Issuance of Multiple Exemptions in Response to COVID–19 Public Health Emergency

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemptions; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) issued 20 exemptions in response to requests from 14 licensees. The exemptions afford these licensees temporary or permanent relief from certain requirements under NRC regulations. The exemptions are in response to the licensees' requests for relief due to the coronavirus disease 2019 (COVID–19) public health emergency (PHE). The NRC is issuing a single notice to announce the issuance of the exemptions.

DATES: During the period from November 2, 2020, to November 25, 2020, the NRC granted 20 exemptions in response to requests submitted by licensees from September 17, 2020, to November 20, 2020.

ADDRESSES: Please refer to Docket ID NRC–2020–0110 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2020–0110. Address questions about NRC Docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301–287–9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. SUPPLEMENTARY INFORMATION:

I. Introduction

During the period from November 2, 2020, to November 25, 2020, the NRC granted 20 exemptions in response to requests submitted by licensees from September 17, 2020, to November 20, 2020. These exemptions temporarily allow the licensees to deviate from certain requirements (as cited below) of various parts of chapter I of title 10 of the *Code of Federal Regulations* (10 CFR).

The exemptions from certain requirements of 10 CFR part 26, "Fitness for Duty Programs," for Energy Harbor Nuclear Corp. (for Beaver Valley Power Station, Units 1 and 2; Davis-Besse Nuclear Power Station, Unit No. 1; and Perry Nuclear Power Plant, Unit No. 1); Union Electric Company (for Callaway Plant, Unit No. 1); DTE Electric Company (for Fermi-2); and Arizona Public Service Company (for Palo Verde Nuclear Generating Station, Units 1, 2, and 3), afford these licensees temporary relief from the work-hour controls under 10 CFR 26.205(d)(1) through (d)(7). The exemptions from 10 CFR 26.205(d)(1) through (d)(7) ensure that the control of work hours and management of worker fatigue do not unduly limit licensee flexibility in using personnel resources to most effectively manage the impacts of the COVID–19 PHE on maintaining the safe operation of these facilities. Specifically, these licensees have stated that their staffing levels are affected or are expected to be affected by the COVID–19 PHE, and they can no longer meet or likely will not meet the work-hour controls of 10 CFR 26.205(d)(1) through (d)(7). These licensees have committed to effecting site-specific administrative controls for COVID–19 PHE fatigue management for personnel specified in 10 CFR 26.4(a).

The exemptions from certain requirements of 10 CFR part 50,

appendix E, "Emergency Planning and Preparedness for Production and Utilization Facilities," section IV.F., "Training," for Energy Harbor Nuclear Corp. (for Beaver Valley Power Station, Units 1 and 2); NextEra Energy Duane Arnold, LLC (for Duane Arnold Energy Center); Southern Nuclear Operating Company (for Joseph M. Farley Nuclear Plant, Units 1 and 2); Dominion Energy Nuclear Connecticut, Inc. (for Millstone Power Station, Unit Nos. 1, 2, and 3); Northern States Power Company (for Prairie Island Nuclear Generating Plant, Units 1 and 2); Exelon Generation Company, LLC (for Peach Bottom Atomic Power Station, Units 1, 2, and 3; and Quad Cities Nuclear Power Station, Units 1 and 2); Entergy Operations, Inc. (for River Bend Station, Unit 1); Tennessee Valley Authority (for Sequoyah Nuclear Plant, Units 1 and 2); and Susquehanna Nuclear, LLC (for Susquehanna Steam Electric Station, Units 1 and 2), grant temporary exemptions from the biennial emergency preparedness exercise requirement. The exemptions allow a temporary exemption from the requirements of 10 CFR part 50, appendix E, regarding the conduct of the biennial emergency preparedness exercise. These exemptions will not adversely affect the emergency response capability of the facilities because affected licensee personnel are currently qualified, and the licensees' proposed compensatory measures will enable their staff to maintain their knowledge, skills, and abilities without the conduct of the biennial emergency preparedness exercise during the exemption term.

The exemptions from certain requirements of 10 CFR part 73, appendix B, "General Criteria for Security Personnel," section VI, "Nuclear Power Reactor Training and Qualification Plan for Personnel Performing Security Program Duties," for Duke Energy Carolinas, LLC (for Catawba Nuclear Station, Units 1 and 2); Entergy Operations, Inc. (for Grand Gulf Nuclear Station, Unit 1); and PSEG Nuclear LLC (for Hope Creek Generating Station and Salem Nuclear Generating Station, Unit Nos. 1 and 2), will help to ensure that these regulatory requirements do not unduly limit licensee flexibility in using personnel resources in a manner that most effectively manages the impacts of the COVID–19 PHE on maintaining the safe and secure operation of these facilities and the implementation of the licensees' NRC approved security plans, protective strategy, and implementing procedures. These licensees have committed to certain security measures to ensure

response readiness and for their security personnel to maintain performance capability.

The NRC is providing compiled tables of exemptions using a single **Federal Register** notice for COVID-19 related exemptions instead of issuing individual **Federal Register** notices for each exemption. The compiled tables below provide transparency regarding the number and type of exemptions the

NRC has issued. Additionally, the NRC publishes tables of approved regulatory actions related to the COVID-19 PHE on its public website at <https://www.nrc.gov/about-nrc/covid-19/reactors/licensing-actions.html>.

II. Availability of Documents

The tables below provide the facility name, docket number, document description, and ADAMS accession

number for each exemption issued. Additional details on each exemption issued, including the exemption request submitted by the respective licensee and the NRC's decision, are provided in each exemption approval listed in the tables below. For additional directions on accessing information in ADAMS, see the **ADDRESSES** section of this document.

OFFICE OF PERSONNEL MANAGEMENT

Excepted Service

AGENCY: Office of Personnel Management (OPM).

ACTION: Notice.

SUMMARY: This notice identifies Schedule A, B, and C appointing authorities applicable to a single agency

that were established or revoked from September 1, 2020 to September 30, 2020.

FOR FURTHER INFORMATION CONTACT: Julia Alford, Senior Executive Resources Services, Senior Executive Services and Performance Management, Employee Services, 202-606-2246.

SUPPLEMENTARY INFORMATION: In accordance with 5 CFR 213.103, Schedule A, B, and C appointing authorities available for use by all agencies are codified in the Code of Federal Regulations (CFR). Schedule A, B, and C appointing authorities applicable to a single agency are not codified in the CFR, but the Office of Personnel Management (OPM) publishes a notice of agency-specific authorities established or revoked each

month in the **Federal Register** at www.gpo.gov/fdsys/. OPM also publishes an annual notice of the consolidated listing of all Schedule A, B, and C appointing authorities, current as of June 30, in the **Federal Register**.
