BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-10020-17-Region 3]

Clean Air Act Operating Permit Program; Petition To Object to the Title V Permit for Northeast Maryland Waste Disposal Authority; Maryland

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: Pursuant to the Clean Air Act (CAA), the Administrator of the Environmental Protection Agency (EPA) signed an Order, dated December 11, 2020, granting a petition to object to a state operating permit issued by the Maryland Department of the Environment (MDE). The Order responds to a February 4, 2019 petition, relating to the Northeast Maryland Waste Disposal Authority's Montgomery County Resource Recovery Facility (MCRRF), a municipal solid waste resource recovery facility located in Montgomery County, Maryland. The petition was submitted by the Environmental Integrity Project and the Chesapeake Climate Action Network (the Petitioners). This Order constitutes final action on that petition requesting that the Administrator object to the issuance of the proposed CAA title V permit.

DATES: February 12, 2021.

ADDRESSES: Copies of the final Order, the petition, and all pertinent information relating thereto can be requested by electronic mail to the address set forth below in the **FOR FURTHER INFORMATION CONTACT** section. The final Order is also available electronically at the following website: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

FOR FURTHER INFORMATION CONTACT: Cynthia Stahl, Permits Branch, Air & Radiation Division, EPA Region III, (215) 814-2180, stahl.cynthia@epa.gov.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review and object to, as appropriate, title V operating permits proposed by state permitting authorities. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to a state title V operating permit if EPA has not done so. Petitions must be based only on objections raised with reasonable specificity during the public comment period, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or that the grounds for objection or other issue arose after the comment period.

MDE issued the final MCRRF renewal operating permit (permit no. 24-031-1718) on January 1, 2019. In the MCRRF petition (numbered III-2019-2), the Petitioners sought EPA objection on the basis that the title V permit failed to set forth monitoring requirements that assured continuous compliance with the 1-hour Prevention of Significant Deterioration emission limit for hydrogen chloride. The Order explains the reasons behind EPA's decision to grant the petition for objection.

Dated: February 4, 2021.

Cristina Fernandez,

Air and Radiation Division, US EPA Region III.

Inventory of U.S. Greenhouse Gas Emissions and Sinks: 1990-2019

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of document availability and request for comments.

SUMMARY: The Draft Inventory of U.S. Greenhouse Gas Emissions and Sinks: 1990-2019 is available for public review. The Environmental Protection Agency (EPA) requests recommendations for improving the overall quality of the inventory report to be finalized in April 2021, as well as subsequent inventory reports.

DATES: To ensure your comments are considered for the final version of the document, please submit your comments by March 15, 2021. However, comments received after that date will still be welcomed and considered for the next edition of this report.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2021-0008, to the Federal eRulemaking Portal: <https://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. Do not submit electronically any information you consider to be Confidential Business Information (CBI). Comments can also be submitted in hardcopy to GHG Inventory at: Environmental Protection Agency, Climate Change Division (6207A), 1200 Pennsylvania Ave. NW, Washington, DC 20460, Fax: (202) 343-2342. You are welcome and encouraged to send an email with your comments to GHGInventory@epa.gov. EPA may publish any comment received to its public docket, submitted in hardcopy or sent via email. For additional submission methods, the full EPA public comment policy, information about CBI, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Ms. Mausami Desai, Environmental Protection Agency, Office of Air and Radiation, Office of Atmospheric Programs, Climate Change Division, (202) 343-9381, GHGInventory@epa.gov.

SUPPLEMENTARY INFORMATION: Annual U.S. emissions for the period of time from 1990 through 2019 are summarized and presented by sector, including source and sink categories. The inventory contains estimates of carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O), hydrofluorocarbons (HFC), perfluorocarbons (PFC), sulfur hexafluoride (SF₆), and nitrogen trifluoride (NF₃) emissions. The technical approach used in this report to estimate emissions and sinks for greenhouse gases is consistent with the methodologies recommended by the Intergovernmental Panel on Climate Change (IPCC), and reported in a format
