B. Need and Uses

Presolicitation notices are used by the Government to inform, and, where specified, solicit a response from potential offerors or bidders. The primary purposes of the notices are to improve small business access to acquisition information and enhance competition by identifying contracting and subcontracting opportunities. This clearance covers the information that offerors must submit to comply with the following Federal Acquisition Regulation (FAR) requirements:

- For sealed bidding (FAR 14.205), presolicitation notices briefly describe requirements and provide other essential information to enable potential bidders to determine whether they have an interest in the invitation and if appropriate, respond by communicating their interest in receiving the invitation for bid.

- For contracting by negotiation (FAR 15.201(c)), presolicitation notices provide a means of early exchanges of information about future acquisitions between Government and industry, to which potential offerors may respond with feedback concerning acquisition strategy, terms and conditions, and any other concerns or questions.

- For construction contracts (FAR 36.213-2), presolicitation notices are required for construction requirements in excess of the simplified acquisition threshold to communicate essential information on the requirements, to which potential bidders may respond communicating their interest in receiving the invitation for bid.

Contracting officers use the information as follows:

- For sealed bidding, to include interested bidders in the distribution of the invitations for bids; and
- For contracting by negotiation, to consider the industry feedback in shaping the acquisition strategy.

C. Annual Burden

Respondents: 59,420.

Total Annual Responses: 178,260.

Total Burden Hours: 14,261.

D. Public Comment

A 60-day notice was published in the **Federal Register** at 85 FR 66565, on October 20, 2020. One comment was received; however, it did not change the estimate of the burden.

Comment: The commenter requested the requirement for presolicitation notices be removed from the FAR. The commenter does not see their value; and stated that presolicitation notices lengthen the acquisition timelines unnecessarily.

Response: Presolicitation notices are required by statute; see FAR 5.201. The primary purposes of the notices are to improve small business access to acquisition information and enhance competition by identifying contracting and subcontracting opportunities. The commenter did not express an opinion on whether the estimated number of burden hours is accurate; or ways to minimize the burden of the collection of information.
