a “need-to-know” basis; strict control measures are enforced to ensure that disclosure to these individuals is also based on this same principle. Generally, VA file areas are locked after normal duty hours and the facilities are protected from outside access by the Federal Protective Service or other security personnel.

2. PATS is a web-based application installed on central computer systems in a data center at Martinsburg, West Virginia. The systems are maintained by authorized personnel. The end users access the application using the Web browser installed on their desktops. Additionally, access to computer rooms at health care facilities is generally limited by appropriate locking devices and restricted to authorized VA employees and vendor personnel. Automated Data Processing (ADP) peripheral devices are placed in secure areas (areas that are locked or have limited access) or are otherwise protected. Information in VistA may be accessed by authorized VA employees. Access to PATS application and data in the application is controlled at two levels; the systems recognize authorized employees by series of individually unique passwords/codes as a part of each data message, and the employees are limited to only that information in the application which is needed in the performance of their official duties. Information that is downloaded from PATS and maintained on personal computers are afforded similar storage and access protections as the data that is maintained in the original files. Access to information stored on automated storage media at other VA locations is controlled by individually unique passwords/codes.

3. Access to the AITC is generally restricted to Center employees, custodial personnel, Federal Protective Service and other security personnel. Access to computer rooms is restricted to authorized operational personnel through electronic locking devices. All other persons gaining access to computer rooms are escorted. Information stored in the computer may be accessed by authorized VA employees at remote locations including VA health care facilities, Information Systems Centers, VA Central Office, and Veteran Integrated Service Networks. Access is controlled by individually unique passwords/codes which must be changed periodically by the employee.

RECORD ACCESS PROCEDURE:

Individuals seeking information regarding access to and contesting of records in this system may write, call or visit the VA facility location where they are or were employed or made contact.

CONTESTING RECORD PROCEDURES:

(See Record Access Procedures above.)

NOTIFICATION PROCEDURE:

Individuals who wish to determine whether this system of records contains information about them should contact the VA facility location at which they are or were employed or made or have contact. Inquiries should include the person’s full name, social security number, dates of employment, date(s) of contact, and return address.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.

HISTORY:

BILLING CODE 8320–01–P

DEPARTMENT OF VETERANS AFFAIRS

Privacy Act of 1974; Systems of Records

AGENCY: Department of Veterans Affairs (VA).

ACTION: Notice of Amendment to System of Records.

SUMMARY: As required by the Privacy Act of 1974, notice is hereby given that the Department of Veterans Affairs is amending the system of records currently entitled “Veterans, Dependents of Veterans, and VA Beneficiary Survey Records (43VA008)” as set forth in the Federal Register. VA is amending the System Manager, Notification Procedure, organizational information, updating existing Routine Uses to use VA standard language and adding Handbook for Secure Connections 6513. VA is republishing the system notice in its entirety.

DATES: This amended system of record will be effective February 24, 2021.

ADDRESSES: Written comments concerning the proposed amended system of records may be submitted by: Mail or hand-delivery to Director, Regulations Management (02REG), Department of Veterans Affairs, 810 Vermont Avenue NW, Room 1068, Washington, DC 20420; facx to (202) 273–9026; or email to http://www.Regulations.gov. All comments received will be available for public inspection in the Office of Regulation Policy and Management, Room 1063B, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday (except holidays). Please call (202) 461–4902 (this is not a toll-free number) for an appointment.

FOR FURTHER INFORMATION CONTACT:

Office of Enterprise Integration (OEI), Privacy Officer, U.S. Department of Veterans Affairs, 810 Vermont Ave. NW, Washington, DC 20420; telephone (202) 461–5800.

SUPPLEMENTARY INFORMATION: In the Routine Use Section existing language has been updated using approved VA language. No new routine uses have been added. Update included aggregating previous Routine Use Four (4) for research and separating out the provision for matching with other federal agencies. This federal matching provision is Routine Use Number Five (5). Other Routine Uses have been renumbered.

In the System Location Section, the office has been amended from the Data Development and Analysis Service to the Office of Data Governance and Analysis, (008B1). To incorporate other organizational changes the System Manager has been changed to the Executive Director for Data Governance and Analysis. Also, the name of the Austin storage location has changed from Austin Automation Center to Austin Information Technology Center. Finally, the last sentence in the System Location Section has been amended for clarity to “records necessary for a contractor to perform under a VA-approved contract are located at the respective contractor’s facility.”

In the Authority for Maintenance of the System Section, Public Law 108—454 of 2004 has been removed. This Public Law authorized survey research for reporting requirements in Sections 211 and 805 that have expired.

In the Record Source Categories, language has been updated to include Centers for Medicare and Medicaid Services (CMS) to the list of entities from which information may be obtained.

The Policies and Practices for Storage have been amended to include the complete name and address of the OIE server location to be used for data storage at the VA Austin Information Technology Center, 615 Woodward St., Austin, TX 78772. Further, VA has replaced rescinded Directive 6504 with its replacements, VA Handbook 6500, Information Security Program, and added Handbook 6513 Secure Connections.

In paragraph One (1) of the Physical, Procedural and Administrative Safeguards Section, the Health Insurance Portability and
Accountability Act has been clarified. In
the paragraph Two (2) a VA
organizational change edit was made to
the Office of Operations, Security, and
Preparedness and this paragraph was
updated to reflect the current practice of
storing data in a protected server
evironment.

In the Safeguards Section language has
been updated. In paragraph Four (4)
Directive 6504 has been replaced with
VA Handbook 6500, Information
Security Program to update and clarify
security policy. Data handling to
include both health and non-health data
has been clarified.

The Safeguards section has included
additional updates. Specifically, in the
Safeguards Section Paragraph Five (5)
Memorandum of Understanding (MOU)
has been added to the possible
agreements' types used to protect
information. In addition, in Safeguards
Section Paragraph Seven (7) update has
been made to clarify and update the
practice of using secure servers for data
handling and analysis. Finally, in
Section (8) language is updated and
clarified to address access to record
level files and related statistical
software code as underlying survey data
and resources.

In the System Manager(s) and
Address(es) and Notification Procedure
Sections, the office name has been
amended from the Office of Policy and
Planning, to the successor organization
named the Office of Enterprise
Integration (008). Titles of responsible
System Notice officials in the new
organization have been updated.
Additionally, minor edits have been
made to the System Notice for clarity,
grammar, punctuation, and style. These
changes are not substantive, and
consequently, are not further discussed
or enumerated.

The Report of Intent to Amend a
System of Records Notice and an
advance copy of the System Notice have
been sent to the appropriate
congressional committees and to the
Director of the Office of Management and
Budget (OMB) as required by 5
U.S.C. 552(a)(3) (Privacy Act) and
guidelines issued by OMB (65 FR
77677), December 12, 2000.

Signing Authority

The Senior Agency Official for
Privacy, or designee, approved this
document and authorized the
undersigned to sign and submit the
document to the Office of the Federal
Register for publication electronically as
an official document of the Department
of Veterans Affairs. James P. Gfrerer,
Assistant Secretary of Information and
Technology and Chief Information
Officer, approved this document on
April 30, 2020 for publication.

Amy L. Rose,
Program Analyst, VA Privacy Service, Office
of Information Security, Office of Information
and Technology, Department of Veterans
Affairs.

43VA008

SYSTEM NAME:
Veterans, Dependents of Veterans, and VA Beneficiary Survey Records—
VA.

SYSTEM LOCATION:
Location for electronic records are stored on the Department of Veterans
Affairs' secured servers housed at VA's
Austin Information Technology Center,
1615 Woodward St., Austin, TX 78772.
Records necessary for a contractor to
perform under a VA-approved contract
are located at the respective contractor's
facility.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

PURPOSE(S):
The purpose of this system of records is
to collect data about the characteristics of America's Veteran,
Servicemember, family member, and
beneficiary populations through surveys
that may be augmented with information
from several existing VA systems of records and with information
from non-VA sources to:
1. Conduct statistical studies and
analyses relevant to VA programs and
services;
2. Plan and improve services
provided;
3. Decide about VA policies,
programs, and services;
4. Study the VA's role in the use of
VA and non-VA benefits and services;

5. Study the relationship between the
use of VA benefits and services and the
use of related benefits and services from
non-VA sources. These types of studies
are needed for VA to forecast future
demand for VA benefits and services.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:
(1) Veterans;
(2) Family members of Veterans;
(3) Military Servicemembers;
(4) Family members of
Servicemembers, and
(5) Other VA beneficiaries.

RECORD SOURCE CATEGORIES:
The categories of records in the system may include:
1. Personal identifiers (e.g.,
respondents' names, addresses, phone
numbers, social security numbers,
employer identification numbers);
2. Demographic and socioeconomic
characteristics (e.g., date of birth, sex,
race/ethnicity, education, marital status,
employment and earnings, financial
information, business ownership
information);
3. Military service information (e.g.,
military occupational specialties,
periods of active duty, branch of service
including National Guard or Reserves,
date of separation, rank);
4. Health status information (e.g.,
diagnostic, health care utilization, cost,
and third-party health plan
information);
5. Benefit and service information
(e.g., data on transition assistance
services, VA medical and other benefit
eligibility, awareness, knowledge,
understanding, and use; data on access
and barriers to VA benefits or services;
data about satisfaction with VA
outreach, benefits, or services);
6. The records may also include
information about Department of
Defense (DoD) military personnel from
DoD files (e.g., utilization files that
contain inpatient and outpatient
medical records, and eligibility files
from the Defense Eligibility Enrollment
Reporting System (DEERS));
7. The records may include
information on Medicare beneficiaries
from Centers for Medicare and Medicaid
Services (CMS), and its predecessor, the
Health Care Financing Administration
(HCFA), that are contained in databases
(e.g., Denominator file identifies the
population being studied; Standard
Analytical files on inpatient, outpatient,
physician supplier, nursing home,
hospice, home care, durable medical
equipment; and Group and other Health
Plans).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:
To the extent that records contained
in the system include information
protected by Title 45, Code of Federal
Regulations (CFR), Parts 160 and 164
(i.e., individually identifiable health
information), and 38 U.S.C. 7332 (i.e.,
medical treatment information related to
drug abuse, alcoholism, or alcohol
abuse, sickle cell anemia, or infection
with the human immunodeficiency
virus, that information cannot be
disclosed under a routine use unless
there is also specific statutory authority
in 38 U.S.C. 7332 and regulatory
authority in 45 CFR parts 160 and 164
permitting disclosure).
1. NARA & GSA. VA may disclose
information from this system to the
National Archives and Records
Administration (NARA) and General Services Administration (GSA) in records management inspections conducted under title 44, U.S.C.

2. Contractors. VA may disclose information from this system of records to individuals, organizations, private or public agencies, or other entities or individuals with whom VA has a contract or agreement to perform such services as VA may deem practicable for the purposes of laws administered by VA, in order for the contractor, subcontractor, public or private agency, or other entity or individual with whom VA has a contract or agreement to perform services under the contract or agreement.

3. Law Enforcement. VA may, on its own initiative, disclose information in this system, except the names and home addresses of veterans and their dependents, which is relevant to a suspected or reasonably imminent violation of law, whether civil, criminal or regulatory in nature and whether arising by general or program statute or by regulation, rule or order issued pursuant thereto, to a Federal, state, local, tribal, or foreign agency charged with the responsibility of investigating or prosecuting such violation, or charged with enforcing or implementing the statute, regulation, rule or order. On its own initiative, VA may also disclose the names and addresses of veterans and their dependents to a Federal agency charged with the responsibility of investigating or prosecuting civil, criminal or regulatory violations of law, or charged with enforcing or implementing the statute, regulation, rule or order. To determine whether to disclose records under this routine use, VA will comply with the guidance promulgated by the Office of Management and Budget in a May 24, 1985, memorandum entitled “Privacy Act Guidance—Update,” currently posted at http://www.whitehouse.gov/omb/inforeg/guidance1985.pdf.

4. Research. VA may disclose information from this system to a Federal agency for the conduct of research and data analysis to perform a statutory purpose of that agency upon the prior written request of that agency, provided that there is legal authority under all applicable confidentiality statutes and regulations to provide the data and VA has determined prior to the disclosure that VA data handling requirements are satisfied.

5. Federal Agencies for Computer Matches. VA may disclose limited individual identification information to another Federal agency from this system for the purpose of matching and acquiring information held by that agency for VA to use for the purposes stated for this system of records.

6. Congress. VA may disclose information from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

7. Litigation. VA may disclose information from this system of records to the Department of Justice (DoJ), either on VA’s initiative or in response to DoJ’s request for the information, after either VA or DoJ determines that such information is relevant to DoJ’s representation of the United States or any of its components in legal proceedings before a court or adjudicative body, provided that, in each case, the agency also determines prior to disclosure that release of the records to the DoJ is a use of the information contained in the records that is compatible with the purpose for which VA collected the records. VA, on its own initiative, may disclose records in this system of records in legal proceedings before a court or administrative body after determining that the disclosure of the records to the court or administrative body is a use of the information contained in the records that is compatible with the purpose for which VA collected the records. To determine whether to disclose records under this routine use, VA will comply with the guidance promulgated by the Office of Management and Budget in a May 24, 1985, memorandum entitled “Privacy Act Guidance—Update,” currently posted at http://www.whitehouse.gov/omb/inforeg/guidance1985.pdf.

8. Data breach response and remedial efforts. VA may, on its own initiative, disclose information from this system to appropriate agencies, entities, and persons when (1) VA suspects or has confirmed that the integrity or confidentiality of information in the system of records has been compromised; (2) the Department has determined that as a result of the suspected or confirmed compromise there is a risk of embarrassment or harm to the reputations of the record subjects, harm to economic or property interests, identity theft or fraud, or harm to the security, confidentiality, or integrity of this system or other systems or programs (whether maintained by the Department or another agency or entity) that rely upon the potentially compromised information; and (3) the disclosure is to agencies, entities, or persons whom VA determines are reasonably necessary to assist or carry out the Department’s efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm.

POLICIES AND PRACTICES FOR RETRIEVIABILITY OF RECORDS:

Health care information is kept separate from individual identifiers for survey data. Unique codes are assigned to individual health information. A codebook for decoding is stored on a secure server for name, social security number or other assigned identifiers of the individuals on whom they are maintained. These survey records may be retrieved by name, address, social security number, date of birth, military service number, claim or file number, DoD identification numbers, or other personal identifiers.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records are maintained and disposed of in accordance with the records disposition authority approved by the Archivist of the United States and the National Archives and Records Administration (NARA) and published in Agency Records Control Schedules. If the Archivist has not approved disposition authority for any records covered by the system notice, the System Manager will take immediate action to have the disposition of records in the system reviewed in accordance with VA Handbook 6300.1, Records Management Procedures. The records may not be destroyed until VA obtains an approved records disposition authority. See Records Control Schedule (RCS) 10–1 May 2016 for further detailed guidance. OEI destroys electronic files when no longer needed for administrative, legal, audit, or other operational purposes consistent with the Record Control Schedule. In accordance with 36 CFR 1234.34, Destruction of Electronic Records, “electronic records may be destroyed
only in accordance with a records disposition schedule approved by the Archivist of the United States, including General Records Schedules."

**PHYSICAL, PROCEDURAL AND ADMINISTRATIVE SAFEGUARDS:**
1. This list of safeguards furnished in this System of Record is not an exclusive list of measures that have been, or will be taken to protect individually-identifiable information. The Health Insurance Portability and Accountability Act (HIPAA) provides guidelines for protecting health information that will be followed by adopting health care industry best practices and the reporting of breaches in order to provide adequate safeguards. Further, VA policy directives that specify the standards that will be applied to protect health information will be reviewed by VA staff and contractors through mandatory data privacy and security training.

2. Access to data servers and storage areas is restricted to authorized VA employee or contract staffs who are cleared to work by the Office of Operations, Security, and Preparedness. Access to the OEI data servers used for storage is restricted and protected by access codes. Health information file areas are locked after normal duty hours. VA facilities are protected from outside access by the Federal Protective Service and/or other security personnel.

3. Access to health information provided by the Veterans Health Administration (VHA) pursuant to a Business Associate Agreement (BAA) is restricted to those OEI employees and contractors who have a business need for the information in the performance of their official duties. As a general rule, full sets of health care information are not provided for use unless authorized by the System Manager. File extracts provided for specific official uses will be limited to contain only the information fields needed for the analysis. Data used for analyses will have individual identifying characteristics removed whenever possible.

4. Security complies with applicable Federal Information Processing Standards (FIPS) issued by the National Institute of Standards and Technology (NIST). Health and non-health information files containing unique identifiers such as social security numbers are encrypted to NIST-verified FIPS 140–2 standard or higher for storage, transport, or transmission. Any health information files transmitted on laptop workstations, data storage devices or media are encrypted. Record level files are kept encrypted at all times except when data is in immediate use. These methods are applied in accordance with HIPAA regulations [45 CFR 164.514] and VA Handbook 6500, Information Security Handbook.

5. Contractors and their subcontractors are required to maintain the same level of security as VA staff for health care information that has been disclosed to them. Any data disclosed to a contractor, or use of a subcontractor to perform authorized analyses, requires use of Data Use Agreements (DUAs) or Memorandum of Understanding (MOU), Non-Disclosure Statements and Business Associates Agreement (BAA) to protect health information. Unless explicitly authorized in writing by the VA, sensitive or protected data made available to the contractor and subcontractors shall not be divulged or made known in any manner to any person. Other Federal or state agencies requesting health care information need to provide agreements to protect data.

6. The OEI work area is accessed for business-only needs. A limited amount of data is stored in a combination-protected safe which is secured inside a limited access room. Direct access to the safe is controlled by select individuals who possess background security clearances. Only a few employees with strict business needs or “need-to-know” access and completed background checks will ever handle the data once it is removed from the safe for data match purposes.

7. Data matches, analysis, and storage are conducted primarily on secured servers located in Austin, TX, which are housed in a restricted access network area with appropriate locking devices. Access to such records are controlled by three measures: The application of a VA security identification card coded with special permissions network area’s key pad; the proper input of a series of individually-unique passwords/codes by a recognized user; and the entrance of those select individuals for the performance of their official information technology-related duties.

8. Access to Automated Data Processing (ADP) files, record level files and related statistical software code is controlled by using an individually-unique pin number or password entered in combination with a Personally Identifiable Variable (PIV) card or other information.

9. Access to VA facilities where health care information exists is removed from the safe for data match purposes.

10. Public use files prepared for purposes of research and analysis are purged of personal identifiers.

11. Paper records, when they exist, are maintained in a locked room at the Washington National Records Center or at designated locations identified in this System Notice. The Federal Protective Service protects paper records from unauthorized access.

**SYSTEM MANAGER(S) AND ADDRESS(ES):**
OEI’s System Manager is Kshemendra Paul, Executive Director, Office of Enterprise Integration, Data Governance and Analytics (008B1), VA Central Office, 810 Vermont Ave. NW, Washington, DC 20420, 202-461-1052, kshemendra.paul@va.gov.

**RECORD ACCESS PROCEDURE:**
An individual who wants to determine whether the Director, National Center for Veterans Analysis and Statistics (008B1) is maintaining a record under the individual’s name or other personal identifier, or wants to determine the content of such records must submit a written request to the Director, National Center for Veterans Analysis and Statistics, Office of Enterprise Integration, (008B1), VA Central Office, 810 Vermont Ave. NW, Washington, DC 20420. The individual seeking this information must prove his or her identity and provide the name of the survey in question, approximate date of the survey, social security number, full name, and date of birth, telephone number, and return address. All inquiries must reasonably identify the health care information involved and the approximate date that medical care was provided.

**CONTESTING RECORD PROCEDURES:**
(See Records Access Procedures.)

**NOTIFICATION PROCEDURE:**
A Veteran who wishes to determine whether a record is being maintained by the Office of Enterprise Integration under his or her name or other personal identifier or wishes to determine the contents of such records should submit a written request or apply in person to: (1) Executive Director, Office of Enterprise Integration, (008B), VA Central Office, 810 Vermont Ave. NW, Washington, DC 20420. (2) Director, National Center for Veterans Analysis and Statistics, Office of Enterprise Integration, (008B1), VA Central Office, 810 Vermont Ave. NW, Washington, DC 20420. Inquiries should include the individual’s full name and social security number.
SUMMARY: As required by the Privacy Act of 1974, notice is hereby given that the Department of Veterans Affairs (VA) is amending the system of records entitled, “The Revenue Program-Billing and Collections Records-VA” (114VA10D). VA is amending the system of records by revising the System Number; System Location; Purpose of the System; Categories of Individuals Covered by the System; Record Source Categories; Routine Uses of Records Maintained in the System; Policies and Practices for Storage of Records; and Physical, Procedural and Administrative Safeguards. VA is republishing the system notice in its entirety.

DATES: Comments on this amended system of records must be received no later than February 24, 2021. If no public comment is received during the period allowed for comment or unless otherwise published in the Federal Register by the VA, the new system will become effective February 24, 2021.

ADDRESSES: Written comments may be submitted through www.Regulations.gov: by mail or hand-delivery to Director, Regulation Policy and Management (00REG), Department of Veterans Affairs, 810 Vermont Avenue NW, Room 1064, Washington, DC 20420; or by fax to (202) 273–9026 (Note: not a toll-free number).

Comments should indicate they are submitted in response to “The Revenue Program-Billing and Collections Records-VA”. Copies of comments received will be available for public inspection in the Office of Regulation Policy and Management, Room 1063B, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday (except holidays). Please call (202) 461–4902 for an appointment (Note: not a toll-free number). In addition, comments may be viewed online at www.Regulations.gov.

FOR FURTHER INFORMATION CONTACT: Stephanie Griffin, Veterans Health Administration (VHA) Privacy Officer, Department of Veterans Affairs, 810 Vermont Avenue NW, Washington, DC 20420; telephone (704) 245–2492 (Note: not a toll-free number).

SUPPLEMENTARY INFORMATION: The System Number is being updated from 114VA10D to 114VA10 to reflect the current VHA organizational routing symbol.

The System Location is being updated to reflect electronic records being located at contractor facilities, such as the Cerner Technology Centers (CTC): Primary Data Center in Kansas City, MO, and Continuity of Operations/Disaster Recovery (COOP/DR) Data Center in Lees Summit, MO. Amazon Web Services, LLC, 13461 Sunrise Valley Drive, Herndon, VA 20171–3283. The Purpose of the System is being amended to remove participation in the pilot test of NPI enumeration system by the Centers for Medicare and Medicaid Services (CMS). This section will add, CMS National Plan and Provider Enumeration System (NPPES).

Categories of Individuals Covered by the System is being added to add “including those receiving or eligible to receive VA health care” to item 2. Also, item 10, Caregivers, is being added.

The Record Source Categories is being amended to add Social Security Administration and Patient Medical Records-VA (24VA10A7). Also, 77VA10A4 is being changed to 77VA10E2 and 79VA10P2 is being changed to 79VA10A7.

The Routine Uses of Records Maintained in the System is being amended Routine Use 10 to remove universal personal identification number.

Routine Use 13 is being amended to include 7332-protected information.

Routine Use 17 is being amended to replace “CMS to test the enumeration system for the NPI and once the system is operational” with National Plan and Provider Enumeration System (NPPES). Routine Use 20 has been amended by removing the language which states, this routine use permits disclosures by VA to respond to a suspected or confirmed data breach, including the conduct of any risk analysis or provision of credit protection services as provided in 38 U.S.C. 5724, as the terms are defined in 38 U.S.C. 5727.

a. Effective Response. A Federal agency’s ability to respond quickly and effectively in the event of a breach of Federal data is critical to its efforts to prevent or minimize any consequent harm. An effective response necessitates disclosure of information regarding the breach to those individuals affected by it, as well as to persons and entities in a position to use the information either by assisting in notification to affected individuals or playing a role in preventing or minimizing harms from the breach.

b. Disclosure of Information. Often, the information to be disclosed to such persons and entities is maintained by Federal agencies and is subject to the Privacy Act (5 U.S.C. 552a). The Privacy Act prohibits the disclosure of any record in a system of records by any means of communication to any person or agency absent the written consent of the subject individual, unless the disclosure falls within one of twelve statutory exceptions. In order to ensure an agency is in the best position to respond in a timely and effective manner, in accordance with 5 U.S.C. 552a(b)(3) of the Privacy Act, agencies should publish a routine use for appropriate systems specifically applying to the disclosure of information in connection with response and remedial efforts in the event of a data breach.

The language in Routine Use 21 is being amended. It previously stated that disclosure of the records to the Department of Justice (DoJ) is a use of the information contained in the records that is compatible with the purpose for which VA collected the records. VA may disclose records in this system of records in legal proceedings before a court or administrative body after determining that the disclosure of the records to the court or administrative body is a use of the information contained in the records that is compatible with the purpose for which VA collected the records. This routine use will now state that release of the records to the DoJ is limited to circumstances where relevant and necessary to the litigation. VA may disclose records in this system of records in legal proceedings before a court or administrative body after determining that release of the records to the court or administrative body is limited to circumstances where relevant and necessary to the litigation.

Policies and Practices for Storage of Records is being amended to include Records within this system is also hosted in Amazon Web Services (AWS) Government Cloud (GovCloud) infrastructure as a service cloud-computing environment that has been authorized at the high-impact level under the Federal Risk and Authorization Management Program (FedRAMP).

The Physical, Procedural and Administrative Safeguards section is being amended to add, “Access to Cerner Technology Centers is generally restricted to Cerner contractors or associates with a Cerner issued ID badge and other security
