Because no party requested a review of the China-wide entity, and Commerce no longer considers the China-wide entity as an exporter conditionally subject to administrative reviews, we did not conduct a review of the China-wide entity. The rate previously established for the China-wide entity is 236.60 percent and is not subject to change as a result of this review.

Assessment Rates
We have not calculated any assessment rates in this administrative review. Based on record evidence, we have determined that Fednat had no shipments of subject merchandise, and therefore, pursuant to Commerce’s assessment practice, any suspended entries that entered under its case number will be liquidated at the China-wide entity rate.

For all remaining companies subject to this review, which are part of the China-wide entity, we will instruct CBP to liquidate their entries at the current rate for the China-wide entity (i.e., 236.60 percent). Commerce intends to issue appropriate assessment instructions to CBP 15 days after the publication date of the final results of this administrative review.

Cash Deposit Requirements
The following cash deposit requirements will be effective upon publication of the final results of this administrative review for shipments of subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice, as provided by section 751(a)(2)(C) of the Tariff Act of 1930, as amended (the Act): (1) For previously investigated or reviewed Chinese and non-Chinese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers
This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.420(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Orders
This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation subject to sanction.

Notification to Interested Parties
These final results are issued and published in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.213(h).

Dated: January 12, 2021.

**Disclosure**

We intend to disclose the calculations performed for these final results to interested parties in this proceeding within five days of the date of publication of this notice in the Federal Register, in accordance with 19 CFR 351.224(b).

**Assessment**

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b), Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, AD duties on all appropriate entries of subject merchandise in accordance with the final results of this review.

For Shin Yang, because its weighted-average dumping margin is not zero or de minimis (i.e., less than 0.5 percent), Commerce has calculated importer-specific (or customer-specific) antidumping duty assessment rates for merchandise similar to this review. We calculated importer-specific antidumping duty assessment rates by aggregating the total amount of dumping calculated for the examined sales of Shin Yang Steel Co., Ltd. 1.71

**Changes Since the Preliminary Results**

Based on our analysis of comments received from parties, and for the reasons explained in the Issues and Decision Memorandum, Commerce made certain changes to the Preliminary Results. Specifically, we revised our treatment of Shin Yang’s purchases of hot-rolled coil from its affiliate.5 In addition, we used the updated U.S. sales database provided by Shin Yang on March 3, 2020.6 However, these revisions did not result in a change to the weighted-average dumping margin calculated for Shin Yang in these final results of review.

**Final Results of the Review**

Commerce determines that the following weighted-average dumping margin exists for Shin Yang for the POR from May 1, 2018 through April 30, 2019:
