BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; Fixed Income Clearing Corporation; Order Instituting Proceedings To Determine Whether To Approve or Disapprove a Proposed Rule Change To Modify the Calculation of the MBSD VaR Floor To Incorporate a Minimum Margin Amount

February 9, 2021.

I. Introduction

On November 20, 2020, Fixed Income Clearing Corporation ("FICC") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b–4 thereunder,² proposed rule change SR–FICC–2020–017 to introduce a new "Minimum Margin Amount" to complement the existing VaR Floor calculation.³ The proposed rule change was published for comment in the Federal Register on December 10, 2020.⁴ The Commission has received comment letters on the proposed rule change.⁵ On December 23, 2020,

FICC, through its Mortgage-Backed Securities Division ("MBSD"), serves as a central counterparty ("CCP") and provider of clearance and settlement services for the non-private label mortgage-backed securities markets. A key tool that FICC uses to manage its respective credit exposures to its members is collecting margin from each member. The aggregated amounts of all members' margin constitutes the Clearing Fund, which FICC would access should a defaulted member's own margin be insufficient to satisfy losses to the CCP caused by the liquidation of that member's portfolio. Each member's margin consists of a number of applicable components, including a value-at-risk ("VaR") Charge designed to capture the potential market price risk associated with the securities in a member's portfolio. The VaR Charge is typically the largest of the margin components. To determine the VaR Charge, FICC generally uses a risk-based calculation designed to quantify the risks related to the volatility of market prices associated with the securities in a member's portfolio. However, FICC also uses a haircut-based calculation to determine a VaR Floor, which replaces the risk-based calculation to become a member's VaR Charge in the event that the VaR Floor is greater than the amount determined by the risk-based calculation, operating as a minimum VaR Charge. FICC uses the VaR Floor to mitigate the risk that the risk-based calculation does not result in margin amounts that accurately reflect FICC's applicable credit exposure, which may occur in certain member portfolios containing long and short positions in different asset classes that share a high degree of historical price correlation.

B. Minimum Margin Amount

FICC is proposing to introduce a new calculation called the "Minimum Margin Amount" to complement the existing VaR Floor calculation. Under the proposal, FICC would revise the existing definition of the VaR Floor to be the greater of (1) the current VaR Floor calculation, and (2) the Minimum Margin Amount. The Minimum Margin Amount would enhance FICC’s margin collection during periods of market volatility, particularly when TBA⁹ price changes significantly exceed those implied by the VaR model risk factors, such as rates and option-adjusted spread. FICC observed this situation occur during March and April 2020, with the result that margin amounts collected were not sufficient to mitigate FICC’s credit exposure to its members’ portfolios. The Minimum Margin...
Amount would be calculated based on historical price movements of the securities in the member's portfolio. Specifically, FICC would use a dynamic haircut method based on observed TBA price moves that would provide a more reliable estimate for the portfolios’ risk level when current market conditions deviate from historical observations. The Minimum Margin Amount would be a minimum volatility calculation for specified net unsettled positions, calculated using the historical market price changes of such benchmark TBA securities determined by FICC. The Minimum Margin Amount would cover such range of historical market price moves and parameters using a look-back period of no less than one year and no more than three years.

G. Summary of the Effect of the Changes Proposed in the Proposed Rule Change

FICC performed an impact study on members’ portfolios for the period beginning February 3, 2020 through June 30, 2020. On average, at the member level, FICC found that the Minimum Margin Amount would have increased the VaR Charge by $27 million during the period of the impact study. The largest percent increase in VaR Charge for any member would have been 146%, or $22 million. The largest dollar increase for any member would have been $333 million, or 37% increase in the VaR Charge. The top 10 members based on the size of their VaR Charges would have contributed 69.3% of the aggregate VaR Charges had the Minimum Margin Amount been in place. The same members would have contributed to 54% of the increase resulting from the Minimum Margin Amount.

Backtesting studies indicate that average daily Backtesting Charges would have decreased by approximately $450 million or 53% during the impact study period and the overall margin backtesting coverage (based on 12 month trailing backtesting) would have improved from approximately 97.3% to 98.5% through June 30, 2020 if the Minimum Margin Amount calculation had been in place.18

III. Proceedings To Determine Whether To Approve or Disapprove the Proposed Rule Change and Grounds for Disapproval Under Consideration

The Commission is instituting proceedings pursuant to Section 19(b)(2)(B) of the Act to determine whether the proposed rule change should be approved or disapproved. Institution of proceedings is appropriate at this time in view of the legal and policy issues raised by the proposed rule change. Institution of proceedings does not indicate that the Commission has reached any conclusions with respect to any of the issues involved. Rather, the Commission seeks and encourages interested persons to comment on the proposed rule change, and provide the Commission with arguments to support the Commission’s analysis as to whether to approve or disapprove the proposed rule change.

Pursuant to Section 19(b)(2)(B) of the Act, the Commission is providing notice of the grounds for disapproval under consideration. The Commission is instituting proceedings to allow for additional analysis of, and input from commenters with respect to, the proposed rule change’s consistency with Section 17A of the Act, and the rules thereunder, including the following provisions:

• Section 17A(b)(3)(F) of the Act, which requires, among other things, that the rules of a clearing agency must be designed to assure the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible and to protect investors and the public interest;

• Section 17A(b)(3)(I) of the Act, which requires that the rules of a clearing agency do not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act;

• Rule 17Ad–22(e)(4)(i) under the Act, which requires a covered clearing agency to establish, implement, maintain and enforce written policies and procedures reasonably designed to effectively identify, measure, monitor, and manage its credit exposures to participants and those arising from its payment, clearing, and settlement processes, including by maintaining sufficient financial resources to cover its credit exposure to each participant fully with a high degree of confidence; and

• Rule 17Ad–22(e)(6)(i) and (v) under the Act, which require a covered clearing agency to establish, implement, maintain and enforce written policies and procedures reasonably designed to cover its credit exposures to its participants by establishing a risk-based margin system that, at a minimum (1) considers, and produces margin levels commensurate with, the risks and particular attributes of each relevant product, portfolio, and market, and (2) uses an appropriate method for measuring credit exposure that accounts for relevant product risk factors and portfolio effects across products; and

• Rule 17Ad–22(e)(23)(ii) under the Act, which requires a covered clearing agency to calculate, implement, maintain and enforce written policies and procedures reasonably designed to provide sufficient information to enable participants to identify and evaluate the risks, fees, and other material costs they incur by participating in the covered clearing agency.

IV. Procedure: Request for Written Comments

The Commission requests that interested persons provide written submissions of their views, data, and arguments with respect to the issues identified above, as well as any other concerns they may have with the proposed rule change. In particular, the Commission invites the written views of interested persons concerning whether the proposed rule change is consistent with Section 17A(b)(3)(F) of the Act, Section 17A(b)(3)(I) of the Act, Rule 17Ad–22(e)(4)(i) under the Act, Rule 17Ad–22(e)(6)(i) and (v), Rule 17Ad–22(e)(23)(ii) under the Act, or any other provision of the Act, or the rules and regulations thereunder. Although there do not appear to be any issues relevant to approval or disapproval that would be facilitated by an oral presentation of views, data, and arguments, the Commission will consider, pursuant to Rule 19b–4(g) under the Act, any request for an opportunity to make an oral presentation.
Interested persons are invited to submit written data, views, and arguments regarding whether the proposed rule change should be approved or disapproved by February 23, 2021. Any person who wishes to file a rebuttal to any other person’s submission must file that rebuttal by March 3, 2021.

The Commission asks that commenters address the sufficiency of FICC’s statements in support of the proposed rule change, which are set forth in the Notice,23 in addition to any other comments they may wish to submit about the proposed rule change.

Comments may be submitted by any of the following methods:

Electronic Comments
• Use the Commission’s internet comment form (http://www.sec.gov/rules/sro.shtml); or
• Send an email to rule-comments@sec.gov. Please include File Number SR–FICC–2020–017 on the subject line.

Paper Comments
• Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090. All submissions should refer to File Number SR–FICC–2020–017. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission’s internet website (http://www.sec.gov/rules/sro.shtml). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission’s Public Reference Room, 100 F Street NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of FICC and on DTCC’s website (http://dtcc.com/legal/sec-rules-filings.aspx). All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–FICC–2020–017 and should be submitted on or before February 23, 2021. Rebuttal comments should be submitted by March 3, 2021.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.24

J. Matthew DeLesDernier, Assistant Secretary.

SUPPLEMENTARY INFORMATION:
I. Background Information

Small Business Administration

SBA Lender Risk Rating System

AGENCY: Small Business Administration.

ACTION: Notice of revised Risk Rating System and Lender Portal definition of Confidential Information; request for comments.

SUMMARY: This notice implements changes to the Small Business Administration’s (SBA’s) Risk Rating System. The Risk Rating System is an internal tool to assist SBA in assessing the risk of the SBA loan operations and loan portfolio of each active 7(a) Lender and Certified Development Company (CDC). Consistent with industry best practices, SBA recently redeveloped the model used to calculate the composite Risk Ratings of lenders and the risk associated with each SBA loan to ensure that the Risk Rating System remains current and predictive as technologies, the economy, and available data evolve. In conjunction with the redevelopment of the Lender Risk Rating, SBA is updating the Lender Portal and its definition for Confidential Information. SBA is publishing this notice with a request for comments to provide the public with an opportunity to comment.

DATES: This notice is effective February 16, 2021.

Comment Date: Comments must be received on or before April 19, 2021.

ADDRESSES: You may submit comments, identified by Docket number SBA–2020–0011 by using any of the following methods:

• Email: Eddie Ledford, Deputy Director, Office of Credit Risk Management, U.S. Small Business Administration, at eddward.ledford@sba.gov.

All comments will be posted on http://www.Regulations.gov. If you wish to include within your comment confidential business information (CBI) as defined in the Privacy and Use Notice/User Notice at http://www.Regulations.gov and you do not want that information disclosed, you must submit the comment by either Mail or Hand Delivery and you must address the comment to the attention of Eddie Ledford, Deputy Director, Office of Credit Risk Management, U.S. Small Business Administration. In the submission, you must highlight the information that you consider is CBI and explain why you believe this information should be held confidential. SBA will make a final determination, in its discretion, of whether the information is CBI and, therefore, will be published or not.

FOR FURTHER INFORMATION CONTACT: Eddie Ledford, Deputy Director, Office of Credit Risk Management, U.S. Small Business Administration, 409 Third Street SW, 8th Floor, Washington, DC 20416, (202) 205–6402.

SUPPLEMENTARY INFORMATION:

The Risk Rating System is an internal tool that uses data in SBA’s Loan and Lender Monitoring System (L/LMS), borrower data provided by Dun & Bradstreet (D&B), and certain macroeconomic factors to assist SBA in assessing the risk of the SBA loan performance of each 7(a) Lender and CDC (each, an SBA Lender) on a uniform basis and identifying those SBA Lenders whose portfolio performance, or other lender-specific risk-related factors, may demonstrate the need for additional SBA monitoring or other action. The Risk Rating System also serves as a vehicle to measure the aggregate strength of SBA’s overall 7(a) loan and 504 loan portfolios and to assist SBA in managing the related risk. SBA uses the Risk Rating System to make more effective use of its lender review and assessment resources. The Risk Rating System is available to SBA Lenders through SBA’s Lender Portal.
