

microbiologic cure, (3) Using existing laboratory specimens, monitor genetic mutations associated with macrolide or fluoroquinolone antibiotic resistance.

Data captured on the standardized Case Report Form will be analyzed to determine outcomes from usage of second-line antibiotic therapy for *M. genitalium*. These data may inform future CDC STD Treatment Guidelines.

There are an estimated 100 respondents (anticipated to report once per year) who will be clinicians in private and public health care settings. The data collection is necessary as there are no current national recommendations for patients who fail current CDC-recommended therapy for *M. genitalium*. Each case report form is anticipated to take up to 60 minutes to

complete. This data collection provides CDC with information to determine which second-line treatments are most clinically effective, as well as determining antibiotic resistance patterns of *M. genitalium* throughout the US. There are no costs to respondents other than their time. The estimated annualized burden hours for this data collection are 100 hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	No. of Respondents	No. responses per respondent	Average burden per response (in hours)
Physician or Nurse Practitioner.	M. genitalium Treatment Failure Registry Case Report Form	100	1	1

Jeffrey M. Zirger,

Lead, Information Collection Review Office, Office of Scientific Integrity, Office of Science, Centers for Disease Control and Prevention.

Centers for Disease Control and Prevention

Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended, and the Determination of the Director, Strategic Business Initiatives Unit, Office of the Chief Operating Officer, CDC, pursuant to Public Law 92-463. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Disease, Disability, and Injury Prevention and Control Special Emphasis Panel (SEP)-DP21-002, Epidemiologic Cohort Study of Interstitial Cystitis.

Date: March 30, 2021.

Time: 10:00 a.m.–6:00 p.m., EST.

Place: Teleconference.

Agenda: To review and evaluate grant applications.

For Further Information Contact: Jaya Raman Ph.D., Scientific Review Officer, CDC, 4770 Buford Highway, Mailstop F80, Atlanta, Georgia 30341, Telephone: (770) 488-6511, JRaman@cdc.gov.

The Director, Strategic Business Initiatives Unit, Office of the Chief Operating Officer, Centers for Disease Control and Prevention, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Kalwant Smagh,

Director, Strategic Business Initiatives Unit, Office of the Chief Operating Officer, Centers for Disease Control and Prevention.
