SUPPLEMENTARY INFORMATION:

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of the ANE program is to support innovative projects that recognize and address the unique educational needs of Alaska Natives. These projects must include the activities authorized under section 6304(a)(2) of the Elementary and Secondary Education Act of 1965, as amended (ESEA), and may include one or more of the activities authorized under section 6304(a)(3) of the ESEA, including, but not limited to, curriculum development, training and professional development, early childhood and parent outreach, and enrichment programs, as well as construction.

Background: The ANE program serves the unique educational needs of Alaska Natives and recognizes the roles of Alaska Native languages and cultures in the educational success and long-term well-being of Alaska Native students. In light of the disparities in remote learning infrastructure exposed by the widespread school closures caused by the novel coronavirus 2019 (COVID–19), the need for students across the country, and low-income students in particular, to have access to high-quality remote learning is particularly acute. Thus, for this competition, the ANE program gives competitive preference to applicants whose proposals address remote learning and target certain subgroups for remote learning. Specifically, the competitive preference priority solicits applications that propose to provide reliable high-speed internet, devices, and software applications to learners who previously did not have access to such technologies. In addition, the competitive preference priority encourages applications that include providing high-quality remote learning for Native American (as defined in this notice) students.

Priorities: This notice contains one absolute priority and one competitive preference priority. In accordance with 34 CFR 75.105(b)(2)(v), the absolute priority is from section 6304(a)(2)(A) and (B) of the ESEA. In accordance with 34 CFR 75.105(b)(2)(ii), the competitive preference priority is from the notice of final administrative priority and definitions for discretionary grants programs published in the Federal Register on December 30, 2020 (85 FR 86545) (NFP).

Absolute Priority: For FY 2021 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

An applicant must address both parts of the absolute priority. An applicant must clearly identify in its application where the absolute priority is addressed. This priority is:

Eligible applicants must design a project that:

1. Develops and implements plans, methods, strategies, and activities to improve the educational outcomes of Alaska Natives; and

2. Collects data to assist in the evaluation of the programs carried out under the ANE program.

Competitive Preference Priority: For FY 2021 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is a competitive preference priority. Under 34 CFR 75.105(c)(2)(i), we award up to an additional 10 points to an...
application, depending on how well the application meets the competitive preference priority. If an applicant chooses to address this competitive preference priority, the applicant must identify in the project narrative section of its application its response to the competitive preference priority.

The competitive preference priority is:

- **Building Capacity for Remote Learning** (up to 10 points)

Under this priority, an applicant must propose a project that is designed to address both of the following priority areas:

(a) Providing access to any of the following, in particular to serve learners without access to such technologies: Reliable, high-speed internet, learning devices, or software applications that meet all students’ and educators’ remote learning needs while inside the school building and in remote learning environments.

(b) Providing high-quality remote learning specifically for Native American (as defined in this notice) students.

The remote learning environment must be accessible to individuals with disabilities in accordance with Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act, as applicable. The remote learning environment must also provide appropriate remote learning language assistance services to English learners.

**Definitions:** The definitions for “Alaska Native” and “Alaska Native organization” are from section 6306 of the ESEA (20 U.S.C. 7546). For purposes of the competitive preference priority, “Native American” has the meaning ascribed to “Alaska Native.” The definitions for “demonstrates a rationale,” “logic model,” “project component,” and “relevant outcome” are from 34 CFR 77.1. The definition for “Native” is from section 3(b) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(b)). In addition, the definitions for “experience operating programs that fulfill the purposes of the ANE program,” “official charter or sanction,” and “predominately governed by Alaska Natives” are from the notice of final definitions and requirements published June 4, 2019, in the Federal Register (84 FR 25682) (NFR). The definition of “remote learning” is from the NFR.

**Demonstrates a rationale** means a key project component included in the project’s logic model is informed by research or evaluation findings that suggest the project component is likely to improve relevant outcomes.

**Experience operating programs that fulfill the purposes of the ANE program** means that, within the past four years, the entity has received and satisfactorily administered, in compliance with applicable terms and conditions, a grant under the ANE program or another Federal or non-Federal program that focused on meeting the unique education needs of Alaska Native children and families in Alaska.

**Logic model** (also referred to as a theory of action) means a framework that identifies key project components of the proposed project (i.e., the active “ingredients” that are hypothesized to be critical to achieving the relevant outcomes) and describes the theoretical and operational relationships among the key project components and relevant outcomes.

**Native** means a citizen of the United States who is a person of one-fourth degree or more Alaska Indian (including Tsimshian Indians not enrolled in the Metlakatla Indian Community) Eskimo, or Aleut blood, or combination thereof. The term includes any Native as so defined either or both of whose adoptive parents are not Natives. It also includes, in the absence of proof of a minimum blood quantum, any citizen of the United States who is regarded as an Alaska Native by the Native village or Native group of which he claims to be a member and whose father or mother is (or, if deceased, was) regarded as Native by any village or group. Any decision of the Secretary of the Interior regarding eligibility for enrollment shall be final.

**Official charter or sanction** means a signed letter or written agreement from an Alaska Native Tribe or ANO that is dated within 120 days prior to the date of the submission of the application and expressly (1) authorizes the applicant to conduct activities authorized under the ANE program and (2) describes the nature of those activities.

**Remote learning** means programming where at least part of the learning occurs away from the physical building in a manner that addresses a learner’s education needs. Remote learning may include online, hybrid/blended learning, or non-technology-based learning (e.g., lab kits, project supplies, paper packets).

Full Text of Announcement

Note: Applicants must meet the deadlines for both EASIE Part I and Part II to be eligible to receive a grant. Failure to submit the required supplemental documentation, described under Content and Form of Application Submission in section IV of this notice, by the EASIE Part I or II deadline will result in an incomplete application that will not be considered for funding. OIE recommends uploading the documentation at least two days prior to each deadline date to ensure that any potential submission issues are resolved prior to the deadlines.

I. Funding Opportunity Description

Purpose of Program: The Office of Indian Education Formula Grants to Local Educational Agencies (Formula Grants) program provides grants to support local educational agencies (LEAs), Indian Tribes and organizations, and other Tribes in developing and implementing elementary and secondary school programs that serve Indian students. These funds must be used to support comprehensive programs that are designed to meet the unique cultural, language, and educational needs of American Indian and Alaska Native (AI/AN) students and ensure that all students meet challenging State academic standards. The information gathered from the project’s final annual performance report (APR) will be utilized to complete OIE’s required annual Government Performance and Results Act (GPRA) report. Specifically, that report covers the Secretary’s established key performance measures for assessing the effectiveness and efficiency of the Formula Grants program as detailed in this notice.

Integration of Services Authorized

As authorized under section 6116 of the Elementary and Secondary Education Act of 1965, as amended (ESEA), the Secretary will, upon receipt of an acceptable plan for the integration of education and related services, and in cooperation with other relevant Federal agencies, authorize the entity receiving the funds under this program to consolidate all Federal funds that are to be used exclusively for Indian students. Instructions for submitting an integration of education and related services plan are included in EASIE, which is described under Application and Submission Information in section IV of this notice.

Note: Under the Formula Grants program, all applicants are required to develop proposed projects in open consultation, including through public hearings held to provide a full opportunity to understand the program and to offer recommendations regarding the program (section 6114(c)(3)(C) of the ESEA), with parents of Indian children and teachers of Indian children, representatives of Indian Tribes on Indian lands located within 50 miles of any school that the LEA will serve if such Tribes have any children in such school, Indian organizations (IOs), and, if appropriate, Indian students from secondary schools. LEA applicants are required to develop proposed projects with the participation and written approval of an Indian Parent Committee whose membership includes parents and family members of Indian children in the LEA’s schools; representatives of Indian Tribes on Indian lands located within 50 miles of any school that the LEA will serve if such Tribes have any children in such school; teachers in the schools; and, if appropriate, Indian students attending secondary schools of the LEA (ESEA section 6114(c)(4)).
