

standardized post-event survey tool that will be offered to recipients of Natural Hazards Center Quick Response Grants. The information will be used as part of a pilot study to explore methods for more systematically collecting post-event data in support of program evaluation for NOAA's tornado watch/warning system.

## II. Method of Collection

A primary method of data collection intends to gather tornado survivor stories through a web-based interface. Currently a web-based App is under development at NSSL. The aim is for this to be similar to the United States Geological Survey (USGS) 'Did You Feel It' (DYFI) pages used for reporting earthquakes and feeding in to a realistic Modified Mercalli Intensity (MMI) scale report. Specific questions in the web-based App are aimed at discovering whether tornado watches and warnings were received, and if they were, how they were received as well as what action citizens did or did not take. This will help to define value action gaps more completely. Additionally the web-based App allows citizens to be involved as part of the overall scientific endeavor, helping scientists and researchers understand what helps increase survivability to tornadoes as well as what undermines it.

## III. Data

OMB Control Number: 0648-XXXX.  
Form Number(s): [None].

Type of Review: New information collection.

Affected Public: Individuals or households.

Estimated Number of Respondents: 1000.

Estimated Time per Response: 5 minutes.

Estimated Total Annual Burden Hours: 83 hours.

Estimated Total Annual Cost to Public: None.

Respondent's Obligation: Voluntary.

Legal Authority:

## IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the

reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[RTID 0648-XA808]

### Mid-Atlantic Fishery Management Council (MAFMC); Public Meetings

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public meetings.

**SUMMARY:** The Mid-Atlantic Fishery Management Council (Council) will hold public meetings of the Council.

**DATES:** The meetings will be held Wednesday, February 10, 2021, from 9 a.m. to 4:30 p.m., and Thursday, February 11, 2021, from 9 a.m. to 1 p.m. For agenda details, see **SUPPLEMENTARY INFORMATION**.

**ADDRESSES:** This meeting will be conducted entirely by webinar. Webinar registration details will be available on the Council's website at <https://www.mafmc.org/briefing/february-2021>.

**Council address:** Mid-Atlantic Fishery Management Council, 800 N. State St, Suite 201, Dover, DE 19901; telephone: (302) 674-2331.

**FOR FURTHER INFORMATION CONTACT:**

Christopher M. Moore, Ph.D. Executive Director, Mid-Atlantic Fishery Management Council; telephone: (302) 526-5255. The Council's website, [www.mafmc.org](http://www.mafmc.org) also has details on the

meeting location, proposed agenda, webinar listen-in access, and briefing materials.

**SUPPLEMENTARY INFORMATION:** The following items are on the agenda, though agenda items may be addressed out of order (changes will be noted on the Council's website when possible.)

### Wednesday, February 10, 2021

#### North Atlantic Right Whale Issues

NMFS presentation on Atlantic Large Whale Take Reduction Plan Draft Environmental Impact Statement and proposed rule and Draft Batched Biological Opinion.

#### Aquaculture Updates

NMFS presentations on Aquaculture Opportunity Areas and EEZ Regional Aquaculture Projects.

#### Staff River Herring and Shad White Papers

Review staff white papers on river herring and shad issues.

#### Bluefish Allocation and Rebuilding Amendment

Review and approve joint Public Hearing Document for the Bluefish Allocation and Rebuilding Amendment and (Board only) approve draft Commission amendment document for public comment.

### Thursday, February 11, 2021

#### Offshore Wind Update

Receive staff update on relevant offshore wind activities.

#### Business Session

Committee Reports; Executive Director's Report (review and approve SOPP updates); Organization Reports; and Liaison Reports.

#### Continuing and New Business

Although non-emergency issues not contained in this agenda may come before this group for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during these meetings. Actions will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c).

### Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to Dr. Christopher

Moore (see **ADDRESSES**), at least 5 days prior to the meeting date.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: January 12, 2021.

**Rey Israel Marquez,**

*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

### National Oceanic and Atmospheric Administration

[RTID 0648-XA709]

#### Whaling Provisions; Aboriginal Subsistence Whaling Quotas

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; notification of quota for bowhead whales.

**SUMMARY:** NMFS notifies the public of the aboriginal subsistence whaling quota for bowhead whales that it has assigned to the Alaska Eskimo Whaling Commission (AEWC), and of limitations on the use of the quota deriving from regulations of the International Whaling Commission (IWC). For 2021, the quota is 93 bowhead whales struck. This quota and other applicable limitations govern the harvest of bowhead whales by members of the AEWC.

**DATES:** Applicable January 15, 2021.

**ADDRESSES:** Office of International Affairs and Seafood Inspection, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910.

**FOR FURTHER INFORMATION CONTACT:** Mi Ae Kim, (301) 427-8365.

**SUPPLEMENTARY INFORMATION:** Aboriginal subsistence whaling in the United States is governed by the Whaling Convention Act (WCA) (16 U.S.C. 916 *et seq.*). Under the WCA, IWC regulations shall generally become effective with respect to all persons and vessels subject to the jurisdiction of the United States, within 90 days of notification from the IWC Secretariat of an amendment to the IWC Schedule (16 U.S.C. 916k). Regulations that implement the WCA, found at 50 CFR 230.6, require the Secretary of Commerce (Secretary) to publish, at least annually, aboriginal subsistence whaling quotas and any other limitations on aboriginal subsistence whaling deriving from regulations of the IWC.

At the 67th Meeting of the IWC, the Commission set catch limits for

aboriginal subsistence use of bowhead whales from the Bering-Chukchi-Beaufort Seas stock. The bowhead and other aboriginal subsistence whaling catch limits were based on a joint request by Denmark on behalf of Greenland, the Russian Federation, St. Vincent and the Grenadines, and the United States, accompanied by documentation concerning the needs of the Native groups.

The IWC set a seven-year block catch limit of 392 bowhead whales landed. For each of the years 2019 through 2025, the number of bowhead whales struck may not exceed 67, with unused strikes from the three prior quota blocks carried forward and added to the annual strike quota of subsequent years, provided that no more than 50 percent of the annual strike limit is added to the strike quota for any one year. At the end of the 2020 harvest, there were 33 unused strikes available for carry-forward, so the combined strike quota set by the IWC for 2021 is 100 (67 + 33).

An arrangement between the United States and the Russian Federation ensures that the total quota of bowhead whales landed and struck in 2021 will not exceed the limits set by the IWC. Under this arrangement, the Russian natives may use no more than seven strikes, and the Alaska natives may use no more than 93 strikes.

Through its cooperative agreement with the AEWC, NOAA has assigned 93 strikes to the Alaska Eskimo Whaling Commission. The AEWC will in turn allocate these strikes among the 11 villages whose cultural and subsistence needs have been documented, and will ensure that its hunters use no more than 93 strikes.

At its 67th Meeting, the IWC also provided for automatic renewal of aboriginal subsistence whaling catch limits under certain circumstances. Commencing in 2026, bowhead whale catch limits shall be extended every six years provided: (a) The IWC Scientific Committee advises in 2024, and every six years thereafter, that such limits will not harm the stock; (b) the Commission does not receive a request from the United States or the Russian Federation for a change in the bowhead whale catch limits based on need; and (c) the Commission determines that the United States and the Russian Federation have complied with the IWC's approved timeline and that the information provided represents a status quo continuation of the hunts.

#### Other Limitations

The IWC regulations, as well as the NOAA regulation at 50 CFR 230.4(c),

forbid the taking of calves or any whale accompanied by a calf.

NOAA regulations (at 50 CFR 230.4) contain a number of other prohibitions relating to aboriginal subsistence whaling, some of which are summarized here:

- Only licensed whaling captains or crew under the control of those captains may engage in whaling.
- Captains and crew must follow the provisions of the relevant cooperative agreement between NOAA and a Native American whaling organization.
- The aboriginal hunters must have adequate crew, supplies, and equipment to engage in an efficient operation.
- Crew may not receive money for participating in the hunt.
- No person may sell or offer for sale whale products from whales taken in the hunt, except for authentic articles of Native American handicrafts.
- Captains may not continue to whale after the relevant quota is taken, after the season has been closed, or if their licenses have been suspended. They may not engage in whaling in a wasteful manner.

Dated: January 12, 2021.

#### Endangered and Threatened Species; Initiation of a 5-Year Review for the Arctic, Okhotsk, Baltic, and Ladoga Subspecies of the Ringed Seal; Extension of Information Request Period

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

**ACTION:** Notice; extension of information request period.

**SUMMARY:** NMFS hereby extends the information request period on the notice of initiation of a 5-year review of the Arctic (*Pusa hispida hispida*), Okhotsk (*Pusa hispida ochotensis*), Baltic (*Pusa hispida botnica*), and Ladoga (*Pusa hispida ladogensis*) subspecies of the ringed seal under the Endangered Species Act (ESA).

**DATES:** Information must be received by March 26, 2021.
