

and agreeing that the patent or any patent granted on the application for which the disclaimer is filed shall be enforceable only for and during such period that the patent or any patent granted on the application for which the terminal disclaimer is filed and the reference patent or any patent granted on the reference application are not separately enforced.

(2) A terminal disclaimer may be filed under paragraph (d)(1) of this section if the requirements of paragraph (d)(2)(i) or (ii), as applicable, have been met.

(i) For applications or patents subject to 35 U.S.C. 102 in effect on March 16, 2013.

(A) The applicant or patent owner provides, or has provided, a statement to the effect that the subject matter of the reference patent or application was developed and the claimed invention was made by or on behalf of one or more parties to a joint research agreement, within the meaning of 35 U.S.C. 100(h) and § 1.9(e), that was in effect on or before the effective filing date of the claimed invention, and the claimed invention was made as a result of activities undertaken within the scope of the joint research agreement; and

(B) The application for patent, or the patent, for the claimed invention discloses or is amended to disclose the names of the parties to the joint research agreement in accordance with § 1.71(g).

(ii) For applications or patents subject to 35 U.S.C. 102 in effect prior to March 16, 2013.

(A) The applicant or patent owner provides, or has provided, a statement to the effect that the subject matter of the reference patent or application and the claimed invention were made by or on behalf of the parties to a joint research agreement, within the meaning of 35 U.S.C. 100(h) and § 1.9(e), that was in effect on or before the date the claimed invention was made, and that the claimed invention was made as a result of activities undertaken within the scope of the joint research agreement; and

(B) The application for patent, or the patent, for the claimed invention discloses or is amended to disclose the names of the parties to the joint research agreement in accordance with § 1.71(g).

(e) *Submission of a disclaimer during an interference under subpart E of part 41 or a proceeding under part 42.* A disclaimer of a complete claim or claims, or a disclaimer of the entire term or terminal part of the term (terminal disclaimer) under this section, of a patent involved in an interference under subpart E of part 41 of this chapter or a proceeding under part 42 of this chapter may not be entered into the

official file or considered, or if inadvertently entered, will be expunged unless a motion requesting to file the disclaimer under §§ 41.121(a)(2), 41.121(a)(3), or 42.20 of this chapter has been granted.

Andrei Iancu,

Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

BILLING CODE 3510–16–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[EPA–HQ–SFUND–1989–0008; FRL–10018–19–OLEM]

Proposed Deletion From the National Priorities List

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; notice of intent.

SUMMARY: The Environmental Protection Agency (EPA) is issuing a Notice of Intent to partially delete the North Penn—Area 6 site from the National Priorities List (NPL) and requests public comments on this proposed action. The NPL, promulgated pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the Commonwealth of Pennsylvania, through its designated state agency, have determined that all appropriate response actions under CERCLA, other than operations and maintenance, monitoring and five-year reviews, where applicable, have been completed. However, this proposed deletion would not preclude future actions under Superfund.

DATES: Comments regarding this proposed listing must be submitted on or before January 29, 2021.

ADDRESSES: EPA has established a docket for this action under the Docket Identification number included in Table 1 in the **SUPPLEMENTARY INFORMATION** section of this document. Submit your comments, identified by the appropriate Docket ID number, by one of the following methods:

- <https://www.regulations.gov>.

Follow on-line instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its

public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

• **Email:** Table 2 in the **SUPPLEMENTARY INFORMATION** section of this document provides an email address to submit public comments for the proposed deletion action.

Instructions: Direct your comments to the Docket Identification number included in Table 1 in the **SUPPLEMENTARY INFORMATION** section of this document. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <https://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <https://www.regulations.gov> or email. The <https://www.regulations.gov> website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through <https://www.regulations.gov>, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of

encryption, and be free of any defects or viruses.

Docket: EPA has established a docket for this action under the Docket Identification included in Table 1 in the **SUPPLEMENTARY INFORMATION** section of this document. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through <https://www.regulations.gov> or in hard copy at the corresponding Regional Records Center. Location, address, and phone number of the Regional Records Center follows.

Regional Records Center:

- Region 3 (DE, DC, MD, PA, VA, WV), U.S. EPA Records Center, 1650 Arch Street, Mail code 3SD2, Philadelphia, PA 19103; 215/814–3024.

The EPA is temporarily suspending Regional Records Centers for public visitors to reduce the risk of transmitting COVID–19. Information in these repositories, including the deletion docket, has not been updated with hardcopy or electronic media. For further information and updates on EPA Docket Center services, please visit us online at <https://www.epa.gov/dockets>.

The EPA continues to carefully and continuously monitor information from the Centers for Disease Control and Prevention (CDC), local area health departments, and our Federal partners so that we can respond rapidly as conditions change regarding COVID.

FOR FURTHER INFORMATION CONTACT:

- Huu Ngo, U.S. EPA Region 3 (DE, DC, MD, PA, VA, WV), ngo.huu@epa.gov, 215/814–3187.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Introduction
- II. NPL Deletion Criteria
- III. Deletion Procedures
- IV. Basis for Intended Partial Site Deletion

I. Introduction

EPA is issuing a Notice of Intent to partially delete one site from the National Priorities List (NPL) and requests public comments on this proposed action. The NPL constitutes Appendix B of 40 CFR part 300 which

is the NCP, which EPA created under section 105 of the CERCLA statute of 1980, as amended. EPA maintains the NPL as those sites that appear to present a significant risk to public health, welfare, or the environment. Sites on the NPL may be the subject of remedial actions financed by the Hazardous Substance Superfund (Fund). This partial deletion is proposed in accordance with 40 CFR 300.425(e) and is consistent with the Notice of Policy Change: Partial Deletion of Sites Listed on the National Priorities List. 60 FR 55466, November 1, 1995. As described in 300.425(e)(3) of the NCP, a portion of a site deleted from the NPL remains eligible for Fund-financed remedial action if future conditions warrant such actions.

EPA will accept comments on the proposal to partially delete this site for thirty (30) days after publication of this document in the **Federal Register**.

Section II of this document explains the criteria for deleting sites from the NPL. Section III of this document discusses procedures that EPA is using for this action. Section IV of this document discusses the portion of the site proposed for deletion and demonstrates how it meets the deletion criteria, including reference documents with the rationale and data principally relied upon by the EPA to determine that the Superfund response is complete.

II. NPL Deletion Criteria

The NCP establishes the criteria that EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response is appropriate. In making such a determination pursuant to 40 CFR 300.425(e), EPA will consider, in consultation with the state, whether any of the following criteria have been met:

- i. Responsible parties or other persons have implemented all appropriate response actions required;
- ii. all appropriate Fund-financed response under CERCLA has been implemented, and no further response action by responsible parties is appropriate; or
- iii. the remedial investigation has shown that the release poses no significant threat to public health or the environment and, therefore, the taking of remedial measures is not appropriate.

Pursuant to CERCLA section 121(c) and the NCP, EPA conducts five-year reviews to ensure the continued protectiveness of remedial actions where hazardous substances, pollutants, or contaminants remain at a site above levels that allow for unlimited use and

unrestricted exposure. EPA conducts such five-year reviews even if a site is deleted from the NPL. EPA may initiate further action to ensure continued protectiveness at a deleted site if new information becomes available that indicates it is appropriate. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system.

III. Deletion Procedures

The following procedures apply to the partial deletion of the site in this proposed rule:

(1) EPA consulted with the respective state before developing this Notice of Intent for partial deletion.

(2) EPA has provided the state 30 working days for review of this proposed action prior to publication of it today.

(3) In accordance with the criteria discussed above, EPA has determined that no further response is appropriate.

(4) The state, through their designated state agency, has concurred with the proposed partial deletion action.

(5) Concurrently, with the publication of this Notice of Intent for partial deletion in the **Federal Register**, a notice is being published in a major local newspaper of general circulation near the site. The newspaper announces the 30-day public comment period concerning the Notice of Intent for partial deletion.

(6) The EPA placed copies of documents supporting the proposed partial deletion in the deletion docket, made these items available for public inspection, and copying at the Regional Records Center identified above.

If comments are received within the 30-day comment period on this document, EPA will evaluate and respond accordingly to the comments before making a final decision to partially delete the site. If necessary, EPA will prepare a Responsiveness Summary to address any significant public comments received. After the public comment period, if EPA determines it is still appropriate to partially delete the site, the EPA will publish a final Notice of Partial Deletion in the **Federal Register**. Public notices, public submissions and copies of the Responsiveness Summary, if prepared, will be made available to interested parties and included in the site information repositories listed above.

Deletion of a portion of a site from the NPL does not itself create, alter, or revoke any individual's rights or obligations. Deletion of a portion of a site from the NPL does not in any way

alter EPA's right to take enforcement actions, as appropriate. The NPL is designed primarily for informational purposes and to assist EPA management. Section 300.425(e)(3) of the NCP states that the deletion of a site from the NPL does not preclude eligibility for future response actions, should future conditions warrant such actions.

IV. Basis for Partial Site Deletion

The site to be partially deleted from the NPL, the location of the site, and docket number with information including reference documents with the rationale and data principally relied upon by the EPA to determine that the Superfund response is complete are specified in Table 1. The NCP permits activities to occur at a deleted site or

that media or parcel of a partially deleted site, including operation and maintenance of the remedy, monitoring, and five-year reviews. These activities for the site are entered in Table 1, if applicable, under Footnote such that; 1 = site has continued operation and maintenance of the remedy, 2 = site receives continued monitoring, and 3 = site five-year reviews are conducted.

Table 2 includes a description of the area, media or Operable Units (OUs) of the NPL site proposed for partial

deletion from the NPL, and an email address to which public comments may be submitted if the commenter does not

comment using <https://www.regulations.gov>.

TABLE 2

Site name	Media/parcels for partial deletion	Email address for public comments
North Penn—Area 6	1.66-acres soil and groundwater of the Second Administrative Parcel, 135 East Hancock Street.	Ngo.huu@epa.gov .

EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the environment. Deletion from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of a site from the NPL does not affect responsible party liability in the unlikely event that future conditions warrant further actions.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 20–428; RM–11870; DA 20–1487; FRS 17346]

Television Broadcasting Services: Columbia, Missouri

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission has before it a petition for rulemaking filed by The Curators of the University of Missouri (the University), licensee of KOMU–TV, channel 8, Columbia, Missouri, requesting the substitution of channel 27 for channel 8 at Columbia in the DTV Table of Allotments. The University states that the Commission has recognized that VHF channels have certain propagation characteristics which may cause reception issues for some viewers. The University states that since the end of the DTV transition in 2009, the station regularly receives complaints from viewers who report being able to receive all other signals in the market, including a low power television station operating on a UHF channel, but not KOMU–TV. While KOMU–TV's proposed channel 27 facility would result in a slight reduction of service to existing viewers, the University demonstrates that only

401 people are predicted to live in portions of the loss area, and that all but seven of those persons will continue to be served by at least five full power television stations. The Commission has found that population loss of less than 500 persons is de minimus and the predicted population loss as presented by the University is only 401 persons and virtually all of them will continue to be well-served by five other full power television stations. **DATES:** Comments must be filed on or before January 29, 2021 and reply comments on or before February 16, 2021.

ADDRESSES: Federal Communications Commission, Office of the Secretary, 45 L Street NE, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve counsel for petitioner as follows: Lauren Lynch Flick, Esq., Pillsbury Winthrop Shaw Pittman LLP, 1200 Seventeenth Street NW, Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418–1647; or Joyce Bernstein, Media Bureau, at Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's *Notice of Proposed Rulemaking*, MB Docket No. 20–428; RM–11870; DA 20–1487, adopted December 16, 2020, and released December 16, 2020. The full text of this document is available for download at <https://www.fcc.gov/edocs>.
