- Form 3–2533, *U.S. Fish and Wildlife Service Geographic Area: Northwestern Bat Reporting Form*; and
- Form 3–2534, *U.S. Fish and Wildlife Service Geographic Area: Western Bat Reporting Form*.

Annual reporting of the results subsequent to the activity authorized by the permit is required in most cases (under the authority of section 10(a)(1)(A) and 10(a)(1)(B) of the ESA and its implementing regulations at 50 CFR 17). The Service designed the forms to facilitate the electronic reporting specifically for each species. The Service will use the reported data to evaluate the success of the permitted project, formulate further research, and develop and adjust management and recovery plans for the species. The data will also inform 5-year reviews and Species Status Assessments conducted under the ESA.

ePermits Initiative

The Service's new ePermits initiative is an automated permit application system that will allow the agency to move toward a streamlined permitting process to reduce public burden. Public burden reduction is a priority for the Service; the Assistant Secretary for Fish, Wildlife, and Parks; and senior leadership at the Department of the Interior. The intent of the ePermits initiative is to fully automate the permitting process to improve the customer experience and to reduce time burden on respondents. This new system will enhance the user experience by allowing users to enter data from any device that has internet access, including personal computers (PCs), tablets, and smartphones. It will also link the permit applicant to the *Pay.gov* system for payment of associated permit application fees, where applicable.

Upon completion of the new ePermits system, applicants applying for Recovery, Interstate Commerce, Habitat Conservation Plan Incidental Take Permits, Candidate Conservation Agreements with Assurances, and Safe Harbor Agreements Enhancement of Survival Permits will have the opportunity to apply directly online through a secure, web-based platform.

Endangered and Threatened Species; Receipt of Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received applications for permits to conduct activities intended to enhance the propagation or survival of endangered species under the Endangered Species Act. We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing any of the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive your written comments by January 4, 2021.

ADDRESSES: *Document availability and comment submission:* Use one of the following methods to request documents or submit comments. Requests and comments should specify the applicant name(s) and application number(s) (e.g., TE123456):

- *Email:* permitsR6ES@fws.gov.
- *U.S. Mail:* Marjorie Nelson, Chief, Division of Ecological Services, U.S. Fish and Wildlife Service, 134 Union Blvd., Suite 670, Lakewood, CO 80228.

FOR FURTHER INFORMATION CONTACT:

Kathy Konishi, Recovery Permits Coordinator, Ecological Services, 303–236–4224 (phone), or permitsR6ES@fws.gov (email). Individuals who are hearing or speech impaired may call the Federal Relay Service at 1–800–877–8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications for permits under section 10(a)(1)(A) of the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would allow the applicants to conduct activities intended to promote recovery of species that are listed as endangered or threatened under the ESA.

Background

The Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), prohibits certain activities with endangered and threatened species unless authorized by a Federal permit. The ESA and our implementing regulations in part 17 of title 50 of the Code of Federal Regulations (CFR) provide for the issuance of such permits and require that we invite public comment before issuing permits for activities involving endangered species.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild. The ESA requires that we invite public comment before issuing these permits.

Accordingly, we invite local, State, and Federal agencies; Tribes; and the public to submit written data, view, or

arguments with respect to these applications. The comments and recommendations that will be most

useful and likely to influence agency decisions are those supported by quantitative information or studies.
