

comments on directing USAC to include eligibility review as part of the application process, but not requiring applicants to file FCC Forms 460. Are there other means of identifying health care providers and determining their eligibility for support in the program that should be considered?

17. Finally, are there additional improvements the Bureau should consider making to the application, review, and invoicing processes? For example, during the Round 1 application process, applicants were required to submit documentation demonstrating that funding requests were for equipment and services eligible for Program support, and funding commitments were made based on the anticipated costs of the eligible services requested on their applications. After receiving Round 1 commitments, however, some health care providers seeking support for eligible services and equipment experienced supply chain disruptions and equipment shortages, while other health care providers determined that, due to shifting pandemic response strategies, they needed different services or equipment than those requested in their application. Anticipating these issues, the Commission gave health care providers flexibility to respond to changing circumstances by not requiring health care providers that received funding commitments to purchase only the services and connected devices identified in their applications. Accordingly, health care providers that received funding commitments may have been allowed to substitute vendors, eligible services, and/or eligible connected devices as long as the substituted items are eligible and the total amount sought for reimbursement does not exceed the commitment amount.

18. Should the Bureau maintain this flexibility, but streamline the application process by requiring applicants demonstrate the eligibility of the connected devices and services purchased using Round 2 support only during the invoicing process? Are health care providers still experiencing supply chain delays or noticing shortages of certain connected devices? Have health care providers' pandemic response strategies solidified to the point where they will be able to accurately identify the telecommunication services, information services, or connected devices needed on their application for Round 2? If the Bureau does not require applicants to demonstrate the eligibility of the services and connected devices for which they seek funding on their applications during Round 2, what

documentation or demonstration should the Bureau require the applicant to submit to demonstrate that they will use the funding requested for services and devices that are eligible for support? What safeguards should the Bureau consider implementing to ensure that this proposal does not lead to waste, fraud, or abuse of Program funding? Should additional certifications be required on applications and for each invoice to ensure applicants/awardees understand what is expected of them and the potential penalties for waste, fraud, or abuse? Relatedly, should a list of eligible and ineligible equipment and services to provide applicants with specific guidance on what may be requested for reimbursement be published?

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and any Associated Form(s)

9000-0018, Federal Acquisition Regulation Part 3: Improper Business Practices and Personal Conflicts of Interest.

B. Need and Uses

DoD, GSA, and NASA are combining OMB Control Nos. for the Federal Acquisition Regulation (FAR) by FAR part. This consolidation is expected to improve industry's ability to easily and efficiently identify burdens associated with a given FAR part. The review of the information collections by FAR part allows improved oversight to ensure there is no redundant or unaccounted for burden placed on industry. Lastly, combining information collections in a given FAR part is also expected to reduce the administrative burden associated with processing multiple information collections.

This justification supports the revision and extension of OMB Control No. 9000-0018 and combines it with the previously approved information collections under OMB Control No. 9000-0091, with the new title "Federal Acquisition Regulation Part 3: Improper Business Practices and Personal Conflicts of Interest." Upon approval of this consolidated information collection, OMB Control No. 9000-0091

will be discontinued. The burden requirements previously approved under the discontinued number will be covered under OMB Control No. 9000–0018.

This clearance covers the information collection that offerors or contractors must submit to comply with the following requirements in FAR Part 3:

- *52.203–2, Certificate of Independent Price Determination.* This solicitation provision requires an offeror to certify that the prices in their offer have been arrived at independently, have not been or will not be knowingly disclosed, and have not been submitted for the purpose of restricting competition. This clause is used to ensure that Government contracts are not awarded to firms violating antitrust laws.

- *52.203–7, Anti-Kickback Procedures.* This contract clause requires contractors to report in writing to the inspector general of the contracting agency, the head of the contracting agency if the agency does not have an inspector general, or the Attorney General possible violations of 41 U.S.C. Chapter 87, Kickbacks, and to notify the contracting officer when monies are withheld from sums owed a subcontractor under the prime contract when the contracting officer has directed the prime contractor to do so to offset the amount of a kickback. The information reported by contractors will be used by the Federal agency to investigate potential violations.

- *52.203–13, Contractor Code of Business Ethics and Conduct.* This contract clause requires contractors and subcontractors to report to the agency Office of the Inspector General, whenever it has credible evidence that a principal, employee, agent, or subcontractor of the contractor has committed a violation of Federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in Title 18 U.S.C., or a violation of the Civil False Claims Act (31 U.S.C. 3729–3733). The information will be used by the Federal agency to investigate suspected violations.

- *52.203–16, Preventing Personal Conflicts of Interest.* This contract clause requires contractors and subcontractors to obtain and maintain from employees assigned to a task under a contract, a disclosure of interests that might be affected by the task to which the employee has been assigned. Contractors must report to any personal conflict of interest violation by a covered employee and the proposed actions to be taken. In exceptional circumstances, the contractor may request the head of the contracting

activity approve a plan to mitigate the personal conflict of interest or waive the requirement to prevent personal conflicts of interest. This information is used by the contractor and the contracting officer to identify and mitigate personal conflicts of interest.

Information Collection; Combating Trafficking in Persons

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, and the Office of Management and Budget (OMB) regulations, DoD, GSA, and NASA invite the public to comment on a revision and renewal concerning combating trafficking in persons. DoD, GSA, and NASA invite comments on: whether the proposed collection of

information is necessary for the proper performance of the functions of Federal Government acquisitions, including whether the information will have practical utility; the accuracy of the estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. OMB has approved this information collection for use through September 30, 2021. DoD, GSA, and NASA propose that OMB extend its approval for use for three additional years beyond the current expiration date.

DATES: DoD, GSA, and NASA will consider all comments received by April 6, 2021.

ADDRESSES: DoD, GSA, and NASA invite interested persons to submit comments on this collection through <http://www.regulations.gov> and follow the instructions on the site. This website provides the ability to type short comments directly into the comment field or attach a file for lengthier comments.
