

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Open Licensing Requirements:* Unless an exception applies, if you are awarded a grant under this competition, you will be required to openly license to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works. Additionally, a grantee or subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

5. *Performance Measures:* For the purposes of the Government

Performance and Results Act of 1993 and Department reporting under 34 CFR 75.110, the following measure will be used by the Department to evaluate the success of the GPA short-term program: The percentage of GPA short-term project participants who disseminated information about or materials from their group project abroad through more than one outreach activity within six months of returning to their home institution. The following measure will be used by the Department to evaluate the success of the GPA long-term program: The percentage of GPA long-term project participants who increased their reading, writing, and/or listening/speaking foreign language scores by one proficiency level. The efficiency of the GPA long-term program will be measured by considering the cost per GPA participant who increased his/her foreign language score in reading, writing, and/or listening/speaking by at least one proficiency level.

The information provided by grantees in their performance reports submitted via the International Resource Information System (IRIS) will be the source of data for this measure. Reporting screens for institutions can be viewed at: http://iris.ed.gov/iris/pdfs/gpa_director.pdf and http://iris.ed.gov/iris/pdfs/gpa_participant.pdf.
