BILLING CODE 6560–50–P

FEDERAL ELECTION COMMISSION

Sunshine Act Meeting

TIME AND DATE: Tuesday, January 12, 2021 at 10:00 a.m. and its continuation on January 14, 2021 at 10:00 a.m.

PLACE: 1050 First Street, NE, Washington, DC (This meeting will be a virtual meeting).

STATUS: This meeting will be closed to the public.

MATTERS TO BE CONSIDERED: Compliance matters pursuant to 52 U.S.C. 30109.

Matters concerning participation in civil actions or proceedings or arbitration.

* * * * *

CONTACT PERSON FOR MORE INFORMATION: Judith Ingram, Press Officer, Telephone: (202) 694–1220.

Laura E. Sinram,

Acting Secretary and Clerk of the Commission.

BILLING CODE 6715–01–P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The public portions of the applications listed below, as well as other related filings required by the Board, if any, are available for immediate inspection at the Federal Reserve Bank(s) indicated below and at

the offices of the Board of Governors. This information may also be obtained on an expedited basis, upon request, by contacting the appropriate Federal Reserve Bank and from the Board's Freedom of Information Office at <https://www.federalreserve.gov/foia/request.htm>. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)).

Comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors, Ann E. Misback, Secretary of the Board, 20th Street and Constitution Avenue NW, Washington, DC 20551–0001, not later than February 8, 2021.

A. Federal Reserve Bank of Chicago (Colette A. Fried, Assistant Vice President) 230 South LaSalle Street, Chicago, Illinois 60690–1414:

1. *Marathon MHC and Marathon Bancorp, Inc., both of Wausau, Wisconsin;* to become a mutual bank holding company and a mid-tier stock bank holding company, respectively, by acquiring the voting shares of Marathon Bank, Wausau, Wisconsin, in connection with the conversion of Marathon Bank from mutual to stock form and a minority stock issuance by Marathon Bancorp, Inc.

Board of Governors of the Federal Reserve System, December 18, 2020.

Ann Misback,

Secretary of the Board.

BILLING CODE P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30Day–21–20QO]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled “Pilot Implementation of the Violence Against Children and Youth Survey (VACS) in the United States” to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on July 28, 2020 to obtain comments from the public and affected agencies. CDC did not receive public comments related to

the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395–5806. Provide written comments within 30 days of notice publication.

Proposed Project

Pilot Implementation of the Violence Against Children and Youth Survey (VACS) in the United States—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Violence against children is a global human rights violation that spans every country worldwide and affects a billion children each year. In the US, many youth are the victims of multiple forms

of violence and abuse. An estimated 10 million children in the US have experienced child abuse and neglect. Each day, about a dozen youth are victims of homicide and more than 100 times that number (~1,400) are treated annually in emergency rooms for physical assault injuries.

Youth are also involved in high levels of peer violence, which is one of the leading causes of death for people ages 10–24. A body of research has shown that the impact of violence against children goes far beyond the initial incident, and that those who have experienced emotional, physical, and sexual violence can experience severe short to long-term health and social consequences. Given the serious and lasting impact on children, it is critical to understand the magnitude and nature of violence against children in order to develop effective prevention and response strategies. Currently, data to guide state and local violence prevention and response efforts in the United States are quite limited. While some studies have provided information on the risks and impact on violence against children, they are mostly limited in scale and cannot be generalized to the scope of violence against youth across the US or for specific regions.

VACS is a methodology which CDC has conducted in 24 countries globally to measure the magnitude of physical, sexual, and emotional violence against children as well as associated risk and protective factors. VACS has contributed to research throughout the world, demonstrating the high prevalence of violence against children in a variety of countries and cultures, and have proven to be critical tools that can fill data gaps in ways that are vital to informing strategic planning and evidence-based public health efforts in many countries. However, VACS have not been implemented in the U.S., and the existing representative datasets of violence against youth in the U.S. have significant limitations that prevent the data from being actionable for prevention planning by public health departments at the local level. VACS in the U.S will help fill this gap with rigorous probability-based estimates of the problem of youth violence combined with an internationally tested approach to embed the VACS survey into the local strategic planning process of local public health partners.

The present project will implement a pilot testing for the adapted VACS survey and methodology in two contexts: (1) a representative sample of 13–24 year old youth in Baltimore and

(2) a convenience sample of 13–24 year old youth in rural Garrett County, Maryland to test the VACS in-person methodology in a rural location. Data will be collected through in-person probability-based household surveys, which will be conducted using a combination of interviewer-administration and Audio Computer-Assisted Self-Interview Software on tablets. Data will be analyzed using statistical software to account for the complexity of the survey design to compute weighted counts, percentages, and confidence intervals using probability-based survey data at the local level.

The findings from this pilot study will be used primarily to better understand the feasibility and effectiveness of implementing VACS in the U.S., which will ultimately determine the magnitude of violence against children and underlying risk and protective factors in order to make recommendations to national and international agencies and non-governmental organizations on developing strategies to identify, treat and prevent violence against children. CDC is requesting three years approval from OMB for this collection with a total estimated annualized burden of 800 hours There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (hours)
Head of Household	Invitation letter	3,121	1	2/60
	Screener Questionnaire	2,808	1	3/60
	Head of Household Consent	702	1	2/60
	Head of Household Questionnaire	632	1	15/60
	Youth participant consent/assent	632	1	3/60
Youth ages 13–24 in Baltimore or Garrett County, Maryland.	Core Youth Participant Questionnaire	377	1	1

Jeffrey M. Zirger,

Lead, Information Collection Review Office, Office of Scientific Integrity, Office of Science, Centers for Disease Control and Prevention.
