

size standard corresponding to the NAICS code assigned to the contract) through September 26, 2023. On March 31, 2023, Concern B is awarded a WOSB set-aside contract. Subsequently, Concern B's status as an eligible WOSB is protested. On June 28, 2023, Concern B receives a positive determination from SBA confirming that it is an eligible WOSB. Concern B's new certification date is June 28, 2023. Concern B will be considered a certified WOSB that is eligible to receive WOSB contracts (as long as it is small for the size standard corresponding to the NAICS code assigned to the contract) through June 27, 2024. To participate in the WOSB Program the following year, Concern B must recertify its eligibility to SBA between May 29, 2024, and June 27, 2024. Concern B will be considered a certified WOSB that is eligible to receive WOSB contracts (as long as it is small for the size standard corresponding to the NAICS code assigned to the contract) through June 27, 2025. To participate in the WOSB Program the following year, Concern B must recertify its eligibility to SBA between May 29, 2025, and June 27, 2025. Concern B will be considered a certified WOSB that is eligible to receive WOSB contracts (as long as it is small for the size standard corresponding to the NAICS code assigned to the contract) until June 27, 2026. To participate in the WOSB Program the following year, Concern B must recertify its eligibility to SBA between May 29, 2026, and June 27, 2026. Because three years will have elapsed since its certification date of June 28, 2023, Concern B must seek a program examination, by SBA or a third-party certifier, at that time. In addition to its representation that it continues to be an eligible WOSB, Concern B must provide additional information as requested by SBA or a third-party certifier to demonstrate that it continues to meet all the eligibility requirements of the WOSB Program.

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

#### 14 CFR Part 39

[Docket No. FAA-2020-1172; Project Identifier MCAI-2020-01661-T; Amendment 39-21388; AD 2021-02-05]

RIN 2120-AA64

#### Airworthiness Directives; Airbus SAS Airplanes

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule; request for comments.

**SUMMARY:** The FAA is adopting a new airworthiness directive (AD) for all Airbus SAS Model A330-200, -200 Freighter, -300, -800, and -900 series airplanes; Model A340-200 and -300 series airplanes; and Model A340-541 and A340-642 airplanes. This AD was prompted by a report that an erroneous torque value for the attachment nuts to install a pitot probe was included in the affected Aircraft Maintenance Manual (AMM) task. This AD requires re-torquing the attachment nuts of each affected part. In addition, this AD prohibits the use of the affected AMM task, as specified in a European Union Aviation Safety Agency (EASA) AD, which is incorporated by reference. The FAA is issuing this AD to address the unsafe condition on these products.

**DATES:** This AD becomes effective January 29, 2021.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of January 29, 2021.

The FAA must receive comments on this AD by March 1, 2021.

**ADDRESSES:** You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to <https://www.regulations.gov>. Follow the instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590.
- *Hand Delivery:* Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

For material incorporated by reference (IBR) in this AD, contact the EASA, Konrad-Adenauer-Ufer 3, 50668 Cologne, Germany; telephone +49 221 8999 000; email [ADs@easa.europa.eu](mailto:ADs@easa.europa.eu);

internet [www.easa.europa.eu](http://www.easa.europa.eu). You may find this IBR material on the EASA website at <https://ad.easa.europa.eu>. You may view this IBR material at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206-231-3195. It is also available in the AD docket on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2020-1172.

#### Examining the AD Docket

You may examine the AD docket on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2020-1172; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this AD, any comments received, and other information. The street address for Docket Operations is listed above. Comments will be available in the AD docket shortly after receipt.

**FOR FURTHER INFORMATION CONTACT:** Vladimir Ulyanov, Aerospace Engineer, Large Aircraft Section, International Validation Branch, FAA, 2200 South 216th St., Des Moines, WA 98198; telephone and fax 206-231-3229; email [vladimir.ulyanov@faa.gov](mailto:vladimir.ulyanov@faa.gov).

#### SUPPLEMENTARY INFORMATION:

##### Discussion

The EASA, which is the Technical Agent for the Member States of the European Union, has issued EASA AD 2020-0279, dated December 14, 2020 (EASA AD 2020-0279) (also referred to as the Mandatory Continuing Airworthiness Information, or the MCAI), to correct an unsafe condition for all Model A330-201, A330-202, A330-203, A330-223, A330-223F, A330-243, A330-243F, A330-301, A330-302, A330-303, A330-321, A330-322, A330-323, A330-341, A330-342, A330-343, A330-743L, A330-841, A330-941, A340-211, A340-212, A340-213, A340-311, A340-312, A340-313, A340-541, A340-542, A340-642, and A340-643 airplanes. Model A330-743L, A340-542, and A340-643 airplanes are not certificated by the FAA and are not included on the U.S. type certificate data sheet; this AD therefore does not include those airplanes in the applicability.

This AD was prompted by a report that an erroneous torque value for the attachment nuts to install a pitot probe was included in the affected AMM task. The FAA is issuing this AD to address

the erroneous torque value. If not addressed it could lead to erroneous total pressure measurement being relayed to navigation systems, possibly resulting in reduced control of the airplane. See the MCAI for additional background information.

**Related Service Information Under 1 CFR Part 51**

EASA AD 2020–0279 describes procedures for re-torquing the attachment nuts of each affected part and prohibits the use of the affected AMM task. This material is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the **ADDRESSES** section.

**FAA’s Determination**

This product has been approved by the aviation authority of another country, and is approved for operation in the United States. Pursuant to the FAA’s bilateral agreement with the State of Design Authority, the FAA has been notified of the unsafe condition described in the MCAI referenced above. The FAA is issuing this AD because the FAA evaluated all pertinent information and determined the unsafe condition exists and is likely to exist or develop on other products of the same type design.

**Requirements of This AD**

This AD requires accomplishing the actions specified in EASA AD 2020–0279 described previously, as incorporated by reference, except for any differences identified as exceptions in the regulatory text of this AD.

**Explanation of Required Compliance Information**

In the FAA’s ongoing efforts to improve the efficiency of the AD process, the FAA initially worked with Airbus and EASA to develop a process to use certain EASA ADs as the primary source of information for compliance with requirements for corresponding FAA ADs. The FAA has since coordinated with other manufacturers and civil aviation authorities (CAAs) to use this process. As a result, EASA AD 2020–0279 is incorporated by reference in this final rule. This AD, therefore, requires compliance with EASA AD 2020–0279 in its entirety, through that incorporation, except for any differences

identified as exceptions in the regulatory text of this AD. Using common terms that are the same as the heading of a particular section in the EASA AD does not mean that operators need comply only with that section. For example, where the AD requirement refers to “all required actions and compliance times,” compliance with this AD requirement is not limited to the section titled “Required Action(s) and Compliance Time(s)” in the EASA AD. Service information specified in EASA AD 2020–0279 that is required for compliance with EASA AD 2020–0279 is available on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA–2020–1172.

**FAA’s Justification and Determination of the Effective Date**

An unsafe condition exists that requires the immediate adoption of this AD without providing an opportunity for public comments prior to adoption. The FAA has found that the risk to the flying public justifies waiving notice and comment prior to adoption of this rule because an erroneous torque value for the attachment nuts to install a pitot probe could lead to erroneous total pressure measurement being relayed to navigation systems, possibly resulting in reduced control of the airplane. In addition, the compliance time for the required action is shorter than the time necessary for the public to comment and for publication of the final rule. Therefore, the FAA finds good cause that notice and opportunity for prior public comment are impracticable. In addition, for the reasons stated above, the FAA finds that good cause exists for making this amendment effective in less than 30 days.

**Comments Invited**

The FAA invites you to send any written relevant data, views, or arguments about this AD. Send your comments to an address listed under **ADDRESSES**. Include “Docket No. FAA–2020–1172; Project Identifier MCAI–2020–01661–T” at the beginning of your comments. The most helpful comments reference a specific portion of the final rule, explain the reason for any recommended change, and include supporting data. The FAA will consider all comments received by the closing

date and may amend this final rule because of those comments.

Except for Confidential Business Information (CBI) as described in the following paragraph, and other information as described in 14 CFR 11.35, the FAA will post all comments received, without change, to <https://www.regulations.gov>, including any personal information you provide. The agency will also post a report summarizing each substantive verbal contact received about this final rule.

**Confidential Business Information**

CBI is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this AD contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this AD, it is important that you clearly designate the submitted comments as CBI. Please mark each page of your submission containing CBI as “PROPIN.” The FAA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this AD. Submissions containing CBI should be sent to Vladimir Ulyanov, Aerospace Engineer, Large Aircraft Section, International Validation Branch, FAA, 2200 South 216th St., Des Moines, WA 98198; telephone and fax 206–231–3229; email [vladimir.ulyanov@faa.gov](mailto:vladimir.ulyanov@faa.gov). Any commentary that the FAA receives which is not specifically designated as CBI will be placed in the public docket for this rulemaking.

**Regulatory Flexibility Act (RFA)**

The requirements of the RFA do not apply when an agency finds good cause pursuant to 5 U.S.C. 553 to adopt a rule without prior notice and comment. Because the FAA has determined that it has good cause to adopt this rule without notice and comment, RFA analysis is not required.

**Costs of Compliance**

The FAA estimates that this AD affects 112 airplanes of U.S. registry. The FAA estimates the following costs to comply with this AD:

**ESTIMATED COSTS FOR REQUIRED ACTIONS**

Labor cost	Parts cost	Cost per product	Cost on U.S. operators
1 work-hour × \$85 per hour = \$85 .....	\$0	\$85	\$9,520

### Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency's authority.

The FAA is issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: General requirements. Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

### Regulatory Findings

The FAA determined that this AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

- (1) Is not a "significant regulatory action" under Executive Order 12866, and
- (2) Will not affect intrastate aviation in Alaska.

### List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

### Adoption of the Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

### PART 39—AIRWORTHINESS DIRECTIVES

- 1. The authority citation for part 39 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40113, 44701.

#### § 39.13 [Amended]

- 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

**2021-02-05 Airbus SAS:** Amendment 39-21388; Docket No. FAA-2020-1172; Project Identifier MCAI-2020-01661-T.

#### (a) Effective Date

This airworthiness directive (AD) becomes effective January 29, 2021.

#### (b) Affected ADs

None.

#### (c) Applicability

This AD applies to all Airbus SAS airplanes, certificated in any category, identified in paragraphs (c)(1) through (9) of this AD.

- (1) Model A330-201, A330-202, A330-203, A330-223, and A330-243 airplanes.
- (2) Model A330-223F and A330-243F airplanes.
- (3) Model A330-301, A330-302, A330-303, A330-321, A330-322, A330-323, A330-341, A330-342, and A330-343 airplanes.
- (4) Model A330-841 airplanes.
- (5) Model A330-941 airplanes.
- (6) Model A340-211, A340-212, and A340-213 airplanes.
- (7) Model A340-311, A340-312, and A340-313 airplanes.
- (8) Model A340-541 airplanes.
- (9) Model A340-642 airplanes.

#### (d) Subject

Air Transport Association (ATA) of America Code 34, Navigation.

#### (e) Reason

This AD was prompted by a report that an erroneous torque value for the attachment nuts to install a pitot probe was included in the affected Aircraft Maintenance Manual (AMM) task. The FAA is issuing this AD to address the erroneous torque value. If not addressed it could lead to erroneous total pressure measurement being relayed to navigation systems, possibly resulting in reduced control of the airplane.

#### (f) Compliance

Comply with this AD within the compliance times specified, unless already done.

#### (g) Requirements

Except as specified in paragraph (h) of this AD: Comply with all required actions and compliance times specified in, and in accordance with, European Union Aviation Safety Agency (EASA) AD 2020-0279, dated December 14, 2020 (EASA AD 2020-0279).

#### (h) Exceptions to EASA AD 2020-0279

- (1) Where EASA AD 2020-0279 refers to its effective date, this AD requires using the effective date of this AD.
- (2) The "Remarks" section of EASA AD 2020-0279 does not apply to this AD.

#### (i) No Reporting Requirement

Although the service information referenced in EASA AD 2020-0279 specifies to submit certain information to the manufacturer, this AD does not include that requirement.

#### (j) Other FAA AD Provisions

The following provisions also apply to this AD:

- (1) *Alternative Methods of Compliance (AMOCs):* The Manager, Large Aircraft Section, International Validation Branch,

FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the Large Aircraft Section, International Validation Branch, send it to the attention of the person identified in paragraph (k) of this AD. Information may be emailed to: [9-AVS-AIR-730-AMOC@faa.gov](mailto:9-AVS-AIR-730-AMOC@faa.gov). Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

(2) *Contacting the Manufacturer:* For any requirement in this AD to obtain instructions from a manufacturer, the instructions must be accomplished using a method approved by the Manager, Large Aircraft Section, International Validation Branch, FAA; or EASA; or Airbus SAS's EASA Design Organization Approval (DOA). If approved by the DOA, the approval must include the DOA-authorized signature.

(3) *Required for Compliance (RC):* Except as required by paragraph (j)(2) of this AD, if any service information referenced in EASA AD 2020-0279 that contains paragraphs that are labeled as RC, the instructions in RC paragraphs, including subparagraphs under an RC paragraph, must be done to comply with this AD; any paragraphs, including subparagraphs under those paragraphs, that are not identified as RC are recommended. The instructions in paragraphs, including subparagraphs under those paragraphs, not identified as RC may be deviated from using accepted methods in accordance with the operator's maintenance or inspection program without obtaining approval of an AMOC, provided the instructions identified as RC can be done and the airplane can be put back in an airworthy condition. Any substitutions or changes to instructions identified as RC require approval of an AMOC.

#### (k) Related Information

For more information about this AD, contact Vladimir Ulyanov, Aerospace Engineer, Large Aircraft Section, International Validation Branch, FAA, 2200 South 216th St., Des Moines, WA 98198; telephone and fax 206-231-3229; email [vladimir.ulyanov@faa.gov](mailto:vladimir.ulyanov@faa.gov).

#### (l) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless this AD specifies otherwise.

(i) European Union Aviation Safety Agency (EASA) AD 2020-0279, dated December 14, 2020.

(ii) [Reserved]

(3) For EASA AD 2020-0279, contact the EASA, Konrad-Adenauer-Ufer 3, 50668 Cologne, Germany; telephone +49 221 8999 000; email [ADs@easa.europa.eu](mailto:ADs@easa.europa.eu); internet [www.easa.europa.eu](http://www.easa.europa.eu). You may find this

EASA AD on the EASA website at <https://ad.easa.europa.eu>.

(4) You may view this material at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206-231-3195. This material may be found in the AD docket on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2020-1172.

(5) You may view this material that is incorporated by reference at the National Archives and Records Administration (NARA). ### Department of Labor Federal Civil Penalties Inflation Adjustment Act Annual Adjustments for 2021

**AGENCY:** Employment and Training Administration, Office of Workers' Compensation Programs, Office of the Secretary, Wage and Hour Division, Occupational Safety and Health Administration, and Mine Safety and Health Administration, Department of Labor.

**ACTION:** Final rule.

**SUMMARY:** The U.S. Department of Labor (Department) is publishing this final

rule to adjust for inflation the civil monetary penalties assessed or enforced by the Department, pursuant to the Federal Civil Penalties Inflation Adjustment Act of 1990 as amended by the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (Inflation Adjustment Act). The Inflation Adjustment Act requires the Department to annually adjust its civil money penalty levels for inflation no later than January 15 of each year. The Inflation Adjustment Act provides that agencies shall adjust civil monetary penalties notwithstanding Section 553 of the Administrative Procedure Act (APA). Additionally, the Inflation Adjustment Act provides a cost-of-living formula for adjustment of the civil penalties. Accordingly, this final rule sets forth the Department's 2021 annual adjustments for inflation to its civil monetary penalties.

**DATES:** This final rule is effective on January 15, 2021. As provided by the Inflation Adjustment Act, the increased penalty levels apply to any penalties assessed after January 15, 2021.

**FOR FURTHER INFORMATION CONTACT:** Erin FitzGerald, Senior Policy Advisor, U.S. Department of Labor, Room S-2312, 200 Constitution Avenue NW, Washington, DC 20210; telephone: (202) 693-5076 (this is not a toll-free number). Copies of this final rule may be obtained in alternative formats (large print, Braille, audio tape or disc), upon request, by calling (202) 693-5959 (this is not a toll-free number). TTY/TDD callers may dial toll-free 1-877-889-5627 to obtain information or request materials in alternative formats.

- H. Executive Order 12630: Constitutionally Protected Property Rights
- I. Executive Order 12988: Civil Justice Reform Analysis

## I. Background

On November 2, 2015, Congress enacted the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015, Public Law 114-74, sec. 701 (Inflation Adjustment Act), which further amended the Federal Civil Penalties Inflation Adjustment Act of 1990 as previously amended by the 1996 Debt Collection Improvement Act (collectively, the "Prior Inflation Adjustment Act"), to improve the effectiveness of civil monetary penalties and to maintain their deterrent effect. The Inflation Adjustment Act required agencies to (1) adjust the level of civil monetary penalties with an initial "catch-up" adjustment through an interim final rule (IFR); and (2) make subsequent annual adjustments for inflation no later than January 15 of each year.

On July 1, 2016, the Department published an IFR that established the initial catch-up adjustment for most civil penalties that the Department administers and requested comments. See 81 FR 43430 (DOL IFR). On January 18, 2017, the Department published the final rule establishing the 2017 Annual Adjustment for those civil monetary penalties adjusted in the DOL IFR. See 82 FR 5373 (DOL 2017 Annual Adjustment). On July 1, 2016, the U.S. Department of Homeland Security (DHS) and the U.S. Department of Labor (DOL) (collectively, "the Departments") jointly published an IFR that established the initial catch-up adjustment for civil monetary penalties assessed or enforced in connection with the employment of temporary nonimmigrant workers under the H-2B program. See 81 FR 42983 (Joint IFR). On March 17, 2017, the Departments jointly published the final rule establishing the 2017 Annual Adjustment for the H-2B civil monetary penalties. See 82 FR 14147 (Joint 2017 Annual Adjustment). The Joint 2017 Annual Adjustment also explained that DOL would make future adjustments to the H-2B civil monetary penalties consistent with DOL's delegated authority under 8 U.S.C. 1184(c)(14), Immigration and Nationality Act section 214(c)(14), and the Inflation Adjustment Act. See 82 FR 14147-48. On January 2, 2018, the Department published the final rule establishing the 2018 Annual Adjustment for civil monetary penalties assessed or enforced by the Department, including H-2B civil monetary
