

**DATES:** We must receive comments in writing on or before February 9, 2021.

**ADDRESSES:** Send comments by email to [tamee.fechhelm@nara.gov](mailto:tamee.fechhelm@nara.gov). Because our buildings are temporarily closed during the COVID-19 restrictions, we are not able to receive comments by mail during this time.

**FOR FURTHER INFORMATION CONTACT:** Tamee Fechhelm, Paperwork Reduction Act Officer, by email at [tamee.fechhelm@nara.gov](mailto:tamee.fechhelm@nara.gov) or by telephone at 301.837.1694 with requests for additional information or copies of the proposed information collection and supporting statement.

**SUPPLEMENTARY INFORMATION:** Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), we invite the public and other Federal agencies to comment on proposed information collections. The comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for NARA to properly perform its functions; (b) our estimate of the burden of the proposed information collection and its accuracy; (c) ways we could enhance the quality, utility, and clarity of the information we collect; (d) ways we could minimize the burden on respondents of collecting the information, including through information technology; and (e) whether this collection affects small businesses. We will summarize any comments you submit and include the summary in our request for OMB approval. All comments will become a matter of public record.

In this notice, we solicit comments concerning the following information collection:

*Title:* Request Pertaining to Military Records.

*OMB number:* 3095-0029.

*Agency form number:* SF 180 and NA Form 13176; online form in eVetRecs is an electronic equivalent to the SF 180.

*Type of review:* Regular.

*Affected public:* Individuals who request access to military records, military medical records, and medical records of military dependents.

*Estimated number of respondents:* 953,328.

*Estimated time per response:* 5 minutes.

*Frequency of response:* On occasion (when an individual wishes to request information from military records, military medical records, or medical records of military dependents).

*Estimated total annual burden hours:* 79,444 hours.

*Abstract:* The general purpose of this voluntary data collection is to determine

what is being requested, where records are located, what information is releasable, and where to send the response. When third parties submit requests, the information collected and provided serves as records of disclosure, which are required by the Privacy Act. The information collected via the SF 180 and eVetRecs is vital to our National Personnel Records Center, which stores and handles these records. We need this information to locate and release information from requested records. It also significantly improves our ability to provide timely and accurate information to requesters.

**Swarnali Haldar,**

*Executive for Information Services/CIO.*

## NUCLEAR REGULATORY COMMISSION

[NRC-2020-0255]

### Implementation of Aging Management Requirements for Spent Fuel Storage Renewals

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Draft regulatory guide; request for comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft regulatory guide (DG), DG-3055, "Implementation of Aging Management Requirements for Spent Fuel Storage Renewals." This DG is a proposed new regulatory guide that would describe an approach that is acceptable to the staff of the NRC to meet the regulatory requirements for spent fuel storage renewals. It addresses requirements for the renewal of specific licenses for independent spent fuel storage installations (ISFSI) and certificates of compliance (CoC) for spent fuel storage cask designs pursuant to NRC requirements.

**DATES:** Submit comments by January 25, 2021. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

**ADDRESSES:** You may submit comments by any of the following methods; however, the NRC encourages electronic

comment submission through the Federal Rulemaking website:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2020-0255. Address questions about Docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-9127; email: [Jennifer.Borges@nrc.gov](mailto:Jennifer.Borges@nrc.gov). For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* Office of Administration, Mail Stop: TWFN-7-A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, ATTN: Program Management, Announcements and Editing Staff.

For additional direction on accessing information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

#### FOR FURTHER INFORMATION CONTACT:

Kristina Banovac, telephone: 301-415-7116, email: [Kristina.Banovac@nrc.gov](mailto:Kristina.Banovac@nrc.gov), or Harriet Karagiannis, telephone: 301-415-2493, email: [Harriet.Karagiannis@nrc.gov](mailto:Harriet.Karagiannis@nrc.gov). Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

#### SUPPLEMENTARY INFORMATION:

#### I. Obtaining Information and Submitting Comments

##### A. Obtaining Information

Please refer to Docket ID NRC-2020-0255 when contacting the NRC about the availability of information regarding this action. You may obtain publicly available information related to this action, by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2020-0255.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov).

- *Attention:* The PDR, where you may examine, and order copies of public documents is currently closed. You may submit your request to the PDR via email at [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov) or call 1-800-397-4209 between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

### B. Submitting Comments

The NRC encourages electronic comment submission through the Federal Rulemaking website: <https://www.regulations.gov>. Please include Docket ID NRC-2020-0255 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC posts all comment submissions at <https://www.regulations.gov> as well as enters the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

### II. Additional Information

The NRC is issuing for public comment a DG in the NRC's "Regulatory Guide" series. This series was developed to describe methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, to explain techniques that the staff uses in evaluating specific issues or postulated events, and to describe information that the staff needs in its review of applications for permits and licenses.

This DG, titled, "Implementation of Aging Management Requirements for Spent Fuel Storage Renewals," is temporarily identified by its task number, DG-3055 (ADAMS Accession No. ML20282A298). This draft guide is a proposed new regulatory guide (RG) 3.76. Regulatory Guide 3.76 describes an approach that is acceptable to the staff of the NRC by endorsing, with clarifications, the Nuclear Energy Institute (NEI) guidance in NEI 14-03, Revision 2, "Format, Content and Implementation Guidance for Dry Cask Storage Operations-Based Aging Management," issued December 2016.

This new RG provides guidance to industry for complying with and implementing the requirements for spent fuel storage renewals in part 72 of title 10 of the *Code of Federal Regulations* (10 CFR), "Licensing

Requirements for the Independent Storage of Spent Nuclear Fuel, High-Level Radioactive Waste, and Reactor-Related Greater Than Class C Waste." This guidance addresses renewal of ISFSI specific licenses and CoCs for spent fuel storage cask designs in 10 CFR 72.42, "Duration of license; renewal," and 10 CFR 72.240, "Conditions for spent fuel storage cask renewal," respectively.

The guidance specifically addresses the format and content of spent fuel storage renewal applications and the implementation of aging management programs (AMPs). The guidance uses an operations-focused approach to aging management, in which operating experience is shared through an industry database and continually assessed to adjust AMPs, as needed and within regulatory limits, to ensure the effectiveness of aging management activities during the period of extended operation and the continued safe storage of spent fuel.

The staff is also issuing for public comment a draft regulatory analysis (ADAMS Accession No. ML20282A299). The staff develops a regulatory analysis to assess the value of issuing this new regulatory guide as well as alternative courses of action.

### III. Backfitting, Forward Fitting, and Issue Finality

This proposed regulatory guide, RG 3.76, proposes to endorse, with clarifications, NEI 14-03, which provides guidance on the format and content of spent fuel storage renewal applications and implementation of aging management programs under 10 CFR part 72. As explained in the proposed RG 3.76, licensees are not required to comply with the positions set forth in this regulatory guide. Therefore, proposed RG 3.76 does not constitute backfitting as defined in 10 CFR 72.62, "Backfitting," and as described in NRC Management Directive (MD) 8.4, "Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests;" or constitute forward fitting as that term is defined and described in MD 8.4. If, in the future, the NRC were to impose a position in this proposed RG 3.76 in a manner that would constitute backfitting or forward fitting, then the NRC would address the backfitting provision in 10 CFR 72.62 or the forward fitting provision of MD 8.4, respectively.

Dated: December 8, 2020.

For the Nuclear Regulatory Commission.

**Meraj Rahimi,**

*Chief, Regulatory Guidance and Generic Issues Branch, Division of Engineering, Office of Nuclear Regulatory Research.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 40-9075; NRC-2012-0277]

### Updated Record of Decision for Powertech (USA) Inc.; Dewey-Burdock In Situ Uranium Recovery Facility

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Record of Decision; update.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) staff has issued an updated Record of Decision (ROD) related to the license for Powertech (USA) Inc. (Powertech), Dewey-Burdock in situ uranium recovery (ISR) facility in Custer and Fall River Counties, South Dakota. Powertech's request for a source and byproduct materials license to construct and operate the Dewey-Burdock ISR facility was contested through the NRC's adjudicatory process. On October 8, 2020, the Commission denied a petition for review of the Atomic Safety and Licensing Board Panel's (ASLBP) Final Initial Decision issued on December 12, 2019, and two interlocutory orders, thus terminating the adjudicatory proceeding. The ROD has been updated to account for the ASLBP's decision and the Commission's ruling.

**DATES:** The ROD was updated on December 3, 2020.

**ADDRESSES:** Please refer to Docket ID NRC-2012-0277 when contacting the NRC about the availability of information regarding this document. You may access publicly available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2012-0277. Address questions about Docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-9127; email: [Jennifer.Borges@nrc.gov](mailto:Jennifer.Borges@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/>
