

NMFS proposed the implementing notice on August 11, 2006 (71 FR 46364), and published the final notice on September 29, 2006 (71 FR 57696). NMFS allocated the \$35,000,000 reduction loan (A Loan) to the reduction fishery and this loan is repayable by fees from the fishery.

On September 24, 2007, NMFS published in the **Federal Register** (72 FR 54219), the final rule to implement the industry fee system for repaying the non-pollock groundfish program's reduction loan and established October 24, 2007, as the effective date when fee collection and loan repayment began. The regulations implementing the program are located at § 600.1012.

NMFS published a final rule to implement a second \$2,700,000 reduction loan (B Loan) for this fishery in the **Federal Register** on September 24, 2012 (77 FR 58775). The loan was disbursed December 18, 2012 with fee collection of \$0.001 per pound to begin January 1, 2013. This fee is in addition to the A Loan fee.

Purpose

The purpose of this notice is to adjust the fee rate for the reduction fishery in accordance with the framework rule's § 600.1013(b). Section 600.1013(b) directs NMFS to recalculate the fee rate that will be reasonably necessary to ensure reduction loan repayment within the specified 30 year term.

NMFS has determined for the reduction fishery that the current fee rate of \$0.021 per pound is less than that needed to service the A Loan. Therefore, NMFS is increasing the Loan A fee rate to \$0.024 per pound which NMFS has determined is sufficient to ensure timely loan repayment. The fee rate for Loan B will remain \$0.001 per pound.

Subsector members may continue to use *Pay.gov* to disburse collected fee deposits at: <http://www.pay.gov/paygov/>.

Please visit the NMFS website for additional information at: <https://www.fisheries.noaa.gov/national/funding-and-financial-services/longline-catcher-processor-subsector-bering-sea-and-aleutian-islands-non-pollock>.

Notice

The new fee rate for the non-pollock groundfish fishery will begin on January 1, 2021.

From and after this date, all subsector members paying fees on the non-pollock groundfish fishery shall begin paying non-pollock groundfish fishery program fees at the revised rate.

Fee collection and submission shall follow previously established methods

in § 600.1013 of the framework rule and in the final fee rule published in the **Federal Register** on September 24, 2007 (72 FR 54219).

Authority: 16 U.S.C. 1861 *et seq.*; Pub. L. 108-447.

Dated: December 17, 2020.

SUPPLEMENTARY INFORMATION:

Background

On November 27, 2020, NMFS proposed to designate critical habitat for seven Indo-Pacific corals listed as threatened under the ESA within U.S. waters in Guam, the Commonwealth of the Northern Mariana Islands (CNMI), American Samoa, and the Pacific Remote Island Area (PRIA). The seven species are *Acropora globiceps*, *A. jacquelineae*, *A. retusa*, *A. speciosa*, *Euphyllia paradivisa*, *Isopora crateriformis*, and *Seriatopora aculeata*. Proposed coral critical habitat consists of substrate and water column habitat characteristics essential for the reproduction, recruitment, growth, and maturation of the listed corals.

Proposed critical habitat consists of 17 separate units, each of which contains all ESA-listed corals that occur there: There are four units in American Samoa (Tutuila, Ofu-Olosega, Ta'u, Rose Atoll); seven in CNMI (Rota, Aguijan, Tinian, Saipan, Anatahan, Pagan, and Maug Islands); five in PRIA (Howland, Palmyra, Kingman, Johnston, and Jarvis Islands); and one unit encompassing all proposed designations in Guam. Between one and six listed corals occur in each unit. The following areas are either ineligible for proposed critical habitat, or excluded because of national security impacts: A complex of overlapping Navy Surface Danger Zones

off of Ritidian Point in Guam, other parts of Guam, parts of Tinian, a group of six Navy anchorage berths on Garapan Bank in Saipan, all of Farallon de Medinilla, and all of Wake Atoll.

Critical habitat protections apply only to Federal actions under Section 7 of the ESA; activities that are not funded, authorized, or carried out by a Federal agency are not subject to these protections. The proposed rule and other materials prepared in support of this action, including maps showing the proposed critical habitat, are available at: <https://www.fisheries.noaa.gov/action/proposed-rule-designate-critical-habitat-threatened-indo-pacific-corals>. We are accepting public comments for the proposed rule through February 25, 2021. Public comments can be submitted as described under **ADDRESSES**.

Public Hearings

The two public hearings will be conducted online as Webex meetings, as specified in **ADDRESSES** above. More detailed instructions for joining the Webex meetings are provided on our web page <https://www.fisheries.noaa.gov/action/proposed-rule-designate-critical-habitat-threatened-indo-pacific-corals>. If you do not have internet access, you may join by phone at the numbers listed in **ADDRESSES** above.

Each hearing will follow the same format and cover the same material. The hearings will begin with a brief presentation by NMFS that gives an overview of critical habitat under the ESA and a summary of proposed coral critical habitat in Guam, CNMI, American Samoa, and PRIA. After the presentation but before public comments, there will be a question and answer session during which members of the public may ask NMFS staff questions about proposed coral critical habitat. Following the question and answer session, members of the public will have the opportunity to provide oral comments on the record regarding proposed coral critical habitat. Members of the public will also have the opportunity to submit written comments at the hearings. Written comments may also be submitted at any time during the relevant public comment period as described under **ADDRESSES**. All oral comments will be recorded, transcribed, and added to the public comment record for this proposed rule.
