volume higher payments. Specifically, the payment per Qualified ETP (and thus the total payment to an LMM) would generally go up as the CADV moves from left to right because as the average aggregate daily auction volume in LMM Securities increases, the Exchange will generate additional revenue and can thus support increased payments to LMMs. Similarly, the payments per Qualified ETP generally go down as the number of Qualified ETPs goes up in order to ensure that the daily incentive payments do not exceed the Exchange’s revenue for that LMM’s LMM Securities while still providing incentives for LMMs to take on additional ETPs. While the proposed changes would reduce payments to LMMs with higher average aggregate daily auction volume, such payments would still be higher than the proposed increased payments for LMMs with lower average aggregate daily auction volume. As such, the Exchange believes that the proposal is an equitable allocation of payments and is not unfairly discriminatory.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule changes will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe the proposed change burdens competition, but rather, enhances competition as it is intended to increase the competitiveness of BZX both among Members by incentivizing Members to become LMMs in BZX-listed ETPs and as a listing venue by enhancing market quality in BZX-listed ETPs. The marketplace for listings is extremely competitive and there are several other national securities exchanges that offer ETP listings. Transfers between listing venues occur frequently for numerous reasons, including market quality. This proposal is intended to help the Exchange compete as an ETP listing venue. Accordingly, the Exchange does not believe that the proposed change will impair the ability of issuers, LMMs, or competing ETP listing venues to maintain their competitive standing. The Exchange also notes that the proposed change is intended to enhance market quality in BZX-listed ETPs, to the benefit of all investors in BZX-listed ETPs. The Exchange does not believe the proposed amendment would burden intra-market competition as it would be available to all Members uniformly. Registration as an LMM is available equally to all Members and allocation of listed ETPs between LMMs is governed by Exchange Rule 11.8(o)(2). Further, if an LMM does not meet the Minimum Performance Standards for three out of the past four months, the LMM is subject to forfeiture of LMM status for that LMM Security, at the Exchange’s discretion.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may suspend pending rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.
