EXPORT-IMPORT BANK

[Public Notice: 2021-6003]

Agency Information Collection Activities: Comment Request

AGENCY: Export-Import Bank of the United States.

ACTION: Submission for OMB review and comments request.

SUMMARY: The Export-Import Bank of the United States (EXIM), as a part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal Agencies to comment on the proposed information collection, as required by the Paperwork Reduction Act of 1995. The collection provides EXIM staff with the information necessary to monitor the borrower's payments for exported goods covered under its short and medium-term export credit insurance policies. It also alerts EXIM staff of defaults, so they can manage the portfolio in an informed manner.

DATES: Comments must be received on or before April 9, 2021 to be assured of consideration.

ADDRESSES: Comments may be submitted electronically on WWW.REGULATIONS.GOV or by mail to Mia Johnson, Export-Import Bank of the United States, 811 Vermont Ave. NW Washington, DC 20571. Form can be viewed at <https://www.exim.gov/sites/default/files/forms/eib10-05.pdf>.

SUPPLEMENTARY INFORMATION:

Title and Form Number: EIB 92-29 Export-Import Bank Report of Premiums Payable for Exporters Only.

OMB Number: 3048-0017.

Type of Review: Regular.

Need and Use: The "Report of Premiums Payable for Exporters Only" form is used by exporters to report and pay premiums on insured shipments to various foreign buyers under the terms of the policy and to certify that premiums have been correctly computed and remitted. Individual transactions that an exporter may have with the same foreign borrower can be sub-totaled and entered as a single line item for the specific month provided the length of payment term is identical. The use of sub-totals reduces the administrative burden on the exporter. The "Report of Premiums Payable for Exporters Only" is used by the Bank to determine the eligibility of the shipment(s) and to calculate the premium due to Ex-Im Bank for its support of the shipment(s) under its insurance program.

Affected Public: This form affects entities involved in the export of U.S. goods and services.

Annual Number of Respondents: 2600.

Estimated Time per Respondent: 15 minutes.

SUPPLEMENTARY INFORMATION:

Title: Rules and Regulations under the Wool Products Labeling Act of 1939, 16 CFR part 300.

OMB Control Number: 3084-0100.

Type of Review: Extension of a currently approved collection.

Likely Respondents: Manufacturers, importers, processors and marketers of wool products.

Frequency of Response: Third party disclosure; recordkeeping requirement.

Estimated annual hours burden: 1,880,000 hours (160,000 recordkeeping hours + 1,720,000 disclosure hours).

Recordkeeping: 160,000 hours [4,000 wool firms incur an average 40 hours per firm].

Disclosure: 1,720,000 hours [240,000 hours for determining label content + 480,000 hours to draft and order labels + 1,000,000 hours to attach labels].

Estimated annual cost burden: \$25,620,000 (solely relating to labor costs).

Abstract: The Wool Products Labeling Act of 1939 (Wool Act) prohibits the misbranding of wool products. The Wool Rules establish disclosure requirements that assist consumers in making informed purchasing decisions and recordkeeping requirements that assist the Commission in enforcing the Rules.

As required by section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), the FTC is providing this opportunity for public comment before requesting that OMB extend the existing clearance for the information collection requirements contained in the Commission's Wool Rules.

Burden Statement

Staff's burden estimates for the Wool Rules are based on data from the Department of Commerce's Bureau of the Census, the International Trade Commission, the Department of Labor's Bureau of Labor Statistics (BLS), and data or other input from the main industry association, the American Apparel and Footwear Association (AAFA), and from *SICCode.com*, which specializes in the business classification of SIC (Standard Industrial Classification) and NAICS (North American Industry Classification System) codes for business identification, verification, and targeting. The AAFA, a national trade association which represents U.S. apparel, footwear and other sewn products companies and their suppliers, has stated that "[t]he use of labels on textiles and apparels is beneficial to consumers, manufacturers, and business in general as it allows for the necessary flow of information along the supply chain."¹ The relevant information collection requirements in these rules and staff's corresponding burden estimates follow. The estimates address the number of hours needed and the

labor costs incurred to comply with the requirements. Staff believes that a significant portion of hours and labor costs currently attributable to burden below are time and financial resources usually and customarily incurred by persons in the course of their regular activity (*e.g.*, industry participants already have and/or would have care labels regardless of the Rules) and could be excluded from PRA-related burden.²

Estimated annual hours burden: 1,880,000 hours (160,000 recordkeeping hours + 1,720,000 disclosure hours).

Recordkeeping: Staff estimates that approximately 4,000 wool firms are subject to the Wool Rules' recordkeeping requirements. Based on an average annual burden of 40 hours per firm, the total recordkeeping burden is 160,000 hours.

Disclosure: Approximately 8,000 wool firms, producing or importing about 600,000,000 wool products annually, are subject to the Wool Rules' disclosure requirements. Staff estimates the burden of determining label content to be 30 hours per year per firm, or a total of 240,000 hours, and the burden of drafting and ordering labels to be 60 hours per firm per year, or a total of 480,000 hours. Staff believes that the process of attaching labels is now fully automated and integrated into other production steps for about 40 percent of all affected products. For the remaining 360,000,000 items (60 percent of 600,000,000), the process is semi-automated and requires an average of approximately ten seconds per item, for a total of 1,000,000 hours per year. Thus, the total estimated annual burden for all firms is 1,720,000 hours (240,000 hours for determining label content + 480,000 hours to draft and order labels + 1,000,000 hours to attach labels). Staff believes that any additional burden associated with advertising disclosure requirements would be minimal (less than 10,000 hours) and can be subsumed within the burden estimates set forth above.

Estimated annual cost burden: \$25,620,000, rounded to the nearest thousand (solely relating to labor costs). The chart below summarizes the total estimated costs.

¹ Page one from comment by Kevin M. Burke, President and CEO, American Apparel & Footwear Association, March 26, 2012, *Advance Notice of Proposed Rulemaking: Request for Public Comment: Rules and Regulations under the Wool Products Labeling Act of 1939*; 77 FR 4498 (Jan. 30, 2012).

² 5 CFR 1320.3(b)(2).

Task	Hourly rate	Burden hours	Labor cost
Determine label content	³ \$29.00	240,000	\$6,960,000
Draft and order labels	⁴ 9.00	480,000	9,120,000
Attach labels	⁵ 6.50	1,000,000	6,500,000
Recordkeeping	⁶ 19.00	160,000	3,040,000
Total			25,620,000

Staff believes that there are no current start-up costs or other capital costs associated with the Wool Rules. Because the labeling of wool products has been an integral part of the manufacturing process for decades, manufacturers have in place the capital equipment necessary to comply with the Rules. Based on knowledge of the industry, staff believes that much of the information required by the Wool Act and Rules would be included on the product label even absent their requirements. Similarly, recordkeeping and advertising disclosures are tasks performed in the ordinary course of business so that covered firms would incur no additional capital or other non-labor costs as a result of the Rules.

⁵ For imported products, the labels generally are attached in the country where the products are manufactured. According to information compiled by an industry trade association using data from the U.S. Department of Commerce, International Trade Administration and the U.S. Census Bureau, approximately 97.5% of apparel used in the United States is imported. With the remaining 2.5% attributable to U.S. production at an approximate domestic hourly wage of \$12 to attach labels, staff has calculated a weighted average hourly wage of \$6.50 per hour attributable to U.S. and foreign labor combined.
