SUPPLEMENTARY INFORMATION:

Background

On September 25, 2020, U.S. Customs and Border Protection (CBP) published a notice entitled "Modification of Test Program Regarding Electronic Foreign Trade Zone Admission Applications" in the **Federal Register** (85 FR 60479). The test is part of the National Customs Automation Program (NCAP), which was established by Subtitle B of Title VI—Customs Modernization in the North American Free Trade Agreement (NAFTA) Implementation Act (Customs

Modernization Act) (Pub. L. 103-182, 107 Stat. 2057, 2170, December 8, 1993) (19 U.S.C. 1411). The notice announced modifications to the electronic Foreign Trade Zone (FTZ) admission applications test including, *inter alia*, the expansion of the zone identification (ID) number from seven to nine digits. The deployment date in the Automated Commercial Environment (ACE) for the modifications regarding the expanded zone ID number was to have been January 25, 2021.

Subsequent to publishing the September 25, 2020, notice in the **Federal Register**, CBP published the relevant updates in the ACE FTZ chapter of the CBP and Trade Automated Interface Requirements (CATAIR), available at: <https://www.cbp.gov/trade/ace/catair>. CBP has assessed stakeholder readiness and determined that a delayed deployment date in ACE for the modifications regarding the expanded zone ID number is in the best interests of all parties involved. Delaying the deployment date will allow for the required programming modifications on the part of trade participants (specifically by allowing additional time to code and test) and will also provide CBP with more time to coordinate with local zone operators (who will be receiving new zone ID numbers). Accordingly, the deployment date in ACE for the modifications of the electronic FTZ admission application test regarding the expanded zone ID number is April 25, 2021.

Dated: December 31, 2020.

William A. Ferrara,
Executive Assistant Commissioner, Office of Field Operations.
