Patent and Trademark Office

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Representative and Address Provisions

AGENCY: United States Patent and Trademark Office, Department of Commerce.

ACTION: Notice of information collection; request for comment.

SUMMARY: The United States Patent and Trademark Office (USPTO), as required by the Paperwork Reduction Act of 1995, invites comments on the extension and revision of an existing information collection: 0651–0035 (Representative and Address Provisions). The purpose of this notice is to allow 60 days for public comment preceding submission of the information collection to OMB.

DATES: To ensure consideration, comments regarding this information collection must be received on or before March 16, 2021.

ADDRESSES: Interested persons are invited to submit written comments by any of the following methods. Do not submit Confidential Business Information or otherwise sensitive or protected information:

• Email: InformationCollection@uspto.gov. Include “0651–0035 comment” in the subject line of the message.
• Mail: Kimberly Hardy, Office of the Chief Administrative Officer, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450.

FOR FURTHER INFORMATION CONTACT:
Requests for additional information should be directed to Parikha Mehta, Legal Advisor, Office of Patent Legal Administration, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450; by telephone at 571–272–7728; or by email to Parikha.Mehta@uspto.gov. Additional information about this information collection is also available at http://www.reginfo.gov under “Information Collection Review.”

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection includes the information necessary to submit a request to grant or revoke power of attorney for an application, patent, or reexamination proceeding, and for a registered practitioner to withdraw as attorney or agent of record. This also includes the information necessary to change the correspondence address for an application, patent, or reexamination proceeding, to request a Customer Number and manage the correspondence address and list of practitioners associated with a Customer Number, and to designate or change the correspondence address or fee address for one or more patents or applications by using a Customer Number. Under 35 U.S.C. 2 and 37 CFR 1.31–1.32, power of attorney may be granted to one or more joint inventors or a person who is registered to practice before the USPTO to act in an application or a patent. In particular, for an application filed before September 16, 2012, or for a patent which issued from an application filed before September 16, 2012, power of attorney may be granted by the applicant for patent (as set forth in 37 CFR 1.41(b) (pre-AIA)) or the assignee of the entire interest of the applicant. For an application filed on or after September 16, 2012, or for a patent which issued from an application filed on or after September 16, 2012, power of attorney may be granted by the applicant for patent (as set forth in 37 CFR 1.42) or the patent owner. The USPTO provides two different versions of the forms for establishing power of attorney based upon whether the application filing date is before or after September 16, 2012, to thereby reduce applicants’ burden in having to determine the appropriate power of attorney requirements for a given application. 37 CFR 1.36 provides for the revocation of a power of attorney at any stage in the proceedings of a case. 37 CFR 1.36 also provides a path by which a registered patent attorney or patent agent who has been given a power of attorney may withdraw as attorney or agent of record.

The USPTO’s Customer Number practice permits applicants, patent owners, assignees, and practitioners of record, or the representatives of record for a number of applications or patents, to change the correspondence address of a patent application or patent with one change request instead of filing separate requests for each patent or application. Any changes to the address or practitioner information associated with a Customer Number will be applied to all patents and applications associated with said Customer Number. The Customer Number practice is optional, in that changes of correspondence address or power of attorney may be filed separately for each patent or application without using a Customer Number. However, a Customer Number associated with the correspondence address for a patent application is required in order to access private information about the application using the Patent Application Information Retrieval (PAIR) system, which is available through the USPTO website. The use of a Customer Number is also required in order to grant power of attorney to more than ten practitioners or to establish a separate “fee address” for maintenance fee purposes that is different from the correspondence address for a patent or application.

II. Method of Collection

Items in this information collection may be submitted by mail, facsimile, hand delivery, or online electronic submissions.

USPTO estimates the total mailing costs for this information collection at $14,868.

**Filing Fees**

The two petitions in this information collection have associated filing fees under 37 CFR 1.17(f), resulting in a total of $8,000 in filing fees.

**Postage Costs**

Although the USPTO prefers that the items in this information collection be submitted electronically, responses may be submitted by mail through the United States Postal Service (USPS). The USPTO estimates that 1% of the 184,745 items will be submitted in the mail resulting in 1,847 mailed items. The USPTO estimates that the average postage cost for a mailed submission, using a Priority Mail 2-day flat rate legal envelope, will be $8.05. Therefore, the USPTO estimates the total mailing costs for this information collection at $8,000.

**Respondent’s Obligation:** Required to obtain or retain benefits.

**IV. Request for Comments**

The USPTO is soliciting public comments to:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected; and

(d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
All comments submitted in response to this notice are a matter of public record. USPTO will include or summarize each comment in the request to OMB to approve this information collection. Before including an address, phone number, email address, or other personal identifying information in a comment, be aware that the entire comment—including personal identifying information—may be made publicly available at any time. While you may ask in your comment to withhold personal identifying information from public view, USPTO cannot guarantee that it will be able to do so.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Medal of Technology and Innovation is the highest honor for technological achievement bestowed by the president of the United States on America’s leading innovators. Established by an Act of Congress in 1980, the Medal of Technology was first awarded in 1985. The Medal is awarded annually to individuals, teams (of up to four individuals), companies, or divisions of companies. The Medal recognizes outstanding contributions to the Nation’s economic, environmental, and social well-being through the development and commercialization of technology products, processes and concepts, technological innovation, and development of the Nation’s technological workforce. By highlighting the national importance of technological innovation, the Medal also seeks to inspire future generations of Americans to prepare for and pursue technical careers to keep America at the forefront of global technology and economic leadership.

The National Medal of Technology and Innovation Nomination Evaluation Committee, a distinguished independent committee appointed by the Secretary of Commerce, reviews and evaluates the merit of all candidates nominated through an open, competitive solicitation process. The committee makes its recommendations for Medal candidates to the Secretary of Commerce who, in turn, makes recommendations to the President for final selection. The National Medal of Technology and Innovation Laureates are announced by the White House once the Medalists are notified of their selection.

This information collection covers data gathered in the National Medal of Technology and Innovation Nomination Application, which the public uses to nominate an individual’s, team’s, or company’s extraordinary leadership and innovation in technological achievement and outstanding contribution to strengthening the nation’s technological workforce. The application collects general and biographical information about the nominee, general information about the nominator, and a discussion of the nominee’s contribution/achievements, and must be accompanied by up to six letters of recommendation or support from individuals who have first-hand knowledge of the cited achievement(s).

II. Method of Collection

The items in this information collection can be submitted electronically through the USPTO website via the online portal on www.uspto.gov/nmti.
