

within 10 days of discontinuance if they permanently discontinue service by filing FCC Form 601 or 605 and requesting license cancellation.

Section 27.1321(b) previously designated as 27.19(b) requires 600 MHz licensees with base and fixed stations in the 600 MHz downlink band within 25 kilometers of Very Long Baseline Array (VLBA) observatories to coordinate with the National Science Foundation (NSF) prior to commencing operations.

Section 27.1321(c) previously designated as 27.19(c) requires 600 MHz licensees that intend to operate base and fixed stations in the 600 MHz downlink band in locations near the Radio

Astronomy Observatory site located in Green Bank, Pocahontas County, West Virginia, or near the Arecibo Observatory in Puerto Rico, to comply with the provisions in 47 CFR 1.924.

Section 74.602(h)(5)(ii) requires 600 MHz licensees to notify the licensee of a studio-transmitter link (TV STL), TV relay station, or TV translator relay station of their intent to commence wireless operations and the likelihood of harmful interference from the TV STL, TV relay station, or TV translator

relay station to those operations within the wireless licensee's licensed geographic service area. The notification is to be in the form of a letter, via certified mail, return receipt requested and must be sent not less than 30 days in advance of approximate date of commencement of operations.

Section 74.602(h)(5)(iii) requires all TV STL, TV relay station and TV translator relay station licensees to modify or cancel their authorizations and vacate the 600 MHz band no later than the end of the post-auction transition period as defined in 47 CFR 27.4.

These rules which contain information collection requirements are designed to provide for flexible use of this spectrum by allowing licensees to choose their type of service offerings, to encourage innovation and investment in mobile broadband use in this spectrum, and to provide a stable regulatory environment in which broadband deployment would be able to develop through the application of standard terrestrial wireless rules. Without this information, the Commission would not

be able to carry out its statutory responsibilities.
