

Responsible Officials

For the Forest Service, the responsible official is the Under Secretary, U.S. Department of Agriculture, Natural Resources and the Environment. For the BLM, the responsible official is the Eastern States Director.

Nature of Decision To Be Made

Forest Service

Given the purpose and need, the FS responsible official will review the proposed action including the POD, alternatives, the terms and conditions, stipulations, the environmental consequences that would be applicable to NFS lands, public comment, and the project record in order to make the following decisions:

- Whether to approve a Forest Plan amendment that would modify eleven standards in the JNF's Forest Plan;
- Determine what terms and conditions, or stipulations should apply to a BLM ROW grant;
- Whether to issue a written letter of concurrence to BLM if the decision is to assent to the project on NFS lands; and,
- Whether to adopt all or portions of the FERC FEIS that is relevant to NFS lands.

While the Equitrans Expansion project was included in the FERC FEIS, it is not on NFS lands. Therefore, no analysis will be prepared or decision made on that project.

Bureau of Land Management

Consistent with the MLA, 30 U.S.C. 185, and BLM's implementing regulations, 43 CFR part 2880, the BLM will review Mountain Valley's revised MLA ROW application, the FERC FEIS, and the FS supplemental analysis to determine whether to approve, approve with modifications, or deny the MLA ROW application through the NFS lands. As a cooperating agency, the BLM intends to rely on and adopt the FS supplemental analysis for its decision, as long as the analysis provides sufficient evidence to support the decision and the FS addresses the BLM's comments and suggestions to the BLM's satisfaction. Before issuing a decision on Mountain Valley's application, the BLM would need the FS's written concurrence. Through the concurrence process, if the BLM's decision is to approve the ROW, the FS would submit to the BLM any stipulations for inclusion in the ROW grant that are deemed necessary to protect the environment and otherwise protect the public interest consistent with 30 U.S.C. 185(h); 43 CFR 2885.11. The BLM decision would be documented in a separate ROD.

Public Engagement Process

Scoping was completed and summarized in the FERC FEIS (FEIS, Section ES-2, 1.4). Written, specific comments, including those that were relevant to NFS lands, identified concerns and issues that were addressed in the FEIS. Scoping will not be repeated and this SEIS will focus on the topics identified by the Fourth Circuit Court and others that are closely related to the Court's findings including:

JNF Forest Plan Amendment

- The purpose and effects of the Forest Plan amendment on resources including those within the utility corridor; soil; water; riparian; terrestrial; botanical, and aquatic threatened and endangered species; old growth; the ANST, scenic integrity; and,
- How the proposed amendment meets Planning Rule requirements.

Independent Review of Sedimentation Analysis

- An evaluation and assessment of erosion and sedimentation and its associated effects to water quality and threatened and endangered aquatic species;
- An evaluation of predicted effects in relation to anticipated mitigation effectiveness, supported with rationale; and,
- Disclosure on how previous concerns and comments related to erosion and its effects that were provided to the FERC have been satisfied.

New Information and Changed Circumstances

There is new information and changed circumstances to consider since the FS ROD was signed in December 2017. New information includes recent federally listed threatened and endangered species and critical habitat designations. Changed circumstances include the status of the project and road use (see Purpose and Need for Action).

Additional opportunities for public comment will be provided when the Draft SEIS is available. A FS decision to amend the Forest Plan will not be subject to either the 36 CFR 218 or 36 CFR 219 pre-decisional administrative review because the responsible official is the Under Secretary of Agriculture, Natural Resources and Environment (36 CFR 218.13(b); 36 CFR 219.13(b)).

James E. Hubbard,

Under Secretary, Natural Resources and Environment, U.S. Department of Agriculture.
