submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC’s public website at https://www.nrc.gov/site-help/e-submittals/getting-started.html. Once a participant has obtained a digital ID certificate and a docket has been created, the participant can then submit adjudicatory documents. Submissions must be in Portable Document Format (PDF). Additional guidance on PDF submissions is available on the NRC’s public website at https://www.nrc.gov/site-help/electronic-sub-ref-mat.html. A filing is considered complete at the time the documents are submitted through the NRC’s E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the documents via the NRC’s adjudicatory E-Filing system also distributes an email confirming receipt of the document. The E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the documents via the NRC’s adjudicatory E-Filing system.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, 11555 Rockville Pike, Rockville, Maryland 20852, Attention: Rulemaking and Adjudications Staff. Participants filing adjudicatory documents in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in the NRC’s electronic hearing docket which is available to the public at https://adams.nrc.gov/ehd, unless excluded pursuant to an order of the Commission or the presiding officer. If you do not have an NRC-issued digital ID certificate as described above, click “cancel” when the link requests certificates and you will be automatically directed to the NRC’s electronic hearing docket where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or personal phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. For example, in some instances, individuals provide home addresses in order to demonstrate proximity to a facility or site. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held, and designating the Presiding Officer. A notice granting a hearing will be published in the Federal Register and served on the parties to the hearing.

For further details with respect to this application, see the application dated December 2, 2020 (ADAMS Accession No. ML20337A344). Dated: January 21, 2021.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–438 and 50–439; NRC–2020–0273]

In the Matter of Tennessee Valley Authority Bellefonte Nuclear Plant, Units 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: Order; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has approved the Tennessee Valley Authority (TVA) requests to extend the latest construction completion dates for Bellefonte Nuclear Plant (BLN), Units 1 and 2, to October 1, 2021. TVA is the current construction permit (CP) holder for BLN, Units 1 and 2. The initial CPs for BLN were issued on December 24, 1974, authorizing TVA to construct BLN, Units 1 and 2, in Jackson County, AL.

DATES: The Order was issued on January 22, 2021.

ADDRESSES: Please refer to Docket NRC–2020–0273 when contacting the NRC about the availability of information regarding this record. You may obtain publicly available information related to this document using any of the following methods:

• Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC–2020–0273. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.
The Tennessee Valley Authority (TVA, or the applicant) is the current holder of Construction Permit (CP) Nos. CPPR–122 and CPPR–123, which the Atomic Energy Commission (now the U.S. Nuclear Regulatory Commission (NRC)) issued on December 24, 1974 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML090680334), for construction of the Bellefonte Nuclear Plant (BLN), Units 1 and 2, respectively. The CPs for CPPR–122 and CPPR–123 expire on October 1, 2020, and October 1, 2021, respectively. These facilities, currently in deferred plant status as described in the Commission Policy Statement on Deferred Plants, published in Volume 52 of the Federal Register (FR), page 38077 (52 FR 38077), on October 14, 1987, are at the applicant’s site in Jackson County, AL, located on a peninsula at Tennessee River Mile 392 on the west shore of Guntersville Reservoir, about 6 miles east-northeast of Scottsboro, AL.

TVA filed a request on June 10, 2014 (ADAMS Accession No. ML14168A489), as supplemented on March 31, 2017 (ADAMS Accession No. ML17090A388), under Title 10 of the Code of Federal Regulations (10 CFR) 50.55(b) for the extension of the latest date for the completion of construction as stated in CPPR–123 for BLN Unit 2. TVA also filed a request on August 28, 2020 (ADAMS Accession No. ML20244A305), under 10 CFR 50.55(b) for the extension of the latest date for the completion of construction as stated in CPPR–122 for BLN Unit 1.

In its letter dated June 14, 2014, TVA requested the NRC to extend the latest construction completion date for BLN Unit 2 from October 1, 2014, to October 1, 2017. Later, in a letter dated March 31, 2017, TVA stated that it had sold the Bellefonte property at auction and proposed that the NRC leave the extension request for BLN Unit 2 as an open item until the NRC is able to obtain construction completion information based on the purchaser’s plans.

In its letter dated August 28, 2020, TVA requested the NRC to extend the latest construction completion date for BLN Unit 1 from October 1, 2020 to October 1, 2021. TVA stated that the sale of BLN Units 1 and 2 did not close in November 2018, and that the purchaser, Nuclear Development, LLC, filed a lawsuit against TVA for breach of contract. TVA stated that an extension for BLN Unit 1 is needed to allow the parties additional time to obtain a decision in the lawsuit.

The NRC reviewed TVA’s requests in the letters dated June 10, 2014; March 31, 2017; and August 28, 2020. As discussed more fully in the staff’s related safety evaluation, the NRC staff finds that good cause exists for extending the completion date to October 1, 2021, for BLN Units 1 and 2. The staff also finds that the requested extensions involve no significant hazards consideration.

The NRC staff prepared an environmental assessment and finding of no significant impact and published it in the Federal Register on January 19, 2021 (86 FR 5280). Under 10 CFR 51.32, “Finding of no significant impact,” the Commission has determined that extending the construction completion date will not have a significant effect on the quality of the human environment.

III Within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. The scope of this order extending the construction completion dates and any proceeding hereunder is limited to direct challenges to the CP holder’s asserted reasons that show good cause for the extension. Petitions shall be filed in accordance with the Commission’s “Agency Rules of Practice and Procedure” in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309. The NRC’s regulations are accessible electronically from the NRC Library on the NRC’s website at https://www.nrc.gov/reading-rm/doc-collections/cfr/. Alternatively, a copy of the regulations is available at the NRC’s Public Document Room, located at One White Flint North, Room O1–F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852. If a petition is filed, the Commission or a presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

As required by 10 CFR 2.309(d) the petition should specifically explain the reasons why intervention should be permitted with particular reference to the following general requirements for standing: (1) The name, address, and telephone number of the petitioner; (2) the nature of the petitioner’s right to be made a party to the proceeding; (3) the nature and extent of the petitioner’s property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the petitioner’s interest.

In accordance with 10 CFR 2.309(f), the petition must also set forth the specific contentions which the petitioner seeks to have litigated in the proceeding. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner must provide a brief explanation of the bases for the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to the specific
sources and documents on which the petitioner intends to rely to support its position on the issue. The petition must include sufficient information to show that a genuine dispute exists with the applicant or licensee on a material issue of law or fact. Contentions must be limited to matters within the scope of the proceeding. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to satisfy the requirements at 10 CFR 2.309(f) with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene. Parties have the opportunity to participate fully in the conduct of the hearing with respect to resolution of that party’s admitted contentions, including the opportunity to present evidence, consistent with the NRC’s regulations, policies, and procedures. Petitions must be filed no later than 60 days from the date of publication of this notice. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii). The petition must be filed in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii). The petition must be filed in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document.

If a hearing is requested, and the Commission has not made a final determination on the issue of no significant hazards consideration, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to establish when the hearing is held. If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing would take place after issuance of the amendment. If the final determination is that the amendment request involves a significant hazards consideration, then any hearing held would take place before the issuance of the amendment unless the Commission finds an imminent danger to the health or safety of the public, in which case it will issue an appropriate order or rule under 10 CFR part 2.3.

A State, local governmental body, Federally recognized Indian Tribe, or agency thereof, may submit a petition to the Commission to participate as a party under 10 CFR 2.309(b)(1). The petition should state the nature and extent of the petitioner’s interest in the proceeding. The petition should be submitted to the Commission no later than 60 days from the date of publication of this notice. The petition must be filed in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document, and should meet the requirements for petitions set forth in this section, except that under 10 CFR 2.309(b)(2) a State, local governmental body, or Federally recognized Indian Tribe, or agency thereof does not need to address the standing requirements in 10 CFR 2.309(d) if the facility is located within its boundaries. Alternatively, a State, local governmental body, Federally recognized Indian Tribe, or agency thereof may participate as a non-party under 10 CFR 2.315(c).

If a hearing is granted, any person who is not a party to the proceeding and is not affiliated with or represented by a party may, at the discretion of the presiding officer, be permitted to make a limited appearance pursuant to the provisions of 10 CFR 2.315(a). A person making a limited appearance may make an oral or written statement of his or her position on the issues but may not otherwise participate in the proceeding. A limited appearance may be made at any session of the hearing or at any prehearing conference, subject to the limits and conditions as may be imposed by the presiding officer. Details regarding the procedure to make a limited appearance will be provided by the presiding officer if such sessions are scheduled.
