Federal Energy Regulatory Commission

[Docket No. CP17–486–000]

National Fuel Gas Supply Corporation; Notice of Request for Extension of Time

Take notice that on December 11, 2020, National Fuel Gas Supply Corporation (National Fuel) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time, until December 1, 2023, to continue using Well 7451 in the Beech Hill Storage Field (Beech Hill) as a withdrawal-only well in order to continue to collect and evaluate information it needs to further demonstrate and assess the reservoir connection between the Beech Hill Complex and the Shongo Pool.

The Commission authorized National Fuel to test Well 7451 and to assess the connection between the Beech Hill Complex and the Shongo Pool in its January 26, 2018 order, for a term not to exceed three years (January 2018 Order).¹ Ordering Paragraph (A) of the January 2018 Order requires National Fuel to notify the Commission within three years of the certificate being issued, if the certificate authorization needs to be abandoned.²

National Fuel states that it has not collected enough information about Well 7451 to make any final determinations as required by the Commission approved Containment Plan of the Beech Hill Storage Field.³ National Fuel's reservoir models have projected different points at which the effect of any interconnection may be evident, the soonest point those models project the effect will be evident is when an additional withdrawal of 0.655 Bcf of gas from Well 7451 occurs. National Fuel expects it will take about two years or longer to reach a level of

total withdrawal that will provide information needed to verify and update the reservoir models.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on National Fuel's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).⁴

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for Natural Gas Act facilities when such requests are contested before order issuance. For those extension requests that are contested,⁵ the Commission will aim to issue an order acting on the request within 45 days.⁶ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁷ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.⁸ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.⁹ The OEP Director, or his or her designee, will act on all of those extension requests that are uncontested.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to

⁴ Only motions to intervene from entities that were party to the underlying proceeding will be accepted. *Algonquin Gas Transmission, LLC*, 170 FERC ¶ 61,144, at P 39 (2020).

⁵ Contested proceedings are those where an intervenor disputes any material issue of the filing. 18 CFR 385.2201(c)(1) (2019).
