

will be viewable to DOE Building Technologies Office staff only. Your contact information will not be publicly viewable except for your first and last names, organization name (if any), and submitter representative name (if any). If your comment is not processed properly because of technical difficulties, DOE will use this information to contact you. If DOE cannot read your comment due to technical difficulties and cannot contact you for clarification, DOE may not be able to consider your comment.

However, your contact information will be publicly viewable if you include it in the comment or in any documents attached to your comment. Any information that you do not want to be publicly viewable should not be included in your comment, nor in any document attached to your comment. Persons viewing comments will see only first and last names, organization names, correspondence containing comments, and any documents submitted with the comments.

Do not submit to <http://www.regulations.gov> information for which disclosure is restricted by statute, such as trade secrets and commercial or financial information (hereinafter referred to as Confidential Business Information (“CBI”). Comments submitted through <http://www.regulations.gov> cannot be claimed as CBI. Comments received through the website will waive any CBI claims for the information submitted. For information on submitting CBI, see the Confidential Business Information section.

DOE processes submissions made through <http://www.regulations.gov> before posting. Normally, comments will be posted within a few days of being submitted. However, if large volumes of comments are being processed simultaneously, your comment may not be viewable for up to several weeks. Please keep the comment tracking number that <http://www.regulations.gov> provides after you have successfully uploaded your comment.

Submitting comments via email, hand delivery/courier, or postal mail. Comments and documents submitted via email, hand delivery/courier, or postal mail also will be posted to <http://www.regulations.gov>. If you do not want your personal contact information to be publicly viewable, do not include it in your comment or any accompanying documents. Instead, provide your contact information on a cover letter. Include your first and last names, email address, telephone number, and optional mailing address. The cover

letter will not be publicly viewable as long as it does not include any comments.

Include contact information each time you submit comments, data, documents, and other information to DOE. If you submit via postal mail or hand delivery/courier, please provide all items on a CD, if feasible, in which case it is not necessary to submit printed copies. No telefacsimiles (“faxes”) will be accepted.

Comments, data, and other information submitted to DOE electronically should be provided in PDF (preferred), Microsoft Word or Excel, WordPerfect, or text (ASCII) file format. Provide documents that are not secured, written in English and free of any defects or viruses. Documents should not contain special characters or any form of encryption and, if possible, they should carry the electronic signature of the author.

Campaign form letters. Please submit campaign form letters by the originating organization in batches of between 50 to 500 form letters per PDF or as one form letter with a list of supporters’ names compiled into one or more PDFs. This reduces comment processing and posting time.

Confidential Business Information. According to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit via email, postal mail, or hand delivery/courier two well-marked copies: One copy of the document marked confidential including all the information believed to be confidential, and one copy of the document marked “non-confidential” with the information believed to be confidential deleted. Submit these documents via email to PTAHP2019STD0035@ee.doe.gov or on a CD, if feasible. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

It is DOE’s policy that all comments may be included in the public docket, without change and as received, including any personal information provided in the comments (except information deemed to be exempt from public disclosure).

DOE considers public participation to be a very important part of the process for developing energy conservation standards. DOE actively encourages the participation and interaction of the public during the comment period in each stage of the rulemaking process. Interactions with and between members of the public provide a balanced discussion of the issues and assist DOE

in the rulemaking process. Anyone who wishes to be added to the DOE mailing list to receive future notices and information about this process or would like to request a public meeting should contact Appliance and Equipment Standards Program staff at (202) 287–1445 or via email at ApplianceStandardsQuestions@ee.doe.gov.

Signing Authority

This document of the Department of Energy was signed on December 8, 2020, by Daniel R Simmons, Assistant Secretary for the Office of Energy Efficiency and Renewable Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on December 9, 2020.

Treana V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450–01–P

FEDERAL HOUSING FINANCE AGENCY

12 CFR Part 1282

RIN 2590–AB12

Enterprise Housing Goals

AGENCY: Federal Housing Finance Agency.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The Federal Housing Finance Agency (FHFA) is publishing an Advance Notice of Proposed Rulemaking (ANPR) requesting public comment on a variety of questions related to potential changes to the regulation establishing housing goals for Fannie Mae and Freddie Mac (Enterprises). FHFA will consider public comments received on these questions in order to inform rulemaking that is planned for 2021 to establish single-family and multifamily housing goals benchmark levels for 2022 and

beyond, and to make other changes to the Enterprise housing goals regulation, as appropriate.

DATES: Comments must be received on or before February 28, 2021.

ADDRESSES: You may submit your comments on the ANPR, identified by regulatory information number (RIN) 2590-AB12, by any one of the following methods:

- *Agency website:* <https://www.fhfa.gov/open-for-comment-or-input>.

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments. If you submit your comment to the Federal eRulemaking Portal, please also send it by email to FHFA at RegComments@fhfa.gov to ensure timely receipt by FHFA. Include the following information in the subject line of your submission: Comments/RIN 2590-AB12.

- *Hand Delivered/Courier:* The hand delivery address is: Alfred M. Pollard, General Counsel, Attention: Comments/RIN 2590-AB12, Federal Housing Finance Agency, Eighth Floor, 400 Seventh Street SW, Washington, DC 20219. Deliver the package at the Seventh Street entrance Guard Desk, First Floor, on business days between 9 a.m. and 5 p.m.

- *U.S. Mail, United Parcel Service, Federal Express, or Other Mail Service:* The mailing address for comments is: Alfred M. Pollard, General Counsel, Attention: Comments/RIN 2590-AB12, Federal Housing Finance Agency, Eighth Floor, 400 Seventh Street SW, Washington, DC 20219. Please note that all mail sent to FHFA via U.S. Mail is routed through a national irradiation facility, a process that may delay delivery by approximately two weeks.

FOR FURTHER INFORMATION CONTACT: Ted Wartell, Associate Director, Office of Housing & Community Investment, Division of Housing Mission and Goals, at (202) 649-3157, Ted.Wartell@fhfa.gov; Padmasini Raman, Supervisory Policy Analyst, Office of Housing & Community Investment, Division of Housing Mission and Goals, at (202) 649-3633, Padmasini.Raman@fhfa.gov; or Kevin Sheehan, Associate General Counsel, Office of General Counsel, (202) 649-3086, Kevin.Sheehan@fhfa.gov. These are not toll-free numbers. The mailing address is: Federal Housing Finance Agency, 400 Seventh Street SW, Washington, DC 20219. The telephone number for the Telecommunications Device for the Deaf is (800) 877-8339.

SUPPLEMENTARY INFORMATION:

I. Comments

FHFA invites comments on all aspects of this ANPR. Copies of all comments will be posted without change, including any personal information you provide such as your name, address, email address, and telephone number, on the FHFA website at <https://www.fhfa.gov>. In addition, copies of all comments received will be available for examination by the public through the electronic rulemaking docket for this ANPR, also located on the FHFA website.

II. Advance Notice of Proposed Rulemaking

This ANPR seeks public comments on a variety of questions related to potential changes to the Enterprise housing goals regulation.¹ FHFA plans to issue a proposed rule in 2021 that would establish new benchmark levels for the Enterprise housing goals for 2022 and beyond, as well as make other changes to the regulation as appropriate. Based on the comments received in response to this ANPR, FHFA may propose revisions to the Enterprise housing goals regulation for comment in the proposed rule planned for 2021 or in a later rulemaking. FHFA invites comments on the specific questions set forth in this ANPR, and on any other issues that commenters think should be addressed as part of the rulemaking that will establish the housing goals benchmark levels for 2022 and beyond.

Question 1: Are there categories of loans that should be excluded from receiving housing goals credit under the Federal Housing Enterprises Financial Safety and Soundness Act of 1992 (Safety and Soundness Act) provisions on “unacceptable business and lending practices?”

The Safety and Soundness Act requires FHFA to exclude “segments of the market determined to be unacceptable or contrary to good lending practices, inconsistent with safety and soundness, or unauthorized for purchase by the enterprises” from consideration in setting the single-family housing goals.² FHFA may not give credit toward achievement of the housing goals for mortgages that are “determined to be unacceptable or contrary to good lending practices, inconsistent with safety and soundness, or unauthorized for purchase by the enterprises.”³

The current exclusions under the Enterprise housing goals regulation generally focus on types of loans or

other product characteristics, rather than loans that are unacceptable or contrary to good lending practices. However, FHFA may also make exclusions based on factors considered in underwriting loans. For single-family loan purchases, the Enterprises use their own automated underwriting systems to evaluate whether a loan is eligible for purchase based on factors including, but not limited to, a borrower’s creditworthiness. These automated underwriting systems assess a borrower’s ability to make his or her mortgage payments over a two- or three-year time period following origination. The Enterprises establish a cut-off threshold based on their credit risk appetite, and only those loans for which the borrowers’ predicted risk is deemed below that threshold are eligible to be sold to the Enterprises. The Enterprises also price loans according to their pricing grids to partially account for the risk profile of a loan.

FHFA generally considers all conventional conforming first lien mortgages that are owner-occupied as potentially eligible for single-family housing goals credit, subject to certain exclusions. For instance, under the Safety and Soundness Act, investor loans are excluded, and under the Enterprise housing goals regulation, investor loans and second loans (*i.e.*, any subordinate lien mortgages) are excluded, from consideration for the single-family housing goals.⁴ As another example, mortgages for secondary residences are excluded from consideration for the single-family housing goals.⁵

FHFA requests comment on whether there are other categories of loans that should be excluded from receiving housing goals credit under the statute’s “unacceptable business and lending practices” provisions. For example, should FHFA consider factors to promote borrower sustainability? How would FHFA determine and measure sustainability? Should risk-layering be considered in a manner that is distinct from the eligibility requirements of the Enterprises?⁶ What criteria should be used to identify such loans? What public policies should FHFA consider when assessing certain categories of loans? Are there other loan characteristics that could be, in some instances, not in the long-term interest

⁴ See 12 U.S.C. 4562(a) and 12 CFR 1282.16(b)(10).

⁵ See 12 CFR 1282.16(b)(8).

⁶ Some examples of factors associated with higher risk include high debt-to-income ratio, high loan-to-value ratio, or low credit score, among others. “Risk-layering” refers to loans with more than one such factor.

¹ 12 CFR part 1282.

² See 12 U.S.C. 4562(e)(1).

³ See 12 U.S.C. 4562(i).

of the borrower, even if they are not treated as abusive or unfair under existing consumer protection statutes?

Question 2: Are there ways to determine whether the low-income areas home purchase subgoal has resulted in the displacement of residents from certain communities, or to measure the extent of any such displacement? Should FHFA consider modifying the low-income areas home purchase subgoal to address such concerns? If so, how?

Concerns have been raised about gentrification in low-income areas and high-minority census tracts, and the potential displacement of long-time low-income residents from such areas and tracts. The current Enterprise

housing goals regulation does not restrict the income of borrowers whose mortgages qualify for the low-income areas home purchase subgoal if the mortgages are on properties located in a low-income census tract. Under the regulation, the Enterprises can meet the low-income areas home purchase subgoal by acquiring home purchase mortgages that are either: (1) Originated for borrowers located in low-income census tracts (defined as census tracts with median income less than or equal to 80 percent of area median income (AMI)); or (2) originated for borrowers with incomes less than or equal to AMI who reside in minority census tracts (defined as census tracts with a minority population of at least 30 percent and a

tract median income of less than 100 percent of AMI).⁷ There are no borrower income requirements for criterion (1). While Enterprise mortgage acquisitions could qualify under either or both criteria, the share of the Enterprises' mortgage acquisitions satisfying criterion (1) has been consistently higher than the share of Enterprise mortgage acquisitions satisfying criterion (2) in recent years. For example, among the Enterprises' mortgage acquisitions in 2019, 15.0 percent of mortgages met only criterion (1), 10.2 percent met only criterion (2), and 6.4 percent met both criteria, as can be seen in Table 1 below. All of these shares have been increasing steadily since 2010.

Source: FHFA's tabulation of Home Mortgage Disclosure Act (HMDA) and Enterprises' data. Conventional conforming single-family owner-occupied 1st lien non-Home Ownership and Equity Protection Act (HOEPA) originations.

⁷ See 12 CFR 1281.1 and 1282.12(f).

FHFA’s analysis of Home Mortgage Disclosure Act (HMDA) data in Table 2 shows that both low-income areas and high-minority areas have increasing shares of borrowers with incomes at or above 100 percent of AMI, although loans to borrowers with incomes over 100 percent of AMI do not qualify for the minority areas component of the goal. For instance, the share of loans

made to borrowers with incomes greater than 100 percent of AMI and residing in these low-income census tracts increased from 38.8 percent in 2010 to 44.2 percent in 2016, after dropping to 36.5 percent in 2012. This share has been relatively stable since then, with a 43.3 percent share in 2019. Nonetheless, borrowers with higher incomes have

made up an increasing share of the mortgage market in low-income areas. A similar trend exists among borrowers residing in high minority census tracts, with the share of higher income borrowers increasing from 42.5 percent in 2010 to 50 percent in 2016. That share declined to 47.8 percent in 2019 after hovering around 49 percent in 2018 and 2019.

Total	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%
Definitions:										
Low-income census tracts = Census tracts with median income ≤ 80% Area Median Income (AMI)										
High-minority census tracts = Census tracts where (i) tract median income ≤ 100% Area Median Income (AMI); and (ii) minorities comprise at least 30 percent of the tract population.										
Source: FHFA's tabulation of HMDA data.										

Table 3 shows that the share of loans made to borrowers with incomes greater than 100 percent of AMI and residing in low-income census tracts increased from 40.7 percent in 2010 to 42.8 percent in 2016. However, that share

has declined since then, dropping to a low of 37 percent in 2019. This trend is similar among borrowers residing in high minority census tracts, with the share of higher income borrowers increasing from 45.4 percent in 2010 to

48.5 percent in 2016, after dropping to a low of 42.8 percent in 2012. This share has since declined to 42.8 percent in 2019.

Table 3: Borrower Income Relative to AMI (Enterprise Loans Only)

Source: FHFA's tabulation of Enterprises' data.										

The presence of higher-income borrowers in these areas may be a sign of improved economic indicators for the community, but there is some concern that such a trend as seen particularly in the HMDA data analysis could also be accompanied by the displacement of lower income households. Change in the mix of renters to owner-occupied households often precedes and accompanies these trends. FHFA is aware that this particular subgoal may encourage the Enterprises to focus on purchasing loans for higher-income households in low-income and high-minority areas, and FHFA is also aware of concerns about the impact of rising housing costs on current residents in low-income or higher-minority areas. However, it is possible that higher-income households would have moved into these areas even in the absence of the subgoal. In recognition of these issues, FHFA has been very conservative in setting the benchmark levels for this subgoal.

Recently, in response to the issuance of FHFA's proposed rule for the 2021 Enterprise housing goals, FHFA received two comment letters from policy advocacy organizations that referenced concerns about displacement and gentrification related to this subgoal. The comment letters supported and encouraged FHFA's efforts to

monitor and analyze trends regarding this subgoal. The comment letters also requested release of additional data on borrower incomes associated with goals-qualifying loans.

FHFA requests comment on how best to achieve the policy objectives of this subgoal. Should FHFA shift the focus of this subgoal to lower-income households? Should FHFA impose an AMI limit on borrowers for mortgages that qualify for the subgoal? Should FHFA set a limit on the number or share of mortgages for borrowers with incomes over 100 percent of AMI that count towards the subgoal?

Question 3: Should FHFA revise the low-income areas home purchase subgoal to consider loans on properties located in Opportunity Zones, and if so, how should such loans be treated?

Opportunity Zones were created by the 2017 Tax Cuts and Jobs Act, and are designed to spur economic development and job creation in distressed communities by providing tax benefits to investors who invest in these communities.⁸ Investors may defer tax on eligible capital gains by making a

⁸ Public Law 115-97, section 13823, 131 Stat. 2054, 2183, codified at 26 U.S.C. 1400Z-1 and 1400Z-2 (Dec. 22, 2017). Note: Public Law 115-97 is commonly referred to as the "Tax Cuts and Jobs Act," but that short title was omitted from the law as enacted.

qualifying investment (including real estate) in a Qualified Opportunity Fund (QOF). A QOF is an investment vehicle with at least 90 percent of its holdings in a Qualified Opportunity Zone (QOZ) property. QOZs are census tracts that meet certain poverty rate and median family income requirements and that have been designated as such by the U.S. Department of the Treasury, based on nominations from the Chief Executive Officers of each State. There are around 8,700 QOZ tracts, the majority of which are low-income tracts.

Because the Opportunity Zones program is new, its impact is still largely unknown. FHFA has noted that in 2019, over 17 percent of low-income area home purchase goal loans are in QOZs. Additionally, 12 percent of multifamily low-income goal units and 20 percent of small multifamily low-income goal units are in QOZs. To help track how QOF projects are achieving the program's intended goal of community revitalization, the U.S. Impact the U.S. Impact [MB1] Investing Alliance, the Beeck Center for Social Impact + Innovation at Georgetown University, and the Federal Reserve Bank of New York partnered to create the Opportunity Zones Reporting Framework, a tool that may be used to

assess the intended goal of community revitalization.⁹

FHFA requests comment on whether and how the objectives of the Opportunity Zones program would align with the purpose of the Enterprise low-income areas home purchase subgoal. Should FHFA consider giving credit under this subgoal for loans on properties located in Opportunity Zones? What criteria should FHFA use to focus on Opportunity Zones that would have the largest benefit to a community? If included in the subgoal, how can FHFA ensure that the loans on properties in Opportunity Zones benefit these communities? How can FHFA use this subgoal to target slow-growing communities that need these loans? Should FHFA require the use of the Opportunity Zone Reporting Framework for impact tracking? Are there other public policy considerations related to Opportunity Zones that FHFA should consider?

Question 4: Is there evidence that the Enterprise housing goals have helped expand low-income homeownership in the marketplace?

The Safety and Soundness Act directs FHFA to evaluate Enterprise support for low-income homeownership by measuring the low-income share of the mortgages that the Enterprises have acquired.¹⁰

FHFA requests comment on the factors it should consider in assessing the effectiveness of the Enterprises' activities in expanding low-income homeownership. In order to improve the housing goals, how should impacts be evaluated? What are the appropriate counterfactuals to consider? Is it possible to determine whether acquired mortgages that count toward achievement of the goals would have been originated in the absence of the housing goals? FHFA specifically requests comment on whether—and under the statute, how—other support activities undertaken by the Enterprises should be considered when FHFA reviews the Enterprises' performance on the single-family housing goals.

RIN 2120-AA64

Airworthiness Directives; Rolls-Royce Deutschland Ltd & Co KG (Type Certificate Previously Held by Rolls-Royce plc) Turbofan Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to adopt a new airworthiness directive (AD) for certain Rolls-Royce Deutschland Ltd & Co KG (RRD) Trent 1000-A2, 1000-AE2, 1000-C2, 1000-CE2, 1000-D2, 1000-E2, 1000-G2, 1000-H2, 1000-J2, 1000-K2 and 1000-L2 model turbofan engines. This proposed AD was prompted by the manufacturer's analysis which determined that cracks may initiate in the front seal fins and cause cracks in the low-pressure turbine (LPT) disk. This proposed AD would require repetitive inspection of the seal fins and, depending on the results of the inspection, replacement of the LPT disk before further flight. The FAA is proposing this AD to address the unsafe condition on these products.

DATES: The FAA must receive comments on this proposed AD by February 4, 2021.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to <https://www.regulations.gov>. Follow the instructions for submitting comments.
- *Fax:* (202) 493-2251.
- *Mail:* U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12 140, 1200 New Jersey Avenue SE, Washington, DC 20590.
- *Hand Delivery:* Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

For service information identified in this NPRM, contact Rolls-Royce plc, P.O. Box 31, Derby, DE24 8BJ, United Kingdom, phone: +44 (0)1332 242424; website: <https://www.rolls-royce.com/contact-us.aspx>. You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 1200 District Avenue, Burlington, MA 01803. For

information on the availability of this material at the FAA, call (781) 238-7759.

Examining the AD Docket

You may examine the AD docket at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2020-1138; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this NPRM, the mandatory continuing airworthiness information (MCAI), any comments received, and other information. The street address for Docket Operations is listed above.

FOR FURTHER INFORMATION CONTACT:

Kevin M. Clark, Aviation Safety Engineer, ECO Branch, FAA, 1200 District Avenue, Burlington, MA 01803; phone: (781) 238-7088; fax: (781) 238-7199; email: kevin.m.clark@faa.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

The FAA invites you to send any written relevant data, views, or arguments about this proposal. Send your comments to an address listed under **ADDRESSES**. Include "Docket No. FAA-2020-1138; Project Identifier MCAI-2020-01258-E" at the beginning of your comments. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. The FAA will consider all comments received by the closing date and may amend this proposal because of those comments.

Except for Confidential Business Information (CBI) as described in the following paragraph, and other information as described in 14 CFR 11.35, the FAA will post all comments received, without change, to <https://www.regulations.gov>, including any personal information you provide. The FAA will also post a report summarizing each substantive verbal contact received about this NPRM.

Confidential Business Information

CBI is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this NPRM contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this NPRM, it is important that you clearly designate the submitted comments as CBI. Please mark each page of your submission containing CBI
