

collection described below. In accordance with the Paperwork Reduction Act and OMB procedures, SBA is publishing this notice to allow all interested member of the public an additional 30 days to provide comments on the proposed collection of information.

DATES: Submit comments on or before March 1, 2021.

ADDRESSES: Comments should refer to the information collection by title and/or OMB Control Number and should be sent to: *Agency Clearance Officer*, Curtis Rich, Small Business Administration, 409 3rd Street SW, 5th Floor, Washington, DC 20416; and *SBA Desk Officer*, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Curtis Rich, Agency Clearance Officer, (202) 205-7030 *curtis.rich@sba.gov*.

Copies: You may obtain a copy of the information collection and supporting documents from the Agency Clearance Officer.

SUPPLEMENTARY INFORMATION: The information collected from the public, including our program participants and stakeholders, will help ensure users have an effective, and satisfying experience with the programs and activities offered or sponsored by the Small Business Administration. The information will provide insights into the public's perceptions, experience and expectations, and help focus attention on areas where communication, training or changes in operations might improve delivery of products or services.

Solicitation of Public Comments

Comments may be submitted on (a) whether the collection of information is necessary for the agency to properly perform its functions; (b) whether the burden estimates are accurate; (c) whether there are ways to minimize the burden, including through the use of automated techniques or other forms of information technology; and (d) whether there are ways to enhance the quality, utility, and clarity of the information.

Title: Generic Clearance for the Collection of Qualitative and Quantitative Feedback on Agency Service Delivery.

OMB Control Number: 3245-0398.

Description of Respondents: Program participants and stakeholders.

Description of Respondents: 500,000.

Estimated Annual Responses: 5000,000.

Estimated Annual Hour Burden: 70,000.

Curtis Rich,

Management Analyst.

BILLING CODE 8026-03-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. FAA-2020-0926]

Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Notice of Proposed Outdoor Laser Operation(s)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The collection involves the gathering of information necessary for the FAA to ensure proposed outdoor laser operations will not interfere with air traffic operations. The information to be collected will be used to and/or is necessary because the FAA must evaluate proposed outdoor laser operations requiring a Food and Drug Administration (FDA) variance from a laser light show, display, or device.

DATES: Written comments should be submitted by March 30, 2021.

ADDRESSES: Please send written comments:

By Electronic Docket: *www.regulations.gov* (Enter docket number into search field).

By mail: 800 Independence Ave. SW, Washington, DC 20591, ATTN: Manager, Airspace Rules and Regulations, AJV-P21.

By fax: 202-267-9328.

FOR FURTHER INFORMATION CONTACT:

Brian Konie by email at: *brian.konie@faa.gov*; phone: 202-267-8783.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be

minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0662.

Title: Notice of Proposed Outdoor Laser Operation(s).

Form Numbers: FAA Form 7140-1.

Type of Review: Renewal of an information collection.

Background: No laser light show, projection system, or device may vary from compliance with 21 CFR 1040.11(c) in design or use without the approval of an application for variance in accordance with 21 CFR 1010.4 using FDA Form 3147. In order to obtain a variance from 21 CFR 1040.11(c) for a laser light show, display, or device (as described on FDA Form 3147); advance written notification must be made as early as possible to appropriate federal, state, and local authorities providing show itinerary with dates and locations clearly and completely identified, and a basic description of the proposed effects including a statement of the maximum power output intended. Such notifications must be made, but not necessarily be limited, to the FAA for any projections into open airspace at any time (*i.e.*, including set up, alignment, rehearsals, performances, etc.). If the FAA objects to any laser effects, the objections will be resolved and any conditions requested by FAA will be adhered to. If these conditions cannot be met, the objectionable effects will be deleted from the show.

FAA Advisory Circular (AC) 70-1A, Outdoor Laser Operations, provides information for those proponents planning to conduct outdoor laser operations that may affect aircraft operations in the United States (U.S.) National Airspace System (NAS). In addition, FAA AC 70-1A explains the necessity to notify the FAA, how to notify the FAA of the planned laser operation, and any action the FAA will take to respond to such notifications. Furthermore, AC 70-1A includes instructions for completing the requisite FAA Form 7140-1, Notice of Proposed Outdoor Laser Operation(s).

Respondents: Approximately 603 laser operations.

Frequency: One time per laser operation.

Estimated Average Burden per Response: Approximately four hours per form.

Estimated Total Annual Burden: Approximately 2,412 hours.

Issued in Washington, DC, on January 22, 2021.

Natasha A. Durkins,

Director, Policy, AJV-P, Air Traffic Organization.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2010-0100]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on December 10, 2020, Brownsville & Rio Grande International Railroad (BRG) petitioned the Federal Railroad Administration (FRA) for a modification to its waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 232, Brake System Safety Standards for Freight and Other Non-Passenger Trains and Equipment; End-Of-Train Devices, and 215, Railroad Freight Car Safety Standards. FRA assigned the petition Docket Number FRA-2010-0100.

Specifically, BRG seeks a modification to its waiver of compliance with certain requirements of 49 CFR part 215, and 49 CFR 232.205, *Class I Brake Test—Initial Terminal Inspection*. Presently, BRG's relief permits trains transferred by Union Pacific Railroad Company (UP) from the US/Mexico border interchange with the Kansas City Southern de Mexico Railway (KCSM) at Brownsville, Texas, to move from BRG's interchange point with UP at milepost (MP) 4.48 to the BRG inspection point between MPs 8.0 and 9.0, where required FRA inspections are performed (see Docket Number FRA-2007-28340). Occasionally, trains destined for interchange to BRG are delayed at UP's Olmito Yard by additional Federal agency inspection activities. BRG is permitted to pick up trains at Olmito Yard (in lieu of the interchange point at MP 4.48) on those occasions and perform the required FRA inspections between MPs 8.0 and 9.0 in accordance with its present relief.

In its petition, BRG requests that the track covered under this waiver be extended an additional three miles through the end of the Palo Alto Subdivision, which terminates at MP 0.0, and onto BRG's South Lead, where the required inspections will be completed between MPs 2.0 and 3.0, as were previously completed between MPs 8.0 and 9.0 on the Palo Alto Subdivision. BRG states that it will

adhere to the same conditions outlined in FRA's decision letter dated December 18, 2017, at the proposed new inspection point.

In support of its petition, BRG states this waiver would help expedite any delays caused by required port of entry inspections and other unforeseen delays. The modification would provide capacity to process two inbound trains back-to-back, allowing for more efficient use of bridge windows. Trains from the KCSM Matamoros Yard to the Port of Brownsville (Port) travel less than 25 miles. BRG further states that its request will facilitate international trade between the United States and Mexico by allowing inbound trains to go directly to the Port. The Port is a more secure location to inspect the incoming trains, and operational efficiencies are gained by moving the cars directly into the serving yard. BRG states that the change will support the ongoing extensive growth in the Rio Grande Valley.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Website:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation (DOT), 1200 New Jersey Ave. SE, W12-140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Ave. SE, Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by March 15, 2021 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Anyone can search the electronic form of any written communications and comments received into any of our

dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See also <https://www.regulations.gov/privacyNotice> for the privacy notice of www.regulations.gov.

Issued in Washington, DC.

John Karl Alexy,

Associate Administrator for Railroad Safety, Chief Safety Officer.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2010-0017]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on January 15, 2021, the Burlington Junction Railway (BJRY) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 223, Safety Glazing Standards. FRA assigned the petition Docket Number FRA-2010-0017.

Specifically, BJRY, a Class III railroad, seeks to renew its waiver of compliance from 49 CFR 223.11, *Requirements for existing locomotives*, for one 60-ton, 500 horsepower diesel-electric locomotive numbered BJRY 3238. This locomotive was built for the United States Army by Baldwin Locomotive Works in November 1953.

BJRY operates this locomotive in terminal/switching service at Rochelle, Illinois, where BJRY interchanges with both Union Pacific Railroad Company and BNSF Railway Company. BJRY 3238 operates on other-than-main track at speeds not exceeding 10 miles per hour. The locomotive is equipped with safety laminate glass (AS-1, AS-2) and is serviced and maintained by BJRY at Rochelle, Illinois.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.
