

(PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before March 26, 2021.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648-0352 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Keeley Kent, (206) 247-8252 or keeley.kent@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

The success of fisheries management programs depends significantly on regulatory compliance. The requirements that fishing gear be marked are essential to facilitate enforcement. The ability to link fishing gear to the vessel owner or operator is crucial to enforcement of regulations issued under the authority of the Magnuson-Stevens Fishery Conservation and Management Act. The marking of fishing gear is also valuable in actions concerning damage, loss, and civil proceedings. The regulations specify that fishing gear must be marked with the vessel's official number, Federal permit or tag number, or some other specified form of identification. The regulations further specify how the gear is to be marked (e.g., location and color). Law enforcement personnel rely on gear marking information to assure compliance with fisheries management regulations. Gear that is not properly identified is confiscated. Gear violations are more readily prosecuted when the gear is marked, and this allows for more cost-effective enforcement. Gear marking helps ensure that a vessel harvests fish only from its own traps/pots/other gear and the gear are not illegally placed. Cooperating fishermen also use the gear marking numbers to

report suspicious or non-compliant activities that they observe, and to report placement or occurrence of gear in unauthorized areas. The identifying number on fishing gear is used by the National Marine Fisheries Service (NMFS), the United States Coast Guard (USCG), and other marine agencies in issuing regulations, prosecutions, and other enforcement actions necessary to support sustainable fisheries behaviors as intended in regulations. Regulation-compliant fishermen ultimately benefit from these requirements, as unauthorized and illegal fishing is deterred, and more burdensome regulations are avoided.

II. Method of Collection

The physical marking of fishing buoys is done by fishermen in the Pacific Coast Groundfish Fishery according to regulation.

III. Data

OMB Control Number: 0648-0352.

Form Number(s): None.

Type of Review: Regular submission, extension of a current information collection.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 811.

Estimated Time per Response: 15 minutes per gear marking.

Estimated Total Annual Burden Hours: 3,236 hours.

Estimated Total Annual Cost to Public: \$3,236.

Respondent's Obligation: Mandatory.

Legal Authority: 50 CFR 660.12.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal

identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RTID 0648-XA826

Interagency Working Group on Illegal, Unreported, and Unregulated Fishing; Reopening of Comment Period

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Reopening of public comment period.

SUMMARY: On December 16, 2020, NMFS requested input on the Work Plan of the Interagency Working Group on Illegal, Unreported, and Unregulated Fishing. That notice requested comments by January 15, 2021. NMFS received comments requesting that the comment period be extended. We are reopening the comment period to fulfill the request and provide additional time to submit comments.

DATES: Information should be received on or before February 24, 2021.

ADDRESSES: Information may be submitted electronically to iuu.fishing@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Mi Ae Kim, phone 301-427-8365 or email mi.ae.kim@noaa.gov.

SUPPLEMENTARY INFORMATION: The Maritime Security and Fisheries Enforcement Act (Maritime SAFE Act) became law on December 20, 2019. The overarching purpose of the Maritime SAFE Act is to support a whole-of-government approach across the Federal government to counter illegal, unreported, and unregulated (IUU) fishing and related threats to maritime security. It seeks to achieve this through a number of means, including: Improve data sharing that enhances surveillance, enforcement, and prosecution against

IUU fishing and related activities; support coordination and collaboration to counter IUU fishing within priority regions; and increase and improve global transparency and traceability across the seafood supply chain to deter IUU fishing and strengthen fisheries management and food security; improve global enforcement operations against IUU fishing; and prevent the use of IUU fishing as a financing source for transnational organized crime groups.

Part II of the Maritime SAFE Act calls for the establishment of the Interagency Working Group on IUU Fishing, specifying the chair and agency membership in the Working Group, as well as the Working Group's responsibilities. This Working Group met for the first time in June 2020. NOAA is chair of this Working Group for its first 3 years, joined by the U.S. Department of State and U.S. Coast Guard as deputy chairs.

The Working Group has developed its Work Plan, a living document that will serve as the basis for a 5-year strategic plan that is due to Congress by the end of calendar year 2021. In this Work Plan, the Working Group identified ongoing existing activities, as well as new lines of effort, that comprise the initial focus of Federal government actions under the purview of the Working Group. Many of the new activities proposed in the Work Plan emphasize the use of maritime intelligence and the involvement of military departments to support efforts to combat IUU fishing. The Work Plan can be found here: <https://www.fisheries.noaa.gov/national/maritime-safe-act-interagency-working-group-iuu-fishing>.

The Working Group is exploring potential ways in which the government and private sector stakeholders can work together to combat IUU fishing and enhance maritime security. We are interested to hear from the seafood industry, non-governmental organizations, and other stakeholders that are engaged in efforts to combat IUU fishing. We welcome comments in relation to the Work Plan, particularly any responses to the following questions:

- Which activities in the Work Plan are connected to the expertise or interests of your organization related to combating IUU fishing?
- What kinds of distinctive capabilities or capacities could your organization bring to the activities in the Work Plan?
- Which specific activities could serve as the basis for a partnership between your organization and particular Federal agencies?

- Are there specific geographic regions or seafood industry sectors (e.g., harvesting, processing, or trade) where your organization focuses efforts to build capacity in combating IUU fishing that could be tied to activities in the Work Plan?

- Which elements in the Work Plan do you see as priorities to include in the 5-year Strategic Plan of the Working Group?

Dated: January 19, 2021.

Alexa Cole,

Director, Office of International Affairs and Seafood Inspection, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; National Saltwater Angler Registry and State Exemption Program

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before March 26, 2021.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648-0578 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Lauren Dolinger Few, National Marine Fisheries

Service, Office of Science and Technology, 1315 East-West Hwy./FST1, Silver Spring, MD 21910, Phone: (301) 427-8127 lauren.dolinger.few@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved collection. The National Saltwater Angler Registry Program (Registry Program) was established to implement recommendations included in the review of national saltwater angling data collection programs conducted by the National Research Council (NRC) in 2005/2006, and the provisions of the Magnuson-Stevens Reauthorization Act, codified at Section 401(g) of the Magnuson-Stevens Fishery Conservation and Management Act (MSA), which require the Secretary of Commerce to commence improvements to recreational fisheries surveys, including establishing a national saltwater angler and for-hire vessel registry, by January 1, 2009. A final rule that includes regulatory measures to implement the Registry Program (RIN 0648-AW10) was adopted and codified in 50 CFR 600, subpart P.

The Registry Program collects identification and contact information from those anglers and for-hire vessels who are involved in recreational fishing in the United States Exclusive Economic Zone or for anadromous fish in any waters, unless the anglers or vessels are exempted from the registration requirement. Data collected includes—for anglers: Name, address, date of birth, telephone contact information and region(s) of the country in which they fish; for for-hire vessels: Owner and operator name, address, date of birth, telephone contact information, vessel name and registration/documentation number and home port or primary operating area. This information is compiled into a national and/or series of regional registries that is being used to support surveys of recreational anglers and for-hire vessels to develop estimates of recreational angling effort.

II. Method of Collection

Persons may register online at a NOAA-maintained website. Registration cards, valid for one year from the date of issuance, are mailed to registrants.

III. Data

OMB Control Number: 0648-0578.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).
