

authentication, card validation, and identity verification. In the event of a lost, damaged or stolen credential, the cardholder must notify TSA immediately and may request a replacement card online, via telephone, or from an enrollment center for a \$60.00 fee.

Under section 809 of the United States Coast Guard Authorization Act of 2010 Sec. 809, certain Merchant Mariners are not required to obtain a credential when they apply for their TWIC® STA. TSA is revising the currently approved collection to reflect a reduction for Section 809 qualified Merchant Mariners. If a mariner opts to not receive a TWIC® card, TSA may reduce the TWIC® fee to reflect only the enrollment and vetting segments of the fee, a fee reduction of \$27.

TSA is also revising the collection to reflect the implementation of an online renewal or re-enrollment capability for those applicants who previously maintained an active TWIC® STA. Approximately 60 percent of active TWIC® cardholders enroll for a new TWIC® after their STA expires five years from the date of issuance. Online TWIC® renewals will reduce the applicant cost and hour burden by permitting eligible applicants to obtain a new TWIC® without enrolling in-person at a TSA enrollment center. Additionally, TSA mitigates certain security risks associated with online renewals by enrolling current TWIC® cardholders in recurrent vetting services, such as the Federal Bureau of Investigation's Rap Back Service. The renewal fee for TWIC® will decrease with the implementation of online renewals.

TSA invites all TWIC® applicants to complete an optional survey to gather information on the applicants' overall customer satisfaction with the enrollment process. This optional survey is administered at the conclusion of the enrollment process, including the new online renewals, and the process to activate the TWIC®, where applicable. The results from these surveys are compiled to produce reports that are reviewed by the enrollment services provider and TSA.

*Number of Annual Respondents:*  
744,345.<sup>1</sup>

<sup>1</sup> The burdens listed here are different from what was listed in the 60-Day Notice. TSA modified the estimates to include online renewals and a fee reduction for renewals. TSA also modified the collection to reflect a reduction for Section 809 Merchant Mariners who do not request a credential and therefore save \$27 in credential fees.

*Estimated Annual Burden Hours:* An estimated 413,162 hours annually.

*Estimated Annual Cost:* \$64,842,153.

Dated: February 18, 2021.

### A. Overview of Information Collection

*Title of Information Collection:*  
EnVision Centers Implementation Evaluation.

*OMB Approval Number:* 2528-New.

*Type of Request:* New collection.

*Form Number:* NA.

*Description of the need for the information and proposed use:* This request is for the collection of information for an implementation evaluation of EnVision Centers. EnVision Centers offer collocated and integrated services with the goal of helping low-income persons achieve self-sufficiency. Using leveraged resources from local and federal partnerships, HUD encourages EnVision Centers to target and integrate services within four main pillars: Economic empowerment, educational advancement, health and wellness, and character and leadership. In June 2018, HUD designated 18 EnVision Centers as part of the initiative's first cohort of designations and has since expanded the initiative with over 90 EnVision Centers to date. This creates a critical need to gain an in-depth understanding from local stakeholders of implementation efforts to date, which will help develop and guide the initiative while establishing a framework of knowledge for future program monitoring and evaluation efforts. The evaluation team will collect data from sites using qualitative, semi-structured interviews with four groups of key local stakeholders: Site leadership, front line staff, participants, and representatives from organizations (partners) that provide services and resources to the EnVision Center. The interviews will primarily seek to understand how communities selected and established their center, the process for centralized intake and participant level data collection, and how new partnerships and services have developed since the center's designation. Through an Inter-Agency Agreement (IAA), the Library of Congress' Federal Research Division will conduct the evaluation under guidance from HUD.

### Notice of Availability of the Crimson Solar Final Environmental Impact Statement and Proposed Land Use Plan Amendment, Riverside County, CA

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** In accordance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended, the Bureau of Land Management (BLM) has prepared a Final Environmental Impact Statement (EIS) and Proposed Land Use Plan Amendment to the California Desert Conservation Area (CDCA) Plan for the Crimson Solar Project, Riverside County, California, and by this notice is announcing its availability.

**DATES:** BLM planning regulations state that any person who meets the conditions as described in the regulations may protest the BLM's Proposed Land Use Plan Amendment. A person who meets the conditions and files a protest must do so within 30 days of the U.S. Environmental Protection Agency's (EPA) publication of its Notice of Availability in the **Federal Register**. The EPA published its Notice of Availability on February 12, 2021 (86 FR 9335).

**ADDRESSES:** You may review the Final EIS/Plan Amendment at <https://go.usa.gov/xACdN>. Instructions for filing a protest regarding the proposed Resource Management Plan Amendment are at: <https://www.blm.gov/programs/planning-and-nepa/public-participation/filing-a-plan-protest> and at 43 CFR 1610.5-2.

**SUPPLEMENTARY INFORMATION:** Sonoran West Solar Holdings LLC (the Applicant), a wholly owned subsidiary of Recurrent Energy LLC, applied for a right-of-way (ROW) grant for a photovoltaic solar project with the BLM. The applicant proposes to construct, operate, maintain, and decommission a maximum 350-megawatt solar photovoltaic facility with integrated battery storage and necessary ancillary facilities, including project substations, access roads, operations and maintenance buildings, and lay down areas. The Proposed Action includes 2,500 acres of BLM-administered land in Riverside County, California. The CDCA requires newly proposed utility sites not previously identified in the plan and proposed transmission lines outside designated utility corridors to be considered through a Plan Amendment. This decision therefore would amend the CDCA Plan to identify the Crimson Solar Project site as suitable for solar energy generation and to recognize the development of a high-voltage transmission line outside a designated corridor.

The BLM is the lead NEPA agency and will make Federal decisions regarding the proposed Plan Amendment and the ROW for the Project. The U.S. Fish and Wildlife Service is a Cooperating Agency and issued a Biological Opinion for the project on February 22, 2020. The U.S. EPA (Region 9) is a Cooperating Agency but does not have a direct permitting role in the project. The California
