SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000-0157, Architect-Engineer Qualifications (SF-330).

B. Need and Uses

This clearance covers the information that offerors must submit to comply with the following Federal Acquisition Regulation (FAR) requirement:

Standard Form (SF) 330, Architect-Engineer Qualifications

As specified in FAR 36.702(b), an architect-engineer firm must provide information about its qualifications for a specific contract when the contract amount is expected to exceed the simplified acquisition threshold. Part I of the SF 330 may be used when the contract amount is expected to be at or below the simplified acquisition threshold, if the contracting officer determines that its use is appropriate. Part II of the SF 330 is used to obtain information from an architect-engineer firm about its general professional qualifications.

The SF 330 accomplishes the following:

- Expands essential information about qualifications and experience data including:
 - An organizational chart of all participating firms and key personnel.
 - For all key personnel, a description of their experience in 5 relevant projects.
 - A description of each example project performed by the project team (or some elements of the project team) and its relevance to the agency's proposed contract.
 - A matrix of key personnel who participated in the example projects. This matrix graphically illustrates the degree to which the proposed key personnel have worked together before on similar projects.
 - Reflects current architect-engineer disciplines, experience types and technology.
 - Permits limited submission length thereby reducing costs for both the architect-engineer industry and the Government. Lengthy submissions do not necessarily lead to a better decision on the best-qualified firm. The proposed

SF 330 indicates that agencies may limit the length of firm's submissions, either certain sections or the entire package. The Government's right to impose such limitations was established in case law (*Coffman Specialties, Inc.*, B-284546, N-284546/2, 2000 U.S.Comp.Gen.LEXIS 58, May 10, 2000).

The contracting officer uses the information provided on the SF 330 to evaluate firms to select an architect-engineer firm for a contract.

GENERAL SERVICES ADMINISTRATION

[OMB Control No. 3090-0322; Docket No. 2020-0001; Sequence No. 5]

General Services Administration Acquisition Regulation; Submission for OMB Review; Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment Under Lease Acquisitions and Commercial Solution Opening Procurements

AGENCY: Office of the Chief Acquisition Officer, General Services Administration (GSA).

ACTION: Notice of request for comments regarding an extension to an existing OMB clearance.

SUMMARY: Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat Division will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a previously approved information collection requirement for Prohibition to Certain Telecommunications and Video

Surveillance Services or Equipment under Lease Acquisitions and Commercial Solution Openings.

DATES: Submit comments on or before January 28, 2021.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

SUPPLEMENTARY INFORMATION:

A. Purpose

The Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501 *et seq.*) provides that an agency generally cannot conduct or sponsor a collection of information, and no person is required to respond to, nor be subject to, a penalty for failure to comply with a collection of information, unless that collection has obtained Office of Management and Budget (OMB) approval and displays a currently valid OMB Control Number.

GSA requested and OMB authorized emergency processing of an information collection, as OMB Control Number 3090-0322, for the provision at FAR 52.204-24, Representation Regarding Certain Telecommunications and Video Surveillance Services and the clause at FAR 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment, as used under lease acquisitions and commercial solution openings. GSA has determined the following conditions have been met:

a. The collection of information is needed prior to the expiration of time periods normally associated with a routine submission for review under the provisions of the Paperwork Reduction Act, because the prohibitions in Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) went into effect on August 13, 2020.

b. The collection of information is essential to GSA's mission to ensure GSA complies with Section 889 in order to protect the Government supply chain from risks posed by covered telecommunications equipment or services.

c. GSA cannot comply with the normal clearance procedures because public harm is reasonably likely to

result if current clearance procedures are followed.

This requirement supports implementation of Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115–232) under lease acquisitions and commercial solution openings. This section prohibits agencies from procuring, obtaining, extending or renewing a contract with contractors that will provide or use covered telecommunication equipment or services as a substantial or essential component of any system, or as a critical technology as part of any system on or after August 13, 2020 unless an exception applies.

This requirement is implemented in the Federal Acquisition Regulation (FAR) through the provision at FAR 52.204–24, Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment and the clause at FAR 52.204–25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment. GSA’s Class Deviation CD–2020–15 extends these requirements to lease acquisitions and commercial solution opening procurements.

This clearance covers the following requirements:

FAR 52.204–24 requires an offer or to represent whether they will provide or whether they will use any covered telecommunications equipment or services and if so, describe in more detail the use of the covered telecommunications equipment or services; and

FAR 52.204–25 requires contractors to report covered telecommunications equipment, systems and services identified during performance of a contract.

GSA requested approval of this information collection in order to implement the law. The information will be used by agency personnel to identify and remove prohibited equipment, systems, or services from Government use. Under the Paperwork Reduction Act (PRA) of 1995, Federal agencies must obtain approval from the Office of Management and Budget

(OMB) for each collection of information they conduct or sponsor.

BILLING CODE 6820–61–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Contact After Adoption or Guardianship: Child Welfare Agency and Family Interactions (New Collection)

AGENCY: Office of Planning, Research, and Evaluation; Administration for Children and Families; HHS.

ACTION: Request for public comment.

SUMMARY: The Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services (HHS) seeks approval for a one-time study to examine child welfare agency family contact activities. The primary objective of this study is to describe how public child welfare agencies are in contact with or receive information about the well-being of children and youth who have exited the foster care system through adoption or guardianship, particularly the experiences of these children with instability. A secondary objective is to understand what types of information child welfare agencies systematically track about these children.

DATES: *Comments due within 30 days of publication.* OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION:

Description: The proposed study would conduct web surveys with state child welfare agency adoption program managers. The study will also include stakeholder videoconference interviews with selected child welfare agency representatives. The web surveys and stakeholder interviews are designed to collect information about the types of routine contact between agencies and families after adoption or guardianship as well as agency procedures to track child instability experiences after adoption or guardianship.

Respondents: Child welfare agency staff.
