II. Discussion

On November 13, 2020 (85 FR 72706), the NRC issued for public comment the draft EIS for UNC license amendment to excavate approximately 1 million CY of mine waste from the Northeast Church Rock Mine Site and dispose of it at the existing mill site in McKinley County, New Mexico.

The draft EIS for UNC’s license amendment application includes the preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action. After comparing the impacts of the proposed action to the No-Action alternative, the NRC staff, in accordance with the requirements in part 51 of title 10 of the *Code of Federal Regulations*, preliminarily recommends the proposed action, which would authorize UNC to transfer and dispose Northeast Church Rock mine waste on top of the UNC tailings impoundment. This recommendation is based on (i) the license application request, which includes the Environmental Report and supplemental documents and the licensee’s responses to the NRC staff’s requests for additional information; (ii) consultation with Federal, State, Tribal, and local agencies and input from other stakeholders; and (iii) independent NRC staff review as documented in the assessments summarized in this EIS.

The public comment period was originally scheduled to close on December 28, 2020. The NRC has decided to extend the public comment until February 26, 2021 to allow more time for members of the public to submit their comments. Comments of Federal, State, and local agencies, Indian Tribes or other interested persons will be made available for public inspection when received.

Stakeholders should monitor the NRC’s public meeting website for information about the public meeting at: <https://www.nrc.gov/public-involve/public-meetings/index.cfm>.

Dated: December 17, 2020.

BILLING CODE 7590-01-P

PACIFIC NORTHWEST ELECTRIC POWER AND CONSERVATION PLANNING COUNCIL

Amended Columbia River Basin Fish and Wildlife Program

AGENCY: Pacific Northwest Electric
 Power and Conservation Planning
 Council.

ACTION: Notice of final action.

SUMMARY: Pursuant to Section 4(h) of
 the Northwest Power Act, the Council
 has amended its 2014 Columbia River
 Basin Fish and Wildlife Program by
 adding a 2020 Addendum to that 2014
 Program.

ADDRESSES: The 2020 Addendum to the
 2014 Program is available for review on
 the Council's website at [https://
 www.nwccouncil.org/reports/2014-
 columbia-river-basin-fish-and-wildlife-
 program](https://www.nwccouncil.org/reports/2014-columbia-river-basin-fish-and-wildlife-program). The amendment process web
 page, which includes links to the
 recommendations, comments, and all
 other documents and steps in the
 amendment process may be found at
[https://www.nwccouncil.org/fw/program/
 2020addendum](https://www.nwccouncil.org/fw/program/2020addendum).

FOR FURTHER INFORMATION CONTACT: John
 Shurts, General Counsel, (503) 222-
 5161, jshurts@nwccouncil.org.

SUPPLEMENTARY INFORMATION: Pursuant
 to Section 4(h) of the Northwest Power
 Act, in May 2018 the Council requested
 in writing that state and federal fish and
 wildlife agencies, the region's Indian
 tribes, and other interested parties
 submit written recommendations for
 amendments to the Council's 2014
 Columbia River Basin Fish and Wildlife
 Program. In the call for
 recommendations, the Council
 recognized the accomplishments of the
 program over the past 36 years; noted
 several regional developments that have
 been influenced by and may, in turn,
 influence the Council's program; and
 identified the opportunity presented
 during this amendment process to
 concentrate on specific program areas
 that would allow the program to
 progress in implementation and
 reporting on program performance. The
 Council received 51 sets of
 recommendations by the December 13,
 2018 deadline. The Council then sought

and received public comment on the
 recommendations as required by
 Section 4(h)(4) of the Act.

Based on the recommendations,
 comments and other information, the
 Council proposed to amend the program
 by adding an addendum to the current
 version of the program rather than by
 wholesale amendments to the program.
 Thus, in July 2019, the Council released
 a draft 2020 Addendum to the 2014
 Program for public review and
 comment. The Council took formal
 public comment on the draft 2020
 Program Addendum through October
 18, 2019. The Council received 114
 written comments, including comments
 from seven state fish and wildlife
 agencies and other state and state-
 supported agencies; 13 Columbia Basin
 Tribes and tribal organizations; four
 federal fish and wildlife and other
 federal agencies; four Bonneville
 customers, other utilities and utility
 organizations, other river users and user
 groups; nine environmental and fishing
 groups and similar non-governmental
 organizations; and hundreds of
 individuals. During this comment
 period, the Council also held eight
 public hearings, one large-group
 technical consultation relating to the
 topics in Part I of the draft Addendum,
 and engaged in a number of
 consultations, particularly with state
 and federal fish and wildlife agencies
 and tribes, individually and in groups.

One set of comments particularly
 from state fish and wildlife agencies and
 Indian tribes asked the Council not to
 adopt Part I of the 2020 Addendum,
 concerning Program Performance, on
 the Council's expected schedule, that is,
 by January 2020, and instead engage in
 further collaborative efforts on the
 topics covered in that part. The Council
 made a formal decision at its regular
 monthly meeting in December 2019 to
 extend the time for acting on the
 recommendations relevant to Program
 Performance and finalizing Part I of the
 2020 Addendum.

The Council then proceeded on
 schedule to finalize Part II of the 2020
 Addendum on Program Implementation
 at its regular January 2020 Council
 meeting. The Council completed the
 process with regard to Part II of the 2020
 Addendum by adopting in March 2020
 as part of the program a document
 containing findings on relevant program
 amendment recommendations and
 responses to comments.

With regard to Part I of the 2020
 Addendum, the Council engaged in a
 further public process, including
 hosting eight workshops from January
 through April 2020. The discussions at
 the workshops addressed technical

comments received on the draft, as well
 as some of the policy issues that had
 been identified during the previous
 public comment period. Following the
 workshops, the Council revised its draft
 of Part I of the 2020 Addendum and
 released the revised draft for public
 review and comment in May 2020.
 Public comment of the revised draft of
 Part I concluded on June 22, 2020. The
 Council received twenty-two sets of
 comments on the revised draft of Part I
 from state and state supported agencies,
 tribes and tribal organizations, one
 federal agency, environmental groups,
 one customer group, and a few
 individuals. The Council also held a
 public hearing via webinar and
 teleconference on June 15, 2020 that
 was advertised in Idaho, Montana,
 Washington and Oregon.

The Council then adopted the final
 version of Part I of the 2020 Addendum
 at its regularly scheduled August 2020
 meeting, completing the Council's work
 on the text of the 2020 Addendum. The
 Council completed the program
 amendment process by adopting, at its
 regularly scheduled meeting in October
 2020, as part of the program a document
 containing findings on program
 amendment recommendations and
 responses to comments relevant to Part
 I. Following the adoption of Part I by the
 Council, the Council knit together into
 one final document the pieces of the
 2020 Addendum.

The Council decided on final program
 amendments after consideration of the
 original program amendment
 recommendations, supporting
 documents and information that came
 with the recommendations, comments
 offered on the recommendations,
 comments submitted on the original
 draft program addendum as well as
 information and comments received by
 the Council during the extended
 workshop and public review of draft
 Part I and then on the revised draft of
 Part I, and other views and information
 obtained through public comment and
 discussions with state and federal fish
 and wildlife agencies, tribes,
 Bonneville, other federal agencies,
 Bonneville customers, and others.
