**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

This request is for extension of a currently approved information collection.

The success of fisheries management programs depends significantly on regulatory compliance. The vessel identification requirement is essential to facilitate enforcement. The ability to link fishing (or other activity) to the vessel owner or operator is crucial to enforcement of regulations issued under the authority of the Magnuson-Stevens Fishery Conservation and Management Act. A vessel's official number is required to be displayed on the port and starboard sides of the deckhouse or hull, and on a weather deck. It identifies each vessel and should be visible at distances at sea and in the air. Law enforcement personnel rely on vessel marking information to assure compliance with fisheries management regulations. Vessels that qualify for particular fisheries are also readily identified, and this allows for more cost-effective enforcement. Cooperating fishermen also use the vessel numbers to report suspicious or non-compliant activities that they observe in unauthorized areas. The identifying number on fishing vessels is used by the National Marine Fisheries Service (NMFS), the United States Coast Guard (USCG), and other marine agencies in issuing regulations, prosecutions, and other enforcement actions necessary to support sustainable fisheries behaviors as intended in regulations. Regulation-compliant fishermen ultimately benefit from these requirements, as unauthorized and illegal fishing is deterred, and more burdensome regulations are avoided.

**II. Method of Collection**

Fishing vessel owners physically mark vessels with identification numbers in three locations per vessel.

**SUPPLEMENTARY INFORMATION:** At the request of Senators Thom Tillis and Patrick Leahy, the USPTO is undertaking a study of the extent to which patent or trademark rights holders are experiencing infringement by state entities without adequate remedies under state law, and the extent to which such infringements appear to be based on intentional or reckless conduct.

On November 5, 2020, the USPTO published a notice in the **Federal Register** seeking public input on these matters. See 85 FR 70589 (Nov. 5, 2020). That notice set forth various questions relevant to the study. The USPTO appreciates the submissions received to date in response to that notice and will consider them in preparing the study. In addition, the USPTO now invites interested members of the public to respond to questions posed in that notice, and/or to the below questions. The public can also provide any other information it believes to be relevant.

1. If you are a patent or trademark right holder, has a state government or state entity ever used your patent or trademark without permission? If yes: (a) Did you pursue legal action for that use? Why or why not? (b) Were you able to seek relief under state law? (c) Did the availability of the defense of sovereign immunity deter you from litigating the matter in federal court?

2. As a state or state entity, do you believe that (a) your state or state entity has policies or practices that provide safeguards against the intentional or reckless infringement of patents and trademarks, and (b) relevant state laws

provide adequate remedies if infringement occurs?
