substantial changes to the amendment. IPCB also adopted minor administrative changes such as alphabetizing compound names and adopting IUPAC names for some compounds listed at 35 IAC 211.7150.

III. EPA’s Analysis of the Proposed SIP Revision

In 2014, EPA received a petition requesting that cis-1,1,1,4,4,4-hexafluorobut-2-ene be exempted from VOC control based on its low reactivity, using ethane as a benchmark. Based on the mass maximum incremental reactivity value for the compound being less than that of ethane, EPA concluded that this compound makes negligible contributions to tropospheric ozone formation. Additionally, EPA considered risks not related to tropospheric ozone associated with currently allowed uses of the chemical to be acceptable. As a result, on November 28, 2018, EPA responded to the petition by amending 40 CFR 51.100(s) to exclude this chemical from the definition of VOC for purposes of preparing SIPs to attain the national ambient air quality standard for ozone under title I of the CAA. See 83 FR 61127 (Nov. 28, 2018). EPA’s action became effective on January 28, 2019.

By excluding cis-1,1,1,4,4,4-hexafluorobut-2-ene from the definition of VOM at 35 IAC 211.7150, Illinois’ proposed SIP revision is consistent with EPA’s action amending the definition of VOC at 40 CFR 51.100(a).

IV. What action is EPA taking?

EPA is proposing to approve the revision to the Illinois SIP at 35 IAC 211.7150 submitted on October 20, 2020. The proposed approval of the revision meets the criteria of the CAA and applicable Federal regulations.

V. Incorporation by Reference

In this rule, EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is proposing to incorporate by reference revisions to 35 IAC 211.7150 “Volatile Organic Material (VOM) or Volatile Organic Compound (VOC),” effective August 18, 2020. EPA has made, and will continue to make, these documents generally available through www.regulations.gov and at the EPA Region 5 Office (please contact the person identified in the FOR FURTHER INFORMATION CONTACT section of this preamble for more information).

VI. Statutory and Executive Order Reviews

Under the CAA the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:
- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 20355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).
