BILLING CODE 6717–01–P

ENVIRONMENTAL PROTECTION AGENCY

[FRL–10015–93–OECA]

Notice of Availability of EPA Tampering Policy and Request for Information Regarding 1986 Catalyst Policy

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability; request for information.

SUMMARY: The United States Environmental Protection Agency's Office of Enforcement and Compliance Assurance has issued *EPA Tampering Policy: The EPA Enforcement Policy on Vehicle and Engine Tampering and Aftermarket Defeat Devices under the Clean Air Act*. This Policy states how the EPA intends to handle certain potential civil violations of the Clean Air Act's prohibitions on tampering with vehicle and engine emissions controls as well as the manufacturing, selling, offering to sell, and installation of parts and components that defeat emissions controls. The EPA Tampering Policy creates no obligations on regulated parties, and it is not a rule. Further, it is principally a restatement of currently applicable enforcement discretion policies. The EPA Tampering Policy supersedes and replaces former statements of enforcement policy, as specified in the Policy itself. The EPA Tampering Policy neither supersedes nor replaces a 1986 enforcement policy that is specific to replacement catalytic converters for light-duty gasoline motor vehicles that are beyond their emissions warranty. Rather, with this **Federal Register** document, the EPA requests information to help the agency make a future decision on whether and how to update or withdraw the 1986 catalyst policy. EPA does not anticipate any measurable costs to be incurred by the affected entities associated with the Tampering Policy or the request for

information regarding the 1986 catalyst policy.

DATES: The EPA requests information relevant to the agency's ongoing evaluation of the 1986 catalyst policy and potential future enforcement policy regarding replacement catalytic converters for light-duty gasoline motor vehicles that are beyond their emissions warranty. Comments must be received by February 12, 2021.

ADDRESSES: Submit comments, identified in the subject line by "Catalyst Policy," to tampering@epa.gov.

FOR FURTHER INFORMATION CONTACT: Evan Belser, Air Enforcement Division, Office of Civil Enforcement, Office of Enforcement and Compliance Assurance, Mail Code 2242A, Environmental Protection Agency, 1200 Pennsylvania Avenue NW, Washington, DC 20460, (202) 564–6850; belser.evan@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Overview of EPA Tampering Policy

Manufacturers employ various systems, technologies, and designs to control emissions of air pollution from their vehicles, engines, and equipment. They do so to comply with Part A of Title II of the Clean Air Act (Act or CAA), 42 U.S.C. 7521–7554. These emissions controls reduce emissions of harmful air pollutants and help prevent respiratory disease, premature death, and environmental harm. The Act prohibits tampering with these emissions controls, and also prohibits making, selling, and installing products that defeat emissions controls. CAA § 203(a)(3), 42 U.S.C. 7522(a)(3). Violations of these prohibitions can severely impact air quality and prevent a level playing field in the aftermarket parts industry and among those who service vehicles and engines.

The EPA's enforcement and compliance efforts to stop tampering and aftermarket defeat devices are the subject of an ongoing National Compliance Initiative. The agency has stepped up its enforcement in this area in response to the widespread removal of vehicle emissions controls that are essential for achieving and maintaining National Ambient Air Quality Standards. Agency enforcement personnel are holding accountable those who manufacture and sell aftermarket defeat devices, those who tamper with commercial fleets of vehicles, and those service shops that routinely delete emissions control equipment. Such conduct is illegal, and undercuts local, state, and federal efforts to improve air quality.
