

DEPARTMENT OF AGRICULTURE**Forest Service****Forest Service Manual 2420, "Timber Appraisal," Forest Service Handbook 2409.19, "Renewable Resources," Chapters 10, 20, 30, 60 and 80**

AGENCY: Forest Service, USDA.

ACTION: Notice of availability for public comment.

SUMMARY: The United States Department of Agriculture (USDA), United States Forest Service (Forest Service), is revising directives related to timber appraisal and renewable resources.

DATES: Comments must be received in writing by February 16, 2021.

ADDRESSES: Comments may be submitted electronically to <https://cara.ecosystem-management.org/Public/CommentInput?project=ORMS-2747>. Written comments may be mailed to Dave Wilson, Acting Assistant Director, Forest Management, Range and Vegetation Ecology, 201 14th Street SW, Washington, DC 20024. All timely received comments, including names and addresses, will be placed in the record and will be available for public inspection and copying. The public may inspect comments received at <https://cara.ecosystem-management.org/Public/ReadingRoom?project=ORMS-2747>.

FOR FURTHER INFORMATION CONTACT: Dave Wilson, Acting Assistant Director, Forest Management, Range and Vegetation Ecology, at 202-578-9916 or by electronic mail to david.wilson@usda.gov. Individuals using telecommunication devices for the deaf may call the Federal Information Relay Service at 800-877-8339 between 8 a.m. and 8 p.m. Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The proposed directives reorganize and eliminate redundant policies and procedures, delete obsolete references and update agency policies and procedures to reflect new authorities and timber management practices that have been implemented since previous revisions to the directives were made available. An analysis of existing agency policy in Forest Service Handbooks and Manuals was conducted to identify revisions needed to support this initiative.

The proposed directives update Forest Service Manual 2420, "Timber Appraisal", Forest Service Handbook 2409.19, "Renewable Resources" Chapters 10, 20, 30, 60 and add a new Chapter 80 "Good Neighbor Authority"

in Forest Service Handbook 2409.19, "Renewable Resources". These directives set forth policy, responsibilities, and direction for several aspects of management and implement the agency's goal of providing more current direction.

The Forest Service has determined that the changes to the manual and handbook formulate standards, criteria, or guidelines applicable to a Forest Service program and are therefore publishing the proposed manual and handbook for public comment in accordance with 36 CFR part 216. The Forest Service is seeking public comment on the proposed directives, including the sufficiency of the proposed directives in meeting the stated objectives, ways to enhance the utility and clarity of information within the direction, or ways to streamline processes outlined.

Forest Service National Environmental Policy Act procedures exclude from documentation in an environmental assessment or impact statement "rules, regulations, or policies to establish service wide administrative procedures, program processes, or instructions." 36 CFR 220.6(d)(2). The Agency's conclusion is that these proposed directives fall within this category of actions and that no extraordinary circumstances exist as currently defined that require preparation of an environmental assessment or an environmental impact statement.

After the public comment period closes, the Forest Service will consider timely comments that are within the scope of the proposed directive in the development of the final directive. A notice of the final directive, including a response to timely comments, will be posted on the Forest Service's web page at <https://www.fs.fed.us/about-agency/regulations-policies/comment-on-directives>.

Tina Johna Terrell,

Associate Deputy Chief, National Forest System.
