reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing these preliminary results in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.221(b)(4).

Jeffrey I. Kessler,
Assistant Secretary for Enforcement and Compliance.

International Trade Administration
[A–570–832]
Pure Magnesium From the People’s Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2018–2019

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is conducting the administrative review of the antidumping duty order on pure magnesium from the People’s Republic of China (China), covering the period May 1, 2018 through April 30, 2019. Commerce preliminarily determines that Tianjin Magnesium International Co., Ltd. and Tianjin Magnesium Metal Co., Ltd. (collectively TMI/TMM) did not have reviewable entries during the period of review (POR). We invite interested parties to comment on these preliminary results.

Background

On May 1, 2019, Commerce published a notice of opportunity to request an administrative review of the antidumping duty order on pure magnesium from China for the POR.1 On July 15, 2019, in response to a timely request from the petitioner,2 and in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.221(c)(1)(i)), we initiated an administrative review of the antidumping duty order on pure magnesium from China with respect to TMI/TMM.3

Scope of the Order

The product covered by this antidumping duty order is pure magnesium from China, regardless of chemistry, form or size, unless expressly excluded from the scope of the order. Pure magnesium is a metal or alloy containing by weight primarily the element magnesium and produced by decomposing raw materials into magnesium metal. Pure primary magnesium is used primarily as a chemical in the aluminum alloying, desulfurization, and chemical reduction industries. In addition, pure magnesium is used as an input in producing magnesium alloy. Pure magnesium encompasses products (including, but not limited to, butt ends, stubs, crowns and crystals) with the following primary magnesium contents:

1. Products that contain at least 99.95% primary magnesium, by weight (generally referred to as “ultra pure” magnesium) Magnesium Alloy4 and are thus outside the scope of the existing antidumping orders on magnesium from China (generally referred to as “alloy” magnesium).
2. Products that contain less than 99.95%, but not less than 99.8%, primary magnesium, by weight (generally referred to as “pure” magnesium); and
3. Products that contain 50% or greater, but less than 99.8% primary magnesium, by weight, and that do not conform to ASTM specifications for alloy magnesium (generally referred to as “off-specification pure” magnesium). “Off-specification pure” magnesium is pure primary magnesium containing magnesium scrap, secondary magnesium, oxidized magnesium or impurities (whether or not intentionally added) that cause the primary magnesium content to fall below 99.8% by weight. It generally does not contain, individually or in combination, 1.5% or more, by weight, of the following alloying elements: Aluminum, manganese, zinc, silicon, thorium, zirconium and rare earths.

Excluded from the scope of the order are alloy primary magnesium (that meets specifications for alloy magnesium), primary magnesium anodes, granular primary magnesium (including turnings, chips and powder) having a maximum physical dimension (i.e., length or diameter) of one inch or less, secondary magnesium (which has pure primary magnesium content of less than 50% by weight), and remelted magnesium whose pure primary magnesium content is less than 50% by weight.

Pure magnesium products covered by the order are currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheadings 8104.11.00, 8104.19.00, 8104.20.00, 8104.30.00, 8104.90.00, 3824.90.11, 3824.90.19 and 9817.00.90. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope is dispositive.

Preliminary Determination of No Shipments

We received timely submissions from TMI/TMM certifying that they did not have sales, shipments, or exports of subject merchandise to the United States during the POR.5 On December 20, 2019, we requested the U.S. Customs and Border Protection (CBP) data file of entries of subject merchandise imported into the United States during the POR, and exported by TMI/TMM. This query
Chinese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to Chinese exporter(s) that supplied that non-Chinese exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

**Notification to Importers**

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this period. Failure to comply with this requirement may result in the Secretary’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice is issued in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.221(b)(4).

Jeffrey I. Kessler,
Assistant Secretary for Enforcement and Compliance.

---

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**[RTID 0648–XA711]**

**Fisheries of the Exclusive Economic Zone Off Alaska; Groundfish of the Gulf of Alaska; Central Gulf of Alaska Rockfish Program**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notification of standard prices and fee percentage.

**SUMMARY:** NMFS publishes the standard ex-vessel prices and fee percentage for cost recovery under the Central Gulf of Alaska (GOA) Rockfish Program (Rockfish Program). This action is intended to provide participants in a rockfish cooperative with the standard prices and fee percentage for the 2020 fishing year, which was authorized from May 1 through November 15. The fee percentage is 3.0 percent. The fee payments are due from each rockfish cooperative on or before February 15, 2021.

**DATES:** Valid on: February 4, 2021.
