Please note that comments submitted in response to this Notice are public record. We recommend that you do not submit detailed personal information, Confidential Business Information, or any information that is otherwise protected from disclosure by statute.

USAID will only address comments that explain why the proposed collection would be inappropriate, ineffective, or unacceptable without a change. Comments that are insubstantial or outside the scope of the notice of request for public comment may not be considered.

Purpose

USAID is implementing the Development Information Solution (DIS) Pilot to consolidate reporting, improve efficiencies, and facilitate evidence-based decision-making. The purpose of this information collection is to require USAID contractors and grant recipients who collect indicator data under their award terms to: (1) Submit information to request access to the DIS, and (2) to submit indicator information to the DIS, which is collected under special award requirements unique to each award. In order to request access to the DIS, contractors and recipients of grants and cooperation agreements will need to submit the following information to USAID: Name, contact telephone number, name of organization, *Login.gov* username (which is the address used for *Login.gov* access), award number, award expiration date, the activities for which access is requested, and a signature and date to acknowledge agreement to the listed Rules of Behavior. We estimate that two persons may request access for each award that requires the collection of indicator data.

Contractors and recipients will use the access to DIS during the pilot to submit indicator data and narrative on the deviation between indicator results and targets, when required as a subset of performance reporting under special award requirements. We estimate that indicator information will be submitted to DIS quarterly. As the DIS pilot progresses, USAID will use information from the pilot to inform rulemaking under Regulation Identifier Number

(RIN) 0412-AA90, which will require contractors and grant recipients to submit digital information required under awards through the DIS, replacing other current methods of submission. This information collection request will be updated in conjunction with the rulemaking to capture digital information submission requirements for information collected under other standard award terms.
