participate in the testing and review of its default procedures, including any close-out procedure, at least annually and following material changes thereto.

By amending the Default Management Procedures to document and formalize the procedures for convening the CDS Default Committee remotely by teleconference, the proposed rule change would promote ICC’s ability to efficiently and safely manage its close-out process when the CDS Default Committee cannot meet in person, which would help to ensure that ICC has the authority and operational capacity to take timely action to contain losses and liquidity demands and continue to meet its obligations in the event of default. In addition, the Commission believes the proposed updates and clarification changes to the default notification procedures would ensure that ICC’s relevant stakeholders stay informed throughout the default management process and enable them to provide responsive feedback that may also help ICC to take timely action to contain losses and liquidity demands while meeting its obligations. For these reasons, the Commission finds that the proposed rule change is consistent with Rule 17Ad–22(e)(13).14

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act, and in particular, with the requirements of Section 17A(b)(3)(F) of the Act15 and Rules 17 Ad–22(e)(2)(i), (e)(2)(v), and (e)(13) thereunder.16 It is therefore ordered pursuant to Section 19(b)(2) of the Act17 that the proposed rule change (SR–ICC–2020–014) be, and hereby is, approved.18
