

U.S.C. § 823(f). Because Congress has clearly mandated that a practitioner possess state authority in order to be deemed a practitioner under the CSA, the DEA has held repeatedly that revocation of a practitioner's registration is the appropriate sanction whenever he is no longer authorized to dispense controlled substances under the laws of the state in which he practices. See, e.g., James L. Hooper, 76 Fed. Reg. at 71,371–72; Sheran Arden Yeates, M.D., 71 Fed. Reg. 39,130, 39,131 (2006); Dominick A. Ricci, M.D., 58 Fed. Reg. 51,104, 51,105 (1993); Bobby Watts, M.D., 53 Fed. Reg. 11,919, 11,920 (1988); Frederick Marsh Blanton, 43 Fed. Reg. at 27,617.

Pursuant to the Maryland Controlled Dangerous Substances Act, “a person shall be registered by the Department before the person manufactures, distributes, or dispenses a controlled dangerous substance in the State or transports a controlled dangerous substance into the State.” Md. Code Ann., Crim. Law § 5–301 (West 2020). Maryland law further defines “dispense” to “mean[] to deliver to the ultimate user of the human research subject by or in accordance with the lawful order of an authorized provider” and states that the term “includes to prescribe, administer, package, label, or compound a substance for delivery.” Id. at § 5–101(l)(1)&(2).

Here, the undisputed evidence in the record is that Registrant currently lacks authority to dispense controlled substances in Maryland, as his controlled substance license is “expired.” As already discussed, a practitioner must hold a valid controlled substance license to dispense a controlled substance in Maryland. Thus, because Registrant lacks authority to handle controlled substances in Maryland, Registrant is not eligible to maintain a DEA registration. Accordingly, I order that Registrant's DEA registration be revoked.

Order

Pursuant to 28 C.F.R. § 0.100(b) and the authority vested in me by 21 U.S.C. § 824(a), I hereby revoke DEA Certificate of Registration No. AT8751213 issued to Ernesto C. Torres, M.D. This Order is effective January 11, 2021.

Timothy J. Shea,

Acting Administrator.

DEPARTMENT OF LABOR

Office of the Secretary

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Ionizing Radiation Standard

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Occupational Safety and Health Administration (OSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that agency receives on or before January 11, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Crystal Rennie by telephone at 202–693–0456, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The purpose of the Ionizing Radiation Standard and its information collection requirements are to document that employers are providing their workers with protection from hazardous ionizing radiation exposure. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on June 29, 2020 (85 FR 38931).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.
