Extension: Form N–54A

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), the Securities and Exchange Commission (“Commission”) has submitted to the Office of Management and Budget a request for extension of the previously approved collection of information discussed below.

Under the Investment Company Act of 1940 (15 U.S.C. 80a–1 et seq.) (the “Investment Company Act”), certain investment companies can elect to be regulated as business development companies, as defined in Section 2(a)(48) of the Investment Company Act (15 U.S.C. 80a–2(a)(48)). Under Section 54(a) of the Investment Company Act (15 U.S.C. 80a–53(a)), any company defined in Section 2(a)(48)(A) and (B) may elect to be subject to the provisions of Sections 55 through 65 of the Investment Company Act (15 U.S.C. 80a–54 to 80a–64) by filing with the Commission a notification of election, if such company has: (1) A class of equity securities registered under Section 12 of the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.) (“Exchange Act”); or (2) filed a registration statement pursuant to Section 12 of the Exchange Act for a class of its equity securities. The Commission adopted Form N–54A (17 CFR 274.53) as the form for notification of election to be regulated as a business development company.

The purpose of Form N–54A is to notify the Commission that the investment company making the notification elects to be subject to Sections 55 through 65 of the Investment Company Act, enabling the Commission to administer those provisions of the Investment Company Act to such companies.

The Commission estimates that on average approximately 7 business development companies file these notifications each year. Each of those business development companies need only make a single filing of Form N–54A. The Commission further estimates that this information collection imposes a burden of 0.5 hours, resulting in a total annual PRA burden of 3.5 hours. Based on the estimated wage rate, the total cost to the business development company industry of the hour burden for complying with Form N–54A would be approximately $1,288.

The collection of information under Form N–54A is mandatory. The information provided by the form is not kept confidential. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

Extension: Form N–PX

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) (“Paperwork Reduction Act”), the Securities and Exchange Commission (the “Commission”) is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget (“OMB”) for extension and approval.

Rule 30b1–4 (17 CFR 270.30b1–4) under the Investment Company Act of 1940 (15 U.S.C. 80a–1 et seq.) requires every registered investment company, other than a small business investment company registered on Form N–5 (“funds”), to file a report on Form N–PX not later than August 31 of each year. Funds use Form N–PX to file annual reports with the Commission containing their complete proxy voting record for the most recent twelve-month period ended June 30.

The Commission estimates that there are approximately 2,207 funds registered with the Commission, representing approximately 11,890 fund portfolios that are required to file Form N–PX reports. The 11,890 portfolios are comprised of approximately 6,392 portfolios holding equity securities, 2,857 portfolios holding no equity securities, and 1,476 portfolios holding fund securities (i.e., fund of funds). The currently approved burden of Form N–PX for portfolios holding equity

\[1\] The estimate of 2,207 funds is based on the number of management investment companies currently registered with the Commission. The Commission staff estimates that there are approximately 6,392 portfolios that invest primarily in equity securities, 804 “hybrid” or bond portfolios that may hold some equity securities, 2,857 bond portfolios that hold no equity securities, and 361 money market fund portfolios, and 1,476 fund of funds, for a total of 11,890 portfolios required to file Form N–PX reports. The staff has based its portfolio estimates on a number of publications. See Investment Company Institute, Trends in Mutual Fund Investing (February 2020); Investment Company Institute, Closed-End Fund Assets and Net Issuance (Fourth Quarter 2019); Investment Company Institute, ETF Assets and Net Issuance (February 2020).
securities is 7.2 hours per response, the current burden estimate for funds holding no equity securities is 0.17 hours (10 minutes) per response, and the current burden estimate for fund of funds is 1 hour per response. Therefore, the number of aggregate burden hours, when calculated using the current number of portfolios, is approximately 47,984 hours.\(^2\) We continue to believe that these estimates for Form N–PX’s current burden are appropriate. Based on the Commission’s estimate of 47,984 burden hours and an estimated wage rate of approximately $368 per hour,\(^3\) the total cost to reporting persons of the hour burden for filing Form N–PX is approximately $17.66 million.\(^4\)

The estimated cost burden of Form N–PX is $1,000 in external costs per portfolio holding equity securities that is paid to third-party service providers. External costs for portfolios holding no equity securities have previously been estimated to be zero because portfolios holding no equity securities generally have no proxy votes to report and therefore do not require third-party service providers to assist with proxy voting and preparing reports on Form N–PX. The estimated cost burden of Form N–PX for fund of funds is estimated to be $100 per portfolio because fund of funds generally either have no proxy votes to report; or if proxy votes are reported, they are generally limited in the number of securities and the number of voting matters relative to portfolios holding equity securities. Therefore, the aggregate cost burden, when calculated using the current number of portfolios, is approximately $6,539,600 in external costs.\(^5\) We continue to believe that these estimates for Form N–PX’s current cost burden are appropriate.

Estimates of average burden hours and costs are made solely for the purposes of the Paperwork Reduction Act and are not derived from a comprehensive or even representative survey or study of the costs of Commission rules and forms.
