations regarding controlled substances and the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine, while meeting the legitimate medical, scientific, and export needs of the United States. This notice stated that the Administrator would adjust, as needed, the established APQ in 2020 in accordance with 21 CFR 1303.13 and 21 CFR 1315.13.

In response to the public health emergency declared by the Secretary of Health and Human Services (HHS) on January 31, 2020, DEA published the final order titled "Adjustments to Aggregate Production Quotas for Certain Schedule II Controlled Substances and Assessment of Annual Needs for the List I Chemicals Ephedrine and Pseudoephedrine for 2020" on April 10, 2020. (85 FR 20302). While the adjustments were effective immediately, all interested persons were invited to comment on or object to the adjustments on or before May 11, 2020.

The 2020 proposed adjusted APQ for controlled substances in schedules I and II and AAN for the list I chemicals

ephedrine, pseudoephedrine, and phenylpropanolamine were subsequently published in the **Federal Register** on September 1, 2020, (85 FR 54414), after consideration of the criteria outlined in that notice. All interested persons were invited to comment on or object to the proposed APQs and AANs on or before October 1, 2020.

#### Comments Received

DEA received five timely comments and one untimely comment in response to the April **Federal Register** notice and nine comments in response to the September **Federal Register** notice from patients, DEA-registered entities, and non-DEA entities. The comments included appreciation of DEA's response to the public health emergency, concerns about potential drug shortages, interference with doctor-patient relationships, and comments outside the scope of this final order.

*Issue:* Commenters expressed appreciation of DEA's flexibility in responding to the nationwide public health emergency declared by the Secretary of HHS on January 31, 2020, by adjusting APQ for select schedule II controlled substances and list I chemicals.

*DEA Response:* DEA acknowledges the expressions of appreciation to changes in the APQ and AAN. The adjustments to select schedule II controlled substances and list I chemicals occurred after DEA consulted with HHS and determined the utilization rates for these drugs substantially increased due to the treatment regimens for ventilator patients stricken with the Coronavirus Disease of 2019 (COVID-19) compared to the previously estimated annual consumption rates. While the estimates from HHS provided a wide range in the number of patients that would require ventilation treatment due to COVID-19, DEA could, under 21 CFR 1303.13 and 1315.13, adjust the APQ and AAN for schedule II controlled substances and list I chemicals, respectively, to ensure manufacturing activities cover the upper range of the estimate could occur in a timely manner. DEA highlights factor 21 CFR 1303.13(b)(5) specifically, which allowed the Acting Administrator to increase the APQ and AAN for select controlled substances and list I chemicals to meet additional estimated medical needs as determined by HHS due to the unforeseen emergency caused by the COVID-19 pandemic.

*Issue:* Commenters expressed general concerns that decreasing the APQ of controlled substances could lead to

shortages of controlled substance medications.

One DEA-registered entity submitted a comment requesting the APQ for hydrocodone (for sale) and oxycodone (for sale) be sufficient to provide for the estimated medical, scientific, research, and industrial needs of the United States, for export requirements, and for the establishment and maintenance of reserve stocks.

*DEA Response:* DEA sets APQ in a manner to ensure that the estimated medical, scientific, research, industrial needs of the United States, lawful export requirements, and for the establishment and maintenance of reserve stocks. As discussed in both notices for adjustments, any adjustments to the APQ for controlled substances is based on factors set forth in 21 CFR 1303.13. In the event of a shortage, the CSA provides a mechanism under which DEA will, in appropriate circumstances, increase quotas to address shortages. 21 U.S.C. 826(h). Under 21 U.S.C. 826(h)(1), after receiving a request to address a shortage, DEA has 30 days to complete review of the request and determine whether adjustments are necessary to address the shortage. If adjustments are necessary, DEA is required to increase the APQ and individual production quotas to alleviate the shortage. *Id.* If DEA determines adjustments are not necessary, DEA is required to "provide a written response detailing the basis for the . . . determination." *Id.* In addition to what Section 826(h)(1) requires, when DEA is notified of an alleged shortage, DEA will confer with the U.S. Food and Drug Administration and relevant manufacturers regarding the amount of material in physical inventory, current quota granted, and the estimated legitimate medical need, to determine whether a quota adjustment is necessary to alleviate any factually valid shortage.

In accordance with 21 CFR 1303.13, DEA considered the comments for hydrocodone (for sale) and oxycodone (for sale), and the Acting Administrator determined the proposed adjusted 2020 APQs for these substances as published in the **Federal Register** on September 1, 2020, (85 FR 54414), are sufficient to meet the current 2020 estimated medical, scientific, research, and industrial needs of the United States, and to provide for adequate reserve stock.

*Issue:* DEA received comments of general concerns alleging decreases to the APQ interfered with doctor-patient relationships.

*DEA Response:* In determining the APQ, DEA considers prescriptions that

have been issued. However, DEA does not interfere with doctor-patient relationships. Doctors authorized to dispense controlled substances are responsible for adhering to the laws and regulations set forth under the CSA, which requires doctors to only write prescriptions for a legitimate medical need. DEA is responsible for enforcing controlled substance laws and regulations, and is committed to ensuring an adequate and uninterrupted supply of controlled substances in order to meet the demand of legitimate medical, scientific, and export needs of the United States.

*Untimely Comment Issue:* The DEA received one comment from a DEA-registered entity for previously established value of the 2020 AAN for pseudoephedrine (for conversion), requesting an increase because the established AAN is not adequate to cover the commenter's new projected need for 2020.

*DEA Response:* The comment was received in between the comment periods for the two notices of adjustment. Even though the comment was outside the comment period that ended on May 11, 2020, DEA considered this comment as part of the second comment period ending on October 1, 2020, when setting the final 2020 AAN.

*Out of Scope Comments:* DEA received comments on issues outside the scope of this final order. The comments were general in nature and raised issues of specific medical illnesses, medical treatments, and medication costs, and therefore, are outside of the scope of this Final Order for 2020 and do not impact the original analysis involved in finalizing the 2020 APQ.

#### Analysis for Final Adjusted 2020 Aggregate Production Quotas and Assessment of Annual Needs

In determining the final adjusted 2020 APQ and AAN, DEA has considered the above comments relevant to this Final Order for calendar year 2020, along with the factors set forth in 21 CFR 1303.13 and 21 CFR 1315.13, in accordance with 21 U.S.C. 826(a). DEA has also considered other relevant factors, including the 2019 year-end inventories, initial 2020 manufacturing and import quotas, 2020 export requirements, actual and projected 2020 sales, research and product development requirements, additional applications received, and the extent of any diversion of the controlled substance in the class. Based on all of the above, the Acting Administrator is adjusting the 2020 APQ for the following: Increases for

Amphetamine (for sale) and Methamphetamine, based on the data received since the publication of the 2020 proposed adjustment for APQ and AAN in the **Federal Register** on September 1, 2020 (85 FR 54414); increases for Crotonyl Fentanyl, Ethylone, and Isotonitazene due to the

publication of their schedule I temporary controlled status; and increases for Etonitazene due to additional manufacturers entering the reference standard market. This final order reflects those adjustments. Pursuant to the above, the Acting Administrator hereby finalizes the 2020

APQ for the following schedule I and II controlled substances and the 2020 AAN for the list I chemicals ephedrine, pseudoephedrine, and phenylpropanolamine, expressed in grams of anhydrous acid or base, as follows:

Basic class	Final revised 2020 quotas
(g)	
<b>Temporarily Scheduled Substances</b>	
Crotonyl fentanyl .....	25
Ethylone .....	25
Isotonitazene .....	25
<b>Schedule I</b>	
1-[1-(2-Thienyl)cyclohexyl]pyrrolidine .....	20
1-(1-Phenylcyclohexyl)pyrrolidine .....	15
1-(2-Phenylethyl)-4-phenyl-4-acetoxypiperidine .....	10
1-(5-Fluoropentyl)-3-(1-naphthoyl)indole (AM2201) .....	30
1-(5-Fluoropentyl)-3-(2-iodobenzoyl)indole (AM694) .....	30
1-Benzylpiperazine .....	25
1-Methyl-4-phenyl-4-propionoxypiperidine .....	10
1-[1-(2-Thienyl)cyclohexyl]piperidine .....	15

**Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), the Clean Water Act (CWA), and the Oil Pollution Act (OPA) and Notice of Availability of Draft Restoration Plan/Environmental Assessment of Restoration Project Incorporated Into Proposed Consent Decree**

On November 12, 2020, the Department of Justice lodged a proposed consent decree with the United States District Court for the Western District

Washington in the lawsuit entitled *United States of America, State of Washington, Suquamish Tribe, and Muckleshoot Indian Tribe v. City of Seattle*, Civil Action No. 16-1486 (W.D. Wa.).

The complaint asserts claims for natural resource damages by the United States on behalf of the National Oceanic and Atmospheric Administration and the Department of the Interior; the State of Washington; the Suquamish Tribe; and the Muckleshoot Indian Tribe (collectively, the “Natural Resource Trustees”) pursuant to the section 107(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. 9607(a); section 311 of the Clean Water Act (CWA), 33 U.S.C. 1321; section 1002(b) of the Oil Pollution Act (OPA), 33 U.S.C. 2702(b); and the Washington Model Toxics Control Act (MTCA), RCW 70.105D.
