Completing the Transition to Electronic Filing, Licenses and Authorizations, and Correspondence in the Wireless Radio Services

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this Report and Order, the Commission finalizes its transition to electronic interactions for licenses in the Wireless Radio Services. Final Regulatory Flexibility Analysis

The Regulatory Flexibility Act of 1980, as amended (RFA), requires that an agency prepare a regulatory flexibility analysis for notice and comment rulemakings, unless the agency certifies that “the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities.” Accordingly, the Commission has prepared a Final Regulatory Flexibility Analysis (FRFA) concerning the possible impact of the rule changes contained in this *Report and Order* on small entities. As required by the Regulatory Flexibility Act, an Initial Regulatory Flexibility Analysis (IRFA) was incorporated in the *notice of proposed rulemaking (NPRM)* (84 FR 51502, Sept. 30, 2019) released in September 2019 in this proceeding. The Commission sought written public comment on the proposals in the *NPRM*, including comments on the IRFA. No comments were filed addressing the IRFA. This FRFA conforms to the RFA. The Commission will send a copy of the *Report and Order, Order of Proposed Modification, and Orders*, including the FRFA, to the Chief Counsel for Advocacy of the Small Business Administration.

Specifically, the E-Licensing Report and Order: (1) Eliminates existing exemptions to electronic filing in the FCC’s Universal Licensing System and require electronic filing in the Antenna Structure Registration system; (2) requires electronic filing (and delivery of service) of pleadings related to these systems; (3) requires applicants, licensees, and registrants to provide an email address on related FCC Forms; and (4) shifts from paper to electronic delivery of Commission correspondence generated from these systems. Together, these changes will decrease costs for consumers and the Commission, enhance transparency of and public access to data, and save a substantial amount of paper annually.
