Additional information about this information collection is also available at http://www.reginfo.gov under “Information Collection Review.”

SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) administers the Trademark Act, 15 U.S.C. 1051 et seq., which provides for the Federal registration of trademarks, service marks, collective trademarks and service marks, collective membership marks, and certification marks. Individuals and businesses who use their marks, or intend to use their marks, in commerce regulated by Congress may file an application with the USPTO to register their marks. Registered marks remain on the register indefinitely, so long as the owner of the registration files the necessary maintenance documents.

This information collection addresses submissions required by the regulations at 37 CFR part 2 for initial applications regarding the registration of trademarks, service marks, collective trademarks and service marks, collective membership marks, and certification marks. These regulations also mandate that each registered mark appear in the principle register or supplemental register, and that each entry include the mark, the goods and/or services in connection with which the mark is used, ownership information, dates of use, and certain other information. The USPTO also provides similar information concerning pending applications. The register and pending application information may be accessed by an individual or by businesses to determine the availability of a mark. By accessing the USPTO’s information, parties may reduce the possibility of initiating use of a mark previously adopted by another. The Federal trademark registration process may thereby reduce the number of filings between both litigating parties and the courts.

II. Method of Collection

Items in this information collection must be submitted via online electronic submissions. In limited circumstances, applicants may also be permitted to submit the information in paper form by mail, fax, or hand delivery.

III. Data

Estimated Total Annual (Non-hour) Respondent Cost Burden: $152,980,250. There are no capital start-up, maintenance, or recordkeeping fees associated with this information collection. However, this information collection does have annual (non-hour) cost burden in the form of filing fees, processing fees, and postage costs. The USPTO amended its regulations to set, increase, or decrease certain trademark fees, to become effective January 2, 2021, including the fees in this information collection. A complete application must include a filing fee for each class of goods and services. Therefore, the total filing fees associated with this information collection can vary depending on the number of classes in each application. The total filing fees of $152,714,650, shown in the table below, reflect the filing fee for one class associated with this information collection.

3 This fee rate is effective on January 2, 2021.
In addition, the USPTO charges a processing fee of $100 per class for TEAS Plus applications that do not meet the TEAS Plus filing requirements. In such cases, the applicant will be required to submit the additional processing fee of $100 per class. The total processing fees associated with this information collection can vary depending on the number of classes in each application. The total processing fees of $265,600 is shown in the table below.

In addition, the USPTO charges a processing fee of $100 per class for TEAS Plus applications that do not meet the TEAS Plus filing requirements. In such cases, the applicant will be required to submit the additional processing fee of $100 per class. The total processing fees associated with this information collection can vary depending on the number of classes in each application. The total processing fees of $265,600 is shown in the table below.

### IV. Request for Comments

The USPTO is soliciting public comments to:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected; and

(d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

All comments submitted in response to this notice are a matter of public record. The USPTO will include or summarize each comment in the request to OMB to approve this information collection. Before including an address, phone number, email address, or other personal identifying information in a comment, be aware that the entire comment—including personal identifying information—may be made publicly available at any time. While you may ask in your comment to withhold personal identifying information from public view, the USPTO cannot guarantee that it will be able to do so.
