National Agricultural Statistics Service

Title: Fruits, Nut, and Specialty Crops.

OMB Control Number: 0535–0039.

Summary of Collection: The primary function of the National Agricultural Statistics Service (NASS) is to prepare and issue current official state and national estimates of crop and livestock production. Estimates of fruit, tree nuts, and specialty crops are an integral part of this program. These estimates support the NASS strategic plan to cover all agricultural cash receipts. The authority to collect these data activities is granted under U.S. Code title 7, Section 2204(a). Information is collected on a voluntary basis from growers, processors, and handlers through surveys.

Need and Use of the Information: Data reported on fruit, nut, and specialty crops are used by NASS to estimate crop acreage, yield, production, utilization, price, and value in States with significant commercial production. These estimates are essential to farmers, processors, importers and exporters, shipping companies, cold storage facilities and handlers in making production and marketing decisions. Estimates from these inquiries are used by market order administrators in their determination of expected crop supplies under federal and State market orders.

Food Safety and Inspection Service

Title: Salmonella Initiative Program.

OMB Control Number: 0583–0154.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451 *et seq.*). These statutes mandate that FSIS protect the public by ensuring that meat and poultry products are safe, wholesome, unadulterated, and

properly labeled and packaged. The Salmonella Initiative Program (SIP) offers incentives to meat and poultry slaughter establishments to control Salmonella in their operations. SIP benefits public health because it encourages establishments to test for microbial pathogens, which is a key feature of effective process control.

Need and Use of the Information: Under SIP, establishments will share their data with the Food Safety and Inspection Service (FSIS); this will help the Agency in formulating its policy. Establishments that want to enter SIP must send a protocol to FSIS informing the Agency about their plans for implementing SIP in their establishment, including data collection, objectives and methods of evaluating the new technology for which they are receiving the regulator waiver.

Description of Respondents: Business or other for-profit.

Number of Respondents: 79.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 17,628.

Significant programmatic forest plan amendments to the Coconino and Tonto National Forests land management plans, to incorporate management direction from the CRMP have also been prepared for the Fossil Creek Wild and Scenic River. Because the project includes two separate decisions, this notice initiates two separate but concurrent pre-decisional objection

filing periods. Objections to the proposed CRMP must be filed within 45 days of the publication date of this notice and objections to the proposed amendments to the land management plans must be filed within 60 days of the publication date of this notice. The accompanying Final Environmental Impact Statement and draft Record of Decision describe the actions and analyze the effects of site specific activities associated with the CRMP and the forest plan amendments.

ADDRESSES: Objections may be submitted to Sandra Watts, Acting Regional Forester, filed via mail or express delivery to 333 Broadway Blvd. SE, Albuquerque, NM 87102; by facsimile to FAX: (505) 842-3800; by email to objections-southwestern-regional-office@usda.gov. Objections to the Fossil Creek Comprehensive River Management Plan or to the Forest Plan amendments will only be accepted from those who have previously submitted timely comments regarding these planning efforts during any designated opportunity for public comment, unless based on information not available during an earlier designated opportunity for public comment (*i.e.*, new information).

Both objection processes under 36 CFR 218 and 36 CFR 219 Subpart B provide an opportunity for members of the public who have participated in the planning process for the Fossil Creek Wild and Scenic River Comprehensive River Management Plan to have any unresolved concerns reviewed by the Forest Service prior to a final decision by the Responsible Officials.

It is the responsibility of the objector to ensure that the reviewing officer receives the objection in a timely manner. The regulations prohibit extending the length of the objection filing period. Please reference regulatory requirements for objecting at the link provided above, under dates.

Responsible Officials

The responsible officials who will approve the record of decision for the Fossil Creek Wild and Scenic River CRMP are Laura Jo West, Forest Supervisor for the Coconino National Forest and Neil Bosworth, Forest Supervisor of the Tonto National Forest.

The Regional Forester is the reviewing officer for all decisions related to the CRMP and its associated activities and the plan amendment since the Forest Supervisors are the deciding officials (36 CFR 219.56(e)(2)).
