This system was developed to improve the timeliness, quality, and quantity of feedback given by customers to DoD service providers. Customers are able to access an appropriate comment card in ICE by going directly to the ICE website and search for the service provider or through a link provided by a service provider. They are able to quickly fill out a short online questionnaire related to customer satisfaction. Customer responses are sent to the appropriate facility and/or service manager. The data resides in the ICE system. This timely feedback allows service providers to quickly improve the quality of their services, thereby enhancing the quality of life for all members of the defense community. It also gives community commanders, deputy commanders in chiefs, and others an opportunity to review, assess, and improve current service quality.
